Almost invariably, the employers at Committee Wants to Raise \$100,000

Almost invariably, the employers at all plants where public meetings are held have arranged to finance their employers in the purchase of bonds, al-lowing them to buy on credit and pay for them on installments covering a period varying from 10 months in some cases to 20 months in others. Many employers have borrowed the money at the banks, paying 5 per cent interest, and permitted their employes to use it at 3% per cent, which is the same rate borne by the bonds them-selves. Under this arrangement the subscriber loses nothing by the pay-ment of interest, inasmuch as he is permitted to clip the coupons from the bonds as they come due. bonds as they come due.
