

MUZZEY'S HISTORY TO BE SIDETRACKED

Lecture Course in High Schools Will Be Substituted for Book Lately Used.

BOARD OF EDUCATION ACTS

Adoption of Another Publication Until Four-Year Period Passes Forbidden by Law; Contract Is Held Ineffective.

By means of a lecture course in the Portland High Schools Muzzey's History, against which a storm of protest has arisen because of its lack of patriotic features, will be effectively sidetracked.

City Superintendent of Schools Alderman will co-operate with the board of education and his staff of high school history teachers in arranging a lecture series that will be calculated, figuratively, to iron out the faulty places in Muzzey's book.

Scene of Shooting Located. "I inquired of Riggin what he did, and he said that he had been walking with the intention of cutting Booth.

Prisoner Is Positive. "I asked him if he was positive that this was the place. He stated he was, and I also asked him if he was positive where Booth was shot and he was.
