

## BISBEE CITIZENS DRIVE OUT I. W. W.

### 1100 Agitators Crowded Into Cattle Cars.

## ARMED FOSSES SEARCH CITY

### Trainload of Prisoners Arrives in Columbus, N. M., Late in Evening.

## DEPUTY AND WORKER DEAD

### Censorship Closes Wires to Greater Part of Day.

DOUGLAS, Ariz., July 12.—A telephone message received at midnight from Sheriff Harry C. Wheeler by James E. East, Chief of Police here, said that, as the New Mexico authorities refused to allow the I. W. W. to be detained anywhere in that state, they were being brought back this way and probably would reach Douglas on the same train on which they left, about 7:30 tomorrow morning.

Chief East issued a call to the city's reserve police, numbering more than 200 men, to assemble at the City Hall at 6:30 A. M., bringing arms and ammunition with them in order to take charge of the situation.

It was reported here that while in Columbus waiting to see whether they would be detained there, a number of the I. W. W. made the statement that they would hold up the first passenger train coming toward Arizona, no matter where they were taken off. If they did this their expected arrival would coincide with Chief East's message, as the first train to come would be the westbound "Drummers' Special" from El Paso, due to arrive here at 7:35 o'clock.

DOUGLAS, Ariz., July 12.—The train carrying the Industrial Workers of the World deported from Bisbee today and turned back tonight from Columbus, N. M., was due to arrive in Hermans, N. M., about 11 o'clock tonight to be unloaded.

Unless the men can overpower the guards it is not believed here that there is a possibility that the deported men will be able to return to Arizona.

Hermans is a small village, having few houses, one store, and is a railroad junction.

DEMING, N. M., July 12.—Word received here from Hermans late tonight said the trainload of deported men from Bisbee was sidetracked and the engine detached when the train reached Hermans, after having been turned back from Columbus. The guards were removed from the train at Hermans. It is feared the deported men will hold up the night westbound train and return to Bisbee.

COLUMBUS, N. M., July 12.—Nearly 1200 persons, deported from Bisbee today, arrived here about 9 o'clock tonight. F. B. King, division superintendent of the El Paso & Southwestern Railway, was in charge, and was arrested by the local authorities for bringing in the deportees. There were more than 200 armed guards on the train.

Local authorities refused to permit the men to be unloaded here. The Army officers in command here, who had not issued any orders up to the time of their arrival, threw out a strong guard about the military establishment.

Later King was released when he agreed to take the men away, and the train was started back toward Bisbee. It was said here the men would be detained at Hermans, N. M., 20 miles west of Columbus.

BISBEE, Ariz., July 12.—A special train carrying more than 1100 members of the I. W. W. out of this district arrived at Columbus, N. M., at 9:10 this evening, according to a special dispatch received here.

According to the information, the military authorities at Columbus refused to have anything to do with the matter and turned the men loose. The guards who accompanied the train expect to return to Bisbee in the morning, and may be accompanied by many of those who were deported today.

Captain John C. Greenway, general

## ARMY INSTRUCTED TO HANDLE I. W. W.

### DISORDERS IN WESTERN STATES BEING CLOSELY WATCHED.

Reports of Attempt at Concerted Uprising Gain Little Credence at Washington.

WASHINGTON, July 12.—The Federal Government is watching closely the Industrial Workers of the World disorders in Arizona and other Western states, but officials here expect no far-reaching consequences. Department commanders of the Army have been instructed to take all steps necessary and there is entire confidence here that they will speedily do so.

Apparently little credence has been given reports that a concerted uprising by the organization was to be attempted.

The first official word reaching the Federal Government from the disturbed sections came tonight in a request from Governor Campbell, of Arizona, asking for the assistance of Federal troops in maintaining order. The request was referred back to Brigadier-General Parker, commanding the Southern Division.

At a late hour General Parker had not reported any troop movements, but press reports of a military censorship of telegraph lines were generally accepted as indicating that such movements may be in progress.

At the Labor Department no word had been received late tonight from the Federal mediators sent to the states affected to attempt settlement of strike troubles. Press reports saying that they had recommended action by the Federal Government to prevent industrial paralysis led to the belief that tomorrow might see some more drastic step by officials here.

It was declared every resource of the Government would be used if necessary to quell the disturbances.

## MINE OWNER TIED WIRES

### Orders of "Captain" Stout Made Censorship Effective.

DOUGLAS, Ariz., July 12.—The censorship imposed on outgoing press dispatches in Bisbee and Douglas today was not established by officers of the United States Army, but was imposed by Robert Rae, general auditor of Phelps-Dodge Inc., owner of the Copper Queen mines, and Superintendent H. H. Stout, of the Copper Queen Smelters here, according to Manager Tiltonson, of the local office of the Western Union Telegraph Company.

Mr. Tiltonson tonight told the correspondents of the Associated Press, whose dispatches were held, that he thought Mr. Stout, who is known locally as Captain Stout, was an Army officer, and accepted in good faith instructions given to him by Mr. Stout.

## \$25,000 PAID FOR TIMBER

### Half Section Near Eugene Is Purchased by Booth-Kelly Company.

EUGENE, Or., July 12.—(Special.)—The Booth-Kelly Lumber Company today announced the purchase of a half section of timber land adjoining its holdings above Wendling from the Puget Sound Lumber Company, of Seattle. The price was \$25,000.

The land adjoins the present logging operations of the Booth-Kelly Lumber Company, and it is proposed to begin cutting on the newly acquired land within six months. The logs will be shipped by rail to the mills in Wendling and Springfield.

## BRAZIL AGREES IN PART

### England's Plan for Coffee Importation Not Fully Approved.

RIO JANEIRO, July 12.—The British government has proposed to Brazil, through the Ministry at London, a plan under which exportation of Brazilian coffee to England may be resumed on condition that the coffee be transported in German ships confiscated by Brazil, and that these ships also carry certain other food products.

Brazil, although willing to ship other food products, cannot agree that the coffee shall be carried exclusively in the confiscated German ships.

## BRUSH FIRE IS ALARMING

### Smoke Visible Near Rich Timber Belt Above Mabel.

EUGENE, Or., July 12.—(Special.)—Fires burning in the brush above Mabel, near a rich timber region, have been causing some concern. A great cloud of smoke was visible from this city today. A telephone message from Wendling stated that the situation was not considered dangerous.

The fire is in slashings on the Coast Range Lumber Company's lands. The timber in that section of the country is extremely dry.

## STATE UNIT FORMS TO CHECK I. W. W.

### Activities in Eastern Oregon Menace.

### EXPERIENCED MEN SOUGHT

### Battalion of 300 Members to Be Enlisted at Once.

## DEPUTY SHERIFFS TO AID

### Decision to Provide Protection Made by Governor and Adjutant-General After Hearing Fire Marshal's Report.

SALEM, Or., July 12.—(Special.)—Following a conference tonight between Governor Withycombe, Adjutant-General White and State Fire Marshal Wells as to the menacing I. W. W. situation in Eastern Oregon, the Adjutant-General made the important announcement that there is in process of formation a battalion of soldiers, to be made up of men of experienced military training, to be stationed permanently in Oregon for home defense against just such situations as the I. W. W. danger.

Already more than 100 men have quietly enlisted in this battalion, and the 300 required will be enlisted within a few days, the Adjutant-General said. The men to be obtained will all have military training and service through the two difficulties which the country has met with since 1898.

## Sheriffs to Aid Defense.

To supplement the battalion will be another battalion of Deputy Sheriffs, the Governor announced. This battalion will be formed throughout the counties of the state. Tomorrow Governor Withycombe will send to every Sheriff a request that he name a sufficient number of deputies to make up the quota for his county in getting together the battalions. This organization also will be trained.

"These troops and the deputy sheriffs will be a part of a co-ordinated military system for home defense against internal troubles, such as that raised by the agitators of the I. W. W., who are threatening to burn and pillage the counties of Eastern Oregon," said the Adjutant-General.

## Wheat Fields to Be Guarded.

"The request from Eastern Oregon that troops be kept there in sufficient numbers to guard the wheat fields and the industries will be heeded. I am not at liberty to say what troops will be stationed there, but there will be troops there in sufficient numbers to guard against vandalism.

"By July 25 Governor Withycombe will have a complete organization for state defense which I am certain will be of such a nature as to cope with any situation that might arise, and these organizations, the battalion of soldiers and the battalion of deputy sheriffs."

## DRY ZONES WILL ENCIRCLE CAMPS

### NEW REGULATIONS GUARD MORALS OF SOLDIERS.

### Maintenance of Questionable House Within Five Miles of Camp May Bring \$10,000 Fine.

WASHINGTON, July 12.—A "dry" zone, five miles wide, unless there is a city or town within that limit, is to be thrown around all camps for the mobilization or training of troops, under new regulations made public today at the War Department.

Prohibition, under a penalty of \$10,000 fine, also is imposed under the same law against the maintenance of any questionable houses within the limit of five miles in any case, even where the camp is on the edge of a town.

## LONG VACATIONS FORBID

### Civil Service Commission Decides 60 Days Will Be Limit.

Extended leaves of absence by city civil service employees were forbidden by the Municipal Civil Service Board, when an order was established prohibiting leaves for longer than 60 days except in unusual cases. The order provides that in no case shall a leave be for longer than 60 days when the employee is to go into some other line of work.

## CHILEAN CABINET QUILTS

### Question of Neutrality May Be Cause of Ministerial Change.

SANTIAGO, Chile, July 12.—The Chilean Cabinet, which took office in December, 1915, with Elias Balmaceda as Premier, has resigned.

## NAVY NEEDS \$100,000,000

### Additional Destroyers and Submarine Chasers Required.

WASHINGTON, July 12.—Today Secretary Daniels asked Congress for a deficiency appropriation of \$100,000,000, mainly for additional destroyers and submarine chasers and to speed up work on the general building programme.

## TURKS TELL ANOTHER TALE

### Air Raid of Allies on Constantinople Did "Insignificant Damage."

CONSTANTINOPLE, via London, July 12.—An official statement issued from Turkish headquarters says: "Two enemy airplanes flew over Constantinople Tuesday night and dropped bombs, causing insignificant damage."

## EDUCATORS ARE TO PUT LOYALTY FIRST

### Resolutions Will Be Submitted Today.

## PACIFISTS WILL MAKE FIGHT

### Effort to Be Exerted for Declaration for Exemption.

## PRINCIPALS AGAINST PLAN

### Meeting Denounces Proposal to Ask for Favoritism in Selection of Troops—Military Training May Be Called For.

"Our sacred duty is to give our undivided service for the cause of our country in defense of democracy and righteousness.

This is the keynote of the complete set of resolutions that will be presented to the N. E. A. convention this morning by the resolutions committee.

All other subjects, excepting the usual complimentary references to the city entertaining the convention, have been ignored, absolutely.

It is understood, however, that the committee will insert a plank reaffirming the previous recommendations of the association for woman suffrage, for a National university and for better salaries for teachers to meet the higher cost of living.

## Draft Exemption to Cause Fight.

A determined effort will be made, nevertheless, to break the committee's slate by the insertion of a measure asking that all school teachers be exempted from the military draft.

This resolution was presented to the committee a few days ago by Kate Devereaux Blake, a "militant pacifist" of New York, but the committee completely ignored her proposal.

Miss Blake and her supporters have been circulating petitions among the delegates to bring the question before the convention over the heads of the committee.

Most of the leaders, including the so-called "administration crowd" of the convention, are opposed to her resolution and it appears certain of defeat.

## National Loyalty is First Duty.

It is probable that the attitude of the association toward the supreme issues of the day will be expressed in a "declaration of principles" which the committee drew up late last night.

Among other "declarations" seriously considered is one that "recognizes that the first duty of the hour is wholehearted National Loyalty," another pledging to President Wilson and all other authorities that "we will conduct all educational affairs in this spirit."

A plank favoring military training in the schools is in the embryo of preparation and probably will come forth as one of the principal recommendations of the committee. The Blake forces may oppose it.

Two years ago the association went

## AMERICAN LAKE MUTINY CHECKED

### POST COMMANDER APPEALS TO MEN TO CONTINUE WORK.

### I. W. W. Blamed for Sudden Demand for Better Food and Assurance of Right Treatment Satisfies.

TACOMA, Wash., July 12.—Two hundred and fifty men employed in extending the Northern Pacific tracks into the Army cantonment at American Lake mutinied today and simply trailed off. The mutiny is attributed to I. W. W. influences.

Major David L. Stone, in charge of cantonment construction, intended with a direct appeal to the Americanism of the laborers, and gave assurance of the maintenance of proper living conditions in the railroad camp.

His assurances sufficed to return more than half of the force of 250 men to work, after their protest against the food given them had been met with the command of the contractor's superintendent to "get on the train or go and get it."

The trouble in the railroad camp of A. Guthrie & Co. contractors, building the Northern Pacific spur, arose because of general labor unrest and the agitation of I. W. W. among the force, according to the statement of representatives of the contractor.

The men declared that they were satisfied with the conditions of labor prescribed by the Government, \$3 for an eight-hour day, with \$1 off for board and lodging.

## BUTTE STRIKE NEARS END

### Conferences Between Miners and Operators Are Reassuring.

BUTTE, Mont., July 12.—Developments tending to indicate an early settlement of the Butte miners' strike, notwithstanding their refusal to affiliate with the American Federation of Labor, resulted from a meeting of the Montana Trades Council today and from a conference held by the Montana Power Company with the strike committee of Electricians' Union, No. 65.

The metal trades voted to hold a special meeting next Sunday morning, at which time decisive action will be taken as to whether or not the machinists, boiler-makers and allied crafts shall return to work.

## FRANCE ORDERS 20 SHIPS IN PORTLAND

### 20 More May Be Built on Pacific Coast.

## FOUNDATION COMPANY BUILDS

### Addition of Big Concern Is Assured by Contract.

## "BONEYARD" TO BE TAKEN

### Contracts for Steel Ships Also Are Awarded to Portland Firms and Co-operation Between Countries Is Indicated.

NEW YORK, July 12.—(Special.)—Contracts were closed today between the Foundation Company, of this city, and representatives of the French government, whereby the former will construct 40 wooden steamers for France. Twenty of the vessels will be built at Portland, Or. The transaction has been in process of negotiation for several weeks, and it was necessary to place the project before the United States Shipping Board and gain approval before closing the deal.

Charles F. Swigert, of this city, president of the Pacific Bridge Company, has represented the Foundation Company as far as the Portland plans are concerned, and when asked last night regarding the contracts said he had been hourly expecting advice as to the progress of the negotiations and that the report was doubtless correct.

The Foundation Company is rated one of the strongest and among the most successful construction organizations in the United States, and the coming of such an influential corporation to join the shipbuilding army in Oregon is regarded as one of the most important gains that has been made in a marine way.

It has been known for some time that the company was looking over this field and recently one of its engineers was in the city and inspected sites, devoting much of his attention to the O. W. R. & N. "boneyard" property in North Portland between the mills of the Eastern & Western and North Pacific Lumber Company.

A few days ago A. I. Campbell, Pacific Coast manager of the Foundation Company, was in the city and left Wednesday for Puget Sound after having conferred with Mr. Swigert.

"We are very much impressed with the 'boneyard' property," admitted Mr. Campbell.

(Concluded on Page 2, Column 3.)

## N. E. A. EVENTS LISTED FOR TODAY.

- General Session, Auditorium.
- 11 A. M.—Active members.
- 2 P. M.—Special programme.
- 7 P. M.—General session.
- Department Meetings.
