**Two New Lysol Products** Giving time-proved protection

Antiseptic Toilet Soap

contains the famous Lysol Antiseptic, and therefore protects the skin from germ infection.

makes razor and brush antiseptically clean, keeps infection from cuts and flesh exposed by shaving.

These two new products give the same protection to your skin that Lysol Antiseptic gives to the Hospital, the Doctor, or the Surgeon. They destroy all disease germs before they can work injury.

No matter how careful you are, your skin is never free from tiny breaks, scratches, cuts or chapped places where poisonous germs may enter.

Before the innumerable, minute wounds heal, they should be made antiseptically clean-germ free-to guard against irritating soreness, blood poisoning and skin diseases which leave permanent blemishes.

Lysol Toilet Soap not only gives this protection, but is also healing and soothing for the most delicate skin, leaving it wholesome and sweet. As a shampoo it cleans the scalp of Dandruff and makes the hair soft and lustrous. As valuable for baby's bath as for hardened and roughened skins.

Lysol Shaving Cream gives a refreshingly cool, soothing shave with no after-effect of smarting or skin stiffness. But, best of all, it destroys the germs seeking entry into the tiny cuts and scratches, and cleanses the skin for quick, healthy healing. It gives the antiseptic shave.

Ask for these Lysol products at any druggist's, and for your skin's health accept none other than those bearing the signature of Lehn & Fink, sole makers.
