

NATURALIZATION TO BE SOLEMN EVENT

N. E. A. Delegates to Witness Examination of Class of Alien Petitioners.

COURT OFFICERS IN CHARGE

Almost Every Nationality Eligible to Citizenship Will Be Represented in 150 on Stage at Auditorium Tonight.

Naturalization of a large class of foreign-born citizens in a public ceremony at the Auditorium tonight will be the big spectacular event of the N. E. A. session today.

The local immigration authorities arranged for this solemn service tonight as a practical demonstration in citizenship to the assembled teachers and their friends. Admission will be free to the public.

John P. Kavanaugh, presiding judge of the Circuit Court, will officiate. The regular court officers will attend—Joseph W. Beveridge, clerk; John B. Easter, deputy clerk; Samuel W. Poole, bailiff; and, on behalf of the United States Department of Labor, John Speed Smith, chief naturalization officer for the Seattle district, and Henry B. Hazard, naturalization examiner stationed at Portland.

Petitioners to Be Questioned. Petitioners for naturalization and their witnesses will be sworn in the usual manner by the clerk, questioned by Examiner Hazard, and passed upon by Judge Kavanaugh, who will admit to citizenship before the whole convention those applicants for that privilege who are found to be qualified.

And it will be seen by that body of schoolmen and women that "qualified" has never meant as much as it does today. It is not sufficient that a man come before the court with a clean record and the requisite proof with regard to residence and character—he must show also that he is fit to exercise the rights and to enjoy the privileges of citizenship. The petitioners who will be examined are students of the Portland public night schools, in which they have taken a special course in citizenship under the supervision of L. R. Alderman, superintendent of schools, and John C. Veatch, supervisor of night schools.

There will be but a handful of them—samples, to show how the thing is done—but they will be interesting as representatives of the hundreds who steadily pour, month after month, through these gates of the schools and the courts.

Many Nationalities on Stage. Some of these others—probably 150—will be there on the stage; petitioners representing almost every nationality which is eligible for citizenship in this country. They will be men whose qualifications have previously been ascertained at the regular hearings before the Circuit Court and whose admission to citizenship has been delayed until now so that they might take the final oath of allegiance the more significantly, with greater impressiveness. The entire programme at tonight's general session will have to do with the preparation of the youth and the immigrant for better citizenship.

The programme in the naturalization and administration of oath of allegiance.

Special session of Circuit Court of Multnomah County.

"Host of the Inadequate Night School," Caroline Hedger, Americanization committee worker, Chicago.

"Literary Preparation," Cora Wilson Stewart, chairman, state commission of literacy, Frankfort, Ky.

Published as a matter of Public Record

by Colgate & Co. Makers of Ribbon Dental Cream

THE facts given below are based on an impartial investigation among the dental profession, neither the dentists nor those interviewing them knowing of Colgate & Co.'s interest therein.

Some 12,000 dentists (more than 25% of the entire profession in America) were personally questioned concerning their preference among dentifrices. The investigation covered cities, towns, and villages in every State in the Union. It shows that:

- 1—Colgate's is the first choice of more dentists than any other dentifrice.
- 2—Colgate's is prescribed exclusively by more dentists than any other.

Affidavits and other proofs of this investigation are in the custody of the Title Guarantors & Trust Co. of New York City. A statement of interesting facts will be sent on request. Colgate & Co., 199 Fulton Street, New York.

knowledge now being introduced into high schools and colleges.

Oliver M. Johnston, of Stanford University, secretary of the conference, read a paper on university training of the high school teacher of modern languages with particular reference to French. He said:

"The university training of the high school teacher of modern foreign languages is training on the pedagogical side. Poor teaching is often due to the fact that the teacher does not know how to present his subject in such a way as to interest his pupils and stimulate them to think."

"Ideals of the 'Profession' was the subject discussed by William A. Cooper of Stanford University, president of the department. For ideals of future improvement in the educational system, he said, the world must look to the teaching profession, not to the lay boards of education, who handle finances and appoint teachers. Real command of modern languages, he said, is essential for a country with an ambition to be a leader in the intercourse of nations. Modern language courses, he believes, need to be expanded greatly.

MANY SECTIONS SIT

N. E. A. Convention Given to Departmental Sessions.

ALLIED ORDERS TO MEET

Citizenship Convention and Department of Rural and Agricultural Education of Particular Interest to Laymen.

To give way for the numerous important departmental meetings and meetings of affiliated organizations scheduled for this morning and this afternoon, the general sessions of the N. E. A. will not open until 7 o'clock this evening.

The citizenship convention, which held three important sessions yesterday, will continue its work today. A number of important addresses are on the programme. These meetings will be held in the auditorium of the First Presbyterian Church and are open to the general public. The ordinary citizen, whether he or she is interested in educational affairs or not, will find these meetings full of interest and information. Following is the complete programme for today's sessions:

10 A. M.—"Some Ways of Americanizing Our Alien Peoples," E. E. Smith, principal extension schools, Birmingham, Ala.

"Suggestive for Rural Citizenship Classes," Paul Lee Eberle, chief naturalization examiner, Denver, Colo.

"Citizenship in the West," Joseph E. Burch, superintendent of schools, Kemmerer, Wyo.

"Education for Citizenship," J. C. Wright, director vocational and manual training instruction, Kansas City, Mo.

"Education of the Alien Based Upon Character and Conscience," Rev. John H. Boyd, pastor First Presbyterian Church, Portland, Ore.

"Night Schools and the Immigrant in Kansas City, Kan.," J. B. Morgan, director of night schools, Kansas City, Kan.

"Some Duties and Difficulties Confronting the Naturalized Citizen," Elmer M. Wentworth, president of the American Revolution, Des Moines, Ia.

The meetings of the rural and agricultural education department in the auditorium of the Shattuck School at 10 o'clock this morning and 2 o'clock this afternoon should be of prime interest in this Western country.

At this morning's session a round table discussion of the Smith-Hughes bill as related to agriculture and home economics and a similar discussion of "The Relation of the Rural School to the Problems of Nationalism" are the principal items on the programme.

John A. Dorelle, superintendent of schools at Houghton, Mich., will give an illustrated lecture at this afternoon's session on "A Typical Case of Rural Education" while H. N. Goddard, of the department of education at the Wisconsin State University, will talk on "Results Achieved in Secondary Agriculture and Methods Pursued in Actual Practice." His lecture, too, will be illustrated.

The complete programme for today follows:

7 P. M.—General session Auditorium. Department meetings. 10 A. M.—Kindergarten Association and elementary education, Auditorium Lincoln High School.

Elementary education and kindergarten education, Auditorium Lincoln High School. Secondary education, White Temple. Higher education, main building, Reed College.

Music education, Unitarian Church. Business education, Shattuck School. Library, Library Hall, Public Library. Rural and agricultural education, auditorium Shattuck School.

School administration, Auditorium. Special education, Ladd School. 2 P. M.—Secondary education, White Temple. Physical education, room D, Auditorium. Library, Library Hall, Public Library. Rural and agricultural education, auditorium Shattuck School.

Classroom teachers, Unitarian Church. Science instruction education, of Boston, who addressed the classroom teachers' department of the N. E. A. yesterday.

The Smartest Utility Car Ever Produced

No other smart sport model sells for so low a price.

No other smart sport model can be operated for so little.

No other smart sport model is so easy to handle and park.

Here at last is an economical utility car with snappy, distinctive, pleasing style.

And it's a wonderful performer. It has a wonder of a motor—smooth—lively—powerful.

Front seats are adjustable forward or back—to suit the driver's reach.

The body is grey—the trim black enamel and nickel—the wire wheels, red.

The smartest economy-utility car on wheels!

Come in and get your Country Club today.

Country Club \$795

J. O. S. Toledo Including Five Wire Wheels Subject to change without notice

OVERLAND-PACIFIC, Inc.

Broadway at Davis St.—Phone Broadway 3535

The factory will issue a new price list affecting certain models possibly during July and certainly not later than August first

DEMOCRACY IS GROWING

MODERN TREND IN SCHOOL ADMINISTRATION IS DISCUSSED.

Interesting Papers Presented to Department of Elementary Education by Superintendent and Teachers.

More democracy was declared to be the cure for the evils of democracy at yesterday afternoon's session of the department of elementary education of the N. E. A. at Lincoln High School Auditorium. Mary D. Bradford, superintendent of schools at Kenosha, Wis., was the speaker on the subject of democratic trend in school administration.

Recent educational movements were interpreted in the light of growing democracy by Horace Ellis, State Superintendent of Indiana. Barriers are being broken down, he said, that have long kept home and school apart, and the circle of interest in school work is being widened in the home.

An interesting paper of the afternoon was that of Margaret S. McNaught, commissioner of elementary education, Sacramento, Cal., and the opportunity of the entrance woman. Democracy in the schoolroom was discussed by E. Ruth Pyrie, principal of the McKinley Pre-vocational School, Lincoln, Neb. The general topic of the afternoon session was "Democracy in the Making," and the papers were followed by discussions.

One-Time Pickpocket Married and Going "Straight."

Wife Accompanies Young Man to Station, When Detectives Investigate His Story.

A TALL, good-looking man was brought into the Police Station yesterday by City Detective Pat McKeown for investigation. At one time he was one of the cleverest pickpockets on the Pacific Coast. Now he is married and has a good position in a town in Washington. He was accompanied to the Police Station by his wife and after some time he convinced the detectives that he was "going straight."

"I bucked the law once too often, several years ago," he told the detectives, "and I served a sentence in a Western penitentiary. During my confinement I decided it was a losing game to keep on breaking the law. When my term expired I searched for some time for a job and when I found it I stayed with it. I was married some time ago and think I am now the happiest man in the world. If some of these young fellows who insist on breaking the law would only take the advice of an old-timer, they would never make an attempt to break the law again."

The young man returned to his home last night after making a sightseeing trip of the city.

With the N. E. A. Convention in session and the Round-Up opening yesterday, the police are keeping a sharp lookout for any suspicious characters who might be in the city during the rush of visitors.

Nine men have been arrested by the detectives since Monday morning. Two were arrested as the principal and another as an accomplice in a murder; two more for investigation and five for larceny.

Brazil Discovers Submarine Base. RIO JANEIRO, July 10.—The newspaper announce that the destroyer Mato Grosso has discovered an enemy submarine base near Santos.

SOUL LIFE IS THEME

EDUCATOR SAYS PROPER VOCATIONAL GUIDANCE NECESSARY.

Teaching of Subject Is Urged by L. W. Bartlett, of Pomona, Cal., in Cities of 10,000 Population.

Development of the soul life is an important function which the teachers of the Nation should foster, declared Lester W. Bartlett, vocational adviser of the city schools of Pomona, Cal., speaking before the department of vocational education and practical arts in the First Methodist Episcopal Church yesterday morning. He said the soul life has much to do with the success of the individual.

He gave an address on the benefits to accrue from proper vocational guidance and urged the creation of this branch of education in all cities of more than 10,000 inhabitants. He explained how to organize and conduct the work and told of its success in several places.

According to figures given by Mary Schenck Woolman, manager of the National Association for Promotion of Industrial Education, there are more than 10,000,000 women engaged in various commercial enterprises in the United States.

Other speakers of the session were: Alice Havenhill, formerly lecturer on hygiene in the University of London, on "Extension of the Field of Home Economics in the School Curriculum"; Creve T. Work, supervising principal of the Union Polytechnic High School, of Venice, Cal., on "Occupation of the Home Maker"; and the discussion, led by Agnes Houston Craig, director of the department of home economics of the Washington State Agricultural College, Pullman, Wash.

LANGUAGES ARE NEEDED

IMPORTANCE OF STUDY OF MODERN TONGUES SET FORTH.

Papers Presented at Lincoln High School Conference Create Much Discussion Among Teachers.

"Directed Observation and Practice Teaching" was the subject of a paper before the Modern Languages Conference yesterday morning at Lincoln High School that aroused a great deal of discussion by language teachers in attendance. Lydia M. Schmidt, of the University High School, Chicago, was the author and she discussed the new method of instruction of this branch of

TEACHERS VISIT MILLS

500 VISIT INDUSTRIAL PLANTS AT OREGON CITY.

Process of Manufacture of Paper and of Woolen Goods Is Explained to Visitors by Experts.

OREGON CITY, Or., July 11.—(Special.)—More than 500 school teachers visited this city today, coming on special cars, which arrived here at about 3 o'clock. The first establishment visited was the Oregon City Manufacturing Company's woolen mills. All of the departments were in operation, and the teachers watched with interest the making of cloth. The guides were the foremen of the various departments.

The Hawley Pulp & Paper Company's plant also was visited. Many of the visitors took with them, as a remembrance of the occasion, samples of the paper manufactured.

About 500 teachers made the trip to the Crown William Paper Company's plant at West Linn. The visitors were taken through the mill in groups of 20. Expert papermakers explained the making of paper from the time it starts from the large logs from the sawmill to the finished product.

Many of the teachers visited the McLaughlin Park. Roses and other flowers were presented to the teachers. The members of the Women's Club, Den-thick Club and some of the other prominent women of this city acted as a reception committee.

Every business house in this city was decorated.
