

# HIGHWAY WORK IS BEING LAID OUT

### Distribution of 6 Million Voted for Main Roads in State Is Under Consideration.

### FIRST JOB TO SELL BONDS

Only \$1,000,000 Worth Can Be Issued in 1917—Preliminary Work Must First Be Done by Counties, Then State Will Pave.

SALEM, Or., June 10.—(Special.)—The State Highway Commission plans to hold a meeting the middle or the latter part of this week, at which time it is hoped to map out the programme which will be followed in the distribution of the \$6,000,000 voted by the people at the recent special election for the construction of permanent roads.

It is the plan of the committee to outline the entire scheme of work as far as the money will go and to proceed with the actual construction of highways as soon as possible.

How much work can be done this year is problematical. Bonds must be issued and sold, the preliminary work must be done by the counties and the entire machinery for the gigantic job of covering the state with good roads be placed under way.

The bill itself provides that no more than \$1,000,000 worth of the bonds can be issued during 1917. By 1918 it is expected that the work will be in a position so that it can be pushed forward rapidly.

Many Counties Will Apply. A large number of the counties have their applications in, and it is expected many others will follow suit and start steps as soon as possible to prepare the base for such work prepared on the roads which are outlined in the bill.

It is believed that the imminence of a suit to test out the Bean-Barrett bill, as to how far the Commission may go in securing money from the bonds to be issued under that act, will not delay the meeting to outline the programme under the \$6,000,000 bonding bill.

Marion County Has Funds on Hand. Although Marion County returned one of the heaviest votes against the \$6,000,000 bond issue, it had received a promise from the Commission that it will be awarded money for the work on the Pacific Highway as soon as it has its base for such work prepared.
