INTERNE UNDER FIRE

Dr. McKay Investigating Report of Misconduct.

HOSPITAL FRAUD CHARGED

County Declared to Have Been Victimized by Rich Woman and by Numbers of Others Who Are Able to Pay Cost.

Alleged misconduct of one of the members of the medical staff of the County Hospital is now under investigation by Dr. Harry McKay, county physician.

According to Dr. McKay, this physician has been accepting money from an alleged indigent patient for signing a fraternal benefit certificate which allowed the young patient to receive \$10 a week from a fraternal organization during the time he was sick.

County Not Informed. The physician not only made the ridiculous charge of 50 cents a week for this service, but likewise refused to inform the county authorities that the patient could well afford to pay for the treatment he was receiving.

A disclosure of this alleged petty graft followed the receipt by Dr. McKay of an anonymous letter, in which it was said that the patient had property and money, despite the fact that he had informed Dr. McKay's office that he was penniless.

Many Impositors Found. The facts disclosed by Dr. McKay, as a result of this investigation, reveal just one of countless incidents of impositors who are "working" the county for free medical and hospital service.

Upon recommendation of Dr. McKay, the Board yesterday authorized the use of an application blank which all applicants for free treatment will be compelled to sign hereafter.

With the installation of this application form, Dr. McKay believes that much of the imposition practiced will be stopped. Dr. McKay was also authorized to pay internes \$50 a month hereafter as it was shown to be absolutely impossible to keep competent internes at the former wage of \$10 a month.
