

SUBSTITUTE FOOD BILL IS DRAWN UP

Drastic Features Removed, Senate Will Vote on Measure July 21,

PRESIDENT TO APPROVE

Herbert Hoover Points Out That if Action is Not Taken Soon Both Farmers and Public May Suffer Serious Losses.

WASHINGTON, July 10.—A Senate agreement to vote on President Wilson's food control bill on July 21, five weeks after its submission to Congress as an urgent war measure, was followed today by issuance from the White House of a detailed report by Herbert Hoover, declaring that both the farmers and the public are threatened with serious losses unless food control authority is given quickly to the Federal Government.

Democratic Senators obtained the agreement for a vote only after they had consented to strip the bill of some of its more drastic features, including the stringent prohibition provisions. So far-reaching was the revision demanded, in fact, that all-day conferences of the Senate's law-making committee and the agriculture committee resulted in presentation of a substitute for the entire measure.

Administration Bill Followed.
There was no expression of opinion from the White House regarding the provisions of the sub-bill, but it is expected to be agreeable to the President in the virtually every denomination of the lines of the Administration bill as originally introduced with power to control other industries besides food and fuel eliminated. It would prohibit manufacture of distilled liquors, without provision for Government purchase of existing stocks and would place in the President's hands the power and responsibility to decide whether prohibition shall be extended to beer and wine.

Neither was any comment on Mr. Hoover's report available at the White House, but the fact of its publication at this time was regarded as another evidence of President Wilson's disappointment over the failure of Congress to act. He repeatedly has sought to impress upon leaders the importance of quick enactment of the legislation and was particularly anxious that the food program be complete by July 1.

Senate Delays Legislation.
Any plan which can be acted on quickly provided it embodies the elementary principles of the Administration program, expected to be introduced in the White House support. The control bill now has been before the Senate more than two weeks and the food survey bill, another Administration measure, has been held up in conference since early in June.

With the whole legislative situation upset in the Senate, a thoroughly expressed doubt tonight whether action can be taken under any circumstances before Saturday of next week, the date set for the vote. The substitute bill, drawn by Chairman Gore of the agriculture committee, was taken up by the committee as soon as it was submitted and some progress made in its consideration. While the committee is continuing its work, the Senate will consider general features of the legislation.

Senator Chamberlain, who has had charge of the bill, obtained the agreement for a vote, authoritatively denied heretofore by the opposition, after he had given assurances of radical revision. Later he withdrew a motion filed yesterday for cloture on the bill for the first time in the Senate the cloture rule.

Food, Feed and Fuel Chief Items.

The Gore substitute provides that the Government control proposed shall be limited to foodstuffs, feed and fuel, the original purposes of the legislation, and not include steel, iron, cotton and many other products added in Congressional consideration. It would authorize Federal requisitioning and operation of coal mines, limit Federal licensing to concerns engaged in handling or producing foodstuffs or fuel, authorize Federal purchase and sale of "reasonable" quantities of foodstuffs and fuel, fix a guaranteed minimum price of \$1.50 a bushel for wheat and create a salaried board of food administration, subject to Senate confirmation.

The prohibition section of the substitute would forbid manufacture, importation or exportation of distilled beverages during the war, and would authorize their commandeering by the Government, "if necessary" to obtain industrial alcohol. The President would be authorized to limit or prohibit manufacture of malt, fermented and vinous beverages.

Leaders tonight expressed confidence that some such a compromise provision would be adopted in lieu of the Senate prohibition sections and the so-called Smoot amendment which is unsatisfactory to both wets and drys.

Minimum for Wheat \$1.50.

The agriculture committee today tentatively approved several sections of the substitute, including the provision to fix a guaranteed minimum price of \$1.50 for wheat producers and will continue work tomorrow.

Agreement for a final vote on the legislation July 21 and withdrawal of the cloture motion which was to have to a vote tomorrow with private pulls indicating its defeat, came after virtually every Senator became convinced that the bill could not be passed without substantial revision. Senator Lodge, acting Republican leader, and Senator Simmons, a Democrat and chairman of the finance committee, made vigorous speeches attacking the general scope of the measure and its effect upon business.

It was with the understanding drastic modification and limitation of the legislation was in preparation that Senator Chamberlain, in charge of the

KEY TO LEMBURG TAKEN

(Continued From First Page.)
Korniloff took 14,000 prisoners and 55 guns, of which 12 were heavy pieces. General Korniloff's cavalry and Cossacks are pursuing General Kirbach's retreating army south of Halicz and have forced the river Luvka, which parallels the river Luvka. The western bank of the Luvka dominates the wooded eastern bank, but it is considered unlikely that the Russian Austrian army will be able to concentrate sufficient troops to prevent a Russian passage of the river and a continuance of the advance in the direction of Dolina, 35 miles east of Stanislau. The co-operation of the seventh and eleventh armies north of Halicz, with the eighth army south of that town, has been like clockwork.

The success of the eighth army, the military critic of the Beth points out, separates the German army of General von Bothmer from the third Austrian army under General Kirbach and anticipates the evacuation of Halicz, which is not strictly a fortress, but a strong bridgehead protecting the positions of General von Bothmer's army from the east and southeast.

Additional villages have been captured. More than 1000 prisoners were taken yesterday. The Russians also captured seven field guns, many trench mortars and machine guns and a quantity of war material.

The statement says the enemy has retreated to the Lomnica River. In two days the Russians penetrated to a depth of six and two-thirds miles the enemy positions west of Stanislau.

BERLIN, via London, July 10.—The German War Office today announced that the German forces fighting in the Stanislau sector of the Gallican front were yesterday withdrawn behind the Lomnica River.

Near Riga, Dvinsk and Smorgon, on the northern end of the Russian front, the official statement added, fighting between the Germans and Russians had increased.

Kathryn Ella Howe Is Buried.
The funeral of Kathryn Ella Howe, daughter of Mr. and Mrs. George W. Howe, of 1095 East Twenty-second street North, was held yesterday from the chapel of J. P. Finley & Son, Rev. E. R. Dyott officiating. Mrs. H. W. Cary sang "Beautiful Isle of Somewhere." The pallbearers were Walter Moore, Harry Howard, George Hurlbutt and Frank Huntington. Interment was in Lone Fir Cemetery.

Army Officers Assigned.
WASHINGTON, July 10.—Assignments for the recently promoted general officers of the regular Army were announced today, as follows: Brigadier-General Harry C. Hodges, Jr., to command troops at San Francisco, Cal.; Brigadier-General W. H. Sage to command troops at Fort Snelling, Minn.; Brigadier-General Henry T. Allen to command troops at Fort Riley, Kan.

GRAIN PROTECTION IS BEING PLANNED

Large Force of Deputy Sheriffs Proposed by Washington to Corral Vandals.

LENIENCE IS NOT EXPECTED

Harvesters' Men, Assured Workers Will Be Protected From I. W. W. Violence, Says It Will Provide High-Class Labor.

SEATTLE, July 10.—Dr. Henry Szabo, president of the State Council of Defense, after a conference with insurance men and owners of grain fields regarding threats of itinerant laborers to burn wheat fields in Eastern Washington, issued a statement today in which he declared most vigorous measures would be taken to repress incendiarism. He said: "A fire this year means double or treble the average loss, because of the high price of wheat. Wheat burned cannot be replaced. This year, too, there is a sinister element that must be reckoned with—those who are bent upon the destruction. This element can and must be thwarted.

"The State Council of Defense is bent upon the most energetic combatting both the fires and the destruction. Many Deputies Proposed.
"The council is working to make scores of men in each county Deputy Sheriffs—plainly dressed officers of the law—who will be ready, like the minute men of Revolutionary days, to spring upon these vandals as they would destroy. With the farmers' help, so complete will this organization be that no man can hope to set fire to grain and escape once he is caught. The law will do him the justice he deserves."

Frank Waterhouse, chairman of the Washington State Harvesters' League, said that assurances had been received from the state that harvesters sent into the country would be protected, and the league would resume its activities, temporarily suspended because of threats by itinerant laborers said to be members of the Industrial Workers of the World. Mr. Waterhouse continued:

Living Conditions Improved.
"Lacking definite official assurances that workers would not be interfered with, the Washington State Harvesters' League could not and would not encourage people to go into the orchards or fields. Now, however, that objection has been overcome and we will once more give the people of the state an opportunity to enlist harvesters."

"Commencing next month, many thousands of men, women and children can be put to work in Eastern Washington orchards. We are taking steps to see that the living conditions in the orchards this year are better than they have ever been before, as we expect a much higher order of labor than has previously been at the disposal of the growers. Representatives of the league are actively at work among the orchards and we are receiving daily reports that the growers are making arrangements to provide every reasonable convenience for the fruit pickers."

I. W. W. HALL IS ARMORY

Oregon Troops Inspect Railroad Camps; Train Given Soldiers.

NORTH YAKIMA, Wash., July 10.—The Industrial Workers of the World Hall here, which was closed last night by Oregon troops who arrested leaders and members of the organization, today turned into a recruiting office. Lieutenant O. A. Stevens, in charge of the detachment, said today the cases of the men arrested would be taken before United States Commissioner C. Cleaver, and that subsequently the men bound over to the Federal grand jury might be removed to state prisons.

50,000 TO STRIKE IS THREAT

Agricultural I. W. W. to Back Up Miners' Demands.

CHICAGO, July 10.—Threat of a general strike of 50,000 agricultural workers in the wheat fields of the Northwest has been made here by Frank H. Little, member of the general executive board of the Industrial Workers of the World. He declared the walkout of the harvesters was certain if the demands of striking miners in Arizona and Montana were not granted. Little had charge of organizing the miners who recently quit work in those states.

SECRET GUARD IS ORGANIZED

Umatilla Grain Crops to Be Protected by Business Men.

PENDLETON, Or., July 10.—(Special.)—The great grain crops of Umatilla County are far too precious these times to take chances on their destruction, so Harvey Wells, State Insurance Commissioner, today formed an organization of business men and farmers in the county to take all necessary precautions against threatened danger to grain in the field or in the warehouses.

Oregon for the Tourist

"EVERYONE needs recreation more than ever now," says Secretary Lane. And Oregon, with her Columbia Highway, her constantly bettering roads, her kaleidoscope of wonderful scenery, offers the tourist his full money's worth.

Catering to the tourist is a business Oregon can profitably and pleasantly develop. This year we are already seeing the result of organized effort. Let everyone wear a smile for N. E. A. visitors.

For fifty years the First National has played a vital part in the furthering of that which is for Oregon's welfare. Its service was never so complete as now, in this modern banking-house.

Our Monthly Business Forecast and Trade Bulletin sent to those who request it upon their business letterhead.

MAIL WILL BE EXEMPT
SECTION OF ENEMY TRADING BILL ELIMINATED BY HOUSE.
Unnecessary Hardship in Correspondence With Relatives in Germany is Avoided.

WASHINGTON, July 10.—A section of the Administration's trading with the enemy bill making it unlawful to mail letters, pictures, maps and similar articles to enemy countries was stricken from the measure in the House today. Representative Gardner of Ohio, led the fight against the provision. Mr. Gardner declared the espionage law already sufficiently provides against use of the mails by spies and that it would be unwise to inflict unnecessary hardships on persons in the United States having relatives in Germany or her allied countries with whom they desire to communicate innocently.

The House also struck out on Mr. Mann's motion a provision empowering the President to designate all natives of enemy countries as "alien enemies." A substitute was adopted providing that such designation shall be given citizens or subjects of enemy countries.

The debate brought out a condemnation of spy scares by Mr. Mann and a speech by Representative Walsh, of Massachusetts, on the general subject of licensing, in which he criticized the public information committee as a sample of licensing on doubtful authority.

The bill probably will be passed tomorrow.
