MARKET TO BE MADE

A. P. Bateham Will Develop Fruit Business in Orient.

FINAL DETAILS ARRANGED

Co-operation Between Northwest Agencies and Government Expected to Overcome Loss of Trade With Europe.

A. P. Bateham will sail for the Orient Thursday to make a complete study of the fruit market as a joint representative of the Federal Government and the fruit agencies of the Northwest.

The trustees and members of the organization of the Fruit Growers' Agency met at the Benson Hotel yesterday to discuss final details of the plan.

The plan to send a representative to the Orient is one that the agency has been working on for the past year and represents one of the most important steps that has been taken since the organization of the co-operative plan with the Government.

Clarence W. Moomaw, chief of the office of markets, from the Federal Bureau of Investigation, presided at the conference yesterday. Trustees of the Fruit Growers' Agency who were present were: J. B. Adams, of Leavenworth, Wash.; L. J. Eliot and Frank E. Sichel, of Spokane; C. W. McCullagh, of Hood River; C. A. Malibout, of Portland; and W. F. Gwyn, of Seattle.

Mr. Bateham will go to China, Japan, the Philippines, Siberia and Australasia. The plan is full of promise for the fruitgrowers of the Northwest," says Mr. Gwyn, of the Northwest Fruit Exchange. "Mr. Bateham is a thoroughly practical fruitgrower and shipper, intimately familiar with Northwest fruit conditions and splendidly equipped for the work. The loss of the European markets through embargoes and shortage of cargo space makes it imperative that immediate steps be taken for the development of the vast potential markets across the Pacific, and the agency is gratified that the office of Markets has consented to assist us in this vital enterprise."

Mr. Bateham, who was formerly owner of a local orchard tract and who now has heavy holdings in the Hood River district, will visit China, Siberia, Japan and Australasia.

HOOD RIVER GROWERS PLEASUED

Dispatch of A. P. Bateham to Orient Regarded as Good Business. HOOD RIVER, Or., June 4.—(Special.)—In view of the closed markets of Northern Europe because of the war, the fruit agencies receive with expressions of high hopes the announcement of the appointment of A. P. Bateham as a special agent in charge of the office of Markets of the United States Department of Agriculture, who will sail this week for the Orient to make an investigation of apple distribution possibilities.

Mr. Bateham, who was formerly owner of a local orchard tract and who now has heavy holdings in the Hood River district, will visit China, Siberia, Japan and Australasia.

PRISONERS WILL WORK

Crushed Rock Will Be Used in Improving Sky-Line Boulevard—Work to Last All Summer.

Plans are being made for the operation of a rock quarry by county prisoners, according to Sheriff Hurlburt, who, with Roadmaster Yeon, reached this decision after a conference with County Commissioners.

A good quarry has been located west of the city, and the crushed rock will be used in improving the Sky-Line boulevard. Enough work is expected on that highway to keep the prisoners at work throughout the summer.

According to present plans a permanent camp will not be established, but the men will be taken to and from their work morning and evening. A number of the men confined at the jail are anxious to get exercises. Sheriff Hurlburt believes their wishes will be granted in full when they are put to work making "little ones out of big ones."

Sheriff Hurlburt will arrange to have the men who work in the quarry paid a small sum daily, in order that the best work may be secured.

Plans for the quarry are being worked out by Sheriff Hurlburt and Roadmaster Yeon, and it was stated yesterday that the operation probably would be started the latter part of this week.
