SOLDIERS' MUTINY

Treasonable Cards Circulated Among Guards Doing Duty in Sand Point District.

ESPIONAGE ACT VIOLATED

Appeal Made on Behalf of Brotherhood to Refuse to "Murder" Strikers-Soldiers and Workers Held Pawns of Capital.

SPOKANE, Wash., July 12 .- (Special.)-"Help us to win America. Don't

This is the text of a treasonable appeal circulated last night among the soldiers doing guard duty at Sand-point, presumably by the L W. W., with the purpose of inciting mutiny among the troops.

"So are we. You, in the army of destruction. We, in the industrial or army of construction.
"We work at mine, mill, forge, factory or dock, etc., producing and transporting all the goods, clothing, stuffs, etc., which makes it possible for people to live.

You are workingmen's sons. "When we go on strike to better our lot, which is the lot also of your fath-ers, mothers, brothers and sisters, you are called upon by your officers to murder us.

"Idle Rich" Assailed.

'Don't do it! You know how it happens. Always has happened. We stand out as long as we can. Then one of our (and your) irresponsible brothers, goaded by the sight and thoughts of his loved ones' misery and bunger, commits a crime on property. Immediately you are expected to murder us. as you did at Ludlow and other places. "The idle rich class, who own and order you about, own and order us about also.

"They and their friends own all the "Idle Rich" Assailed.

"They and their friends own all the industries and land. When we kick they order you to murder us. When you kick you get courtmartialed and

"Your fight is our fight. Instead of fighting against each other we should be fighting with each other. "Out of our loins, our lives, our home, you came. "Don't disgrace your parents, your class, by being the willing tools any longer for the master class."

The first jolt Miss Anxiety Psychosis received was last night. When the total number of recruits signed up in one day was checked up, the honor roll showed that 21 had joined the Third Oregon. Jolt No. 2 came when Colonel Vernon A. Caldwell, Forty-fourth Infantry president fantry, president of the examining board, and Captain Francis C. Endjoott, C. Fourteenth Infantry, appeared on the Recene and began the examination of the Mescane and began the examination of the Mescane and began the officers. The third big wallop received was when the men lined up before Major Arthur Edwards and were handed out their \$50 per or more, the first month's salary under the increased pay. There wasn't a trace of "her" to be found at "gold time."

Now that the Third Regiment is being rapidly filled up, the natural question is, what is going to become of those members of the Third Gregon who have been furloughed to the reserve?

This is the terminal and the purpose of inciding mutiny among the troops.

The appeal, printed on cards, is headed:

"An Open Letter to a United States of the Chirologhed to the reserve? Naturally, being furloughed to the reserve? Soldier." It contains about 600 words. District Attorney Garrecht today declared that the circular was a direct violation of the esplonage act passed by Congress recently.

Following are extracts from the circular. "Men! Comrades! Brothers!

"This is but a continuation of a series of outrages that have continued for more than a year, beginning with the copper strike on the Mesaba range in Minnesota."

Mr. Haywood called attention to deportations and attacks on L. W. W. members at Kansas City, Dotroit and Everett. Wash.

"These cases," he said, "have been taken up before the Attorney-General and are now being investigated."

Mr. Haywood said the demands of the miners at Bisbee were for a six-hour day, six days a week, \$6 and ay minimum pay, abolition of the system of rusting at the mines and equal representations on the hospital boards.

"These demands," he said, "are justified by working continued in the work of deportation.

Plans for the "roundup" of alleged undesirables were made at midnight by Harry C. Wheeler, Sheriff of Cochise County, Within two hours the Sheriff had deputized 1200 men and ordered them to report at various points at 4 o'clock this morning.

"Until the last L. W. W. Is run out."

One "tip," which has reached the cars of the officials from an apparently authentic source is that the 1 W. W. during the present month will make a determined effort to cripple the lumber industry. They are planning, it was learned, not only to invace the longing camps, but also to enter the lumber mills in an effort to start labor troubles.

It is also said that this lawless element is likewise planning to make its presence feit in the shipbuilding industry in and about Portland, and that they are already beginning to gather in the city, preparing for a general outbreak of labor troubles, which they will seek to start.

Thus far there has been no indication of any gathering of I. W. W. in the city or county. Am and the county of these understance and gases."
