

# GERMANS ATTACK; GAIN DEATH TRAP

Furious Assault in Aisne Front  
Repulsed by Touraine  
Regiments.

## BATTLE IS HAND TO HAND

Invaders Seek Shelter in Abandoned  
Trench, From Which It Is De-  
clared They Can Neither  
Advance Nor Retreat.

BY THE ASSOCIATED PRESS.  
WITH THE FRENCH ARMIES IN  
FRANCE, July 22.—The first division  
of the German guard in its furthest  
attack on the eastern end of the Chemin  
Des Dames, on the Aisne front, during  
Thursday night and Friday morning,  
gained nothing but a death trap in the  
shape of a trench 500 or 600 yards long  
on the northern side of the crest between  
Casemates and Calvarie plateau, above  
Craonne. The objective of the Germans  
was to obtain possession of observation  
points, was defeated today. Today hundreds  
of German bodies lie on the ground, and  
the Germans who supposedly are holding  
the trench cannot advance nor retreat.

**Cannonading Is Intense.**  
The cannonading today was most intense  
and the French, who are in a position  
to observe all movements of the enemy,  
smothered with shells several attempts  
of the Germans to assemble troops in  
this vicinity for further operations.

Numbers of prisoners belonging to the  
famous Guard regiments were taken. A  
model of the French defensive system  
had been fighting proceeded behind the  
German lines and the troops destined for  
the attack were then instructed with its  
details before making assault. They met  
their masters in the shape of stolid and  
hard-fighting regiments from Touraine,  
which held the position.

**Germans Gain at One Point.**  
The only point along the whole line of  
attack from Craonne to Hurbise at which  
the Germans succeeded in obtaining any  
advance was between the Casemates and  
Calvarie plateau, where the crest is narrow  
and where it was impossible for the French  
to bring much artillery to bear, owing to  
the configuration of the ground.

All through Thursday night and Friday  
hand-to-hand fighting proceeded with  
grenades and bayonets, until the exhausted  
Germans were compelled to seek shelter in  
shell craters and shattered trenches of the  
front line formerly held by the French.

**Enemy Under Constant Fire.**  
There they cannot move or see, being  
under constant machine gun and artillery  
fire of domestic batteries, and they still  
remain on the wrong side of the crest. The  
few yards they gained are being reconquered  
gradually by the French.

BERLIN, via London, July 22.—German  
troops have been pushing forward their  
positions on the Aisne front near Braye  
En Laonnais and Jerny, it is announced  
officially. Greater activities on the  
British front is reported.

PARIS, July 22.—The Germans continued  
their furious assaults on the Aisne front  
last night, bringing up fresh troops.  
Today's official statement says the attack  
was stopped by the French, who inflicted  
great losses upon them. The Germans also  
attacked on the Verdun front, but gained  
no success.

LONDON, July 22.—A British advance  
near Monchy le Preux is announced by  
the War Office today. Patrol encounters  
resulted in favor of the British last  
night. The British lost 100 men, including  
Quentin and four other soldiers. The enemy  
artillery was active during the night in  
the neighborhood of Lens and Arras  
and near the coast.

## FOOD BILL MAY NOT LIVE

(Continued from First Page.)  
despite the fact that the Senate voted  
60 to 26 in favor of putting this check  
on the President and his appointees, it  
seems probable that it will be buried  
upon the altar of peace and will not  
appear in the bill that comes out of the  
conference committee. One of the things  
the House will have to do is to get rid  
of the elimination of the congressional  
control board will be the supremacy of  
Herbert G. Hoover in the food administration.  
Hoover, himself is blamed for the up-  
setting of the President's programme  
about food. He is such a positive in-  
dividual; so impatient of interference  
and so certain of the perfection of his  
own plans that he antagonized the Sena-  
tors from the beginning.

## MANY MEASURES CONSIDERED

**Food Control Bill Rivers and Pro-  
hibition to Come Up Soon.**  
WASHINGTON, July 22.—This week  
may see the long-contested Adminis-  
tration food-control bill finally per-  
fected in Congress and sent to Presi-  
dent Wilson for his signature.  
Senate and House conferees on the  
measure, which passed the Senate yester-  
day after five weeks' consideration,  
expect to go to work Tuesday. Their  
principal difficulties will be over the  
prohibition question and the Senate  
amendment for a board of food adminis-  
tration of three members instead of  
an individual administrator. Leaders  
tonight predict prompt action, how-  
ever, which probably will be followed  
by a report on the first food bill, also  
in conference several weeks awaiting  
disposal of the control measure.  
The \$64,000,000 aviation bill, passed  
by the Senate yesterday, is to go to the  
President tomorrow. Its perfection  
will break all speed records for big ap-  
propriations.

Tomorrow the Senate will take up  
the rivers and harbors appropriation  
bill, and the House, after a week's in-  
action, will convene to receive confer-  
ence reports of the railroad priority  
shipment bill and the Interstate Com-  
merce Commission.  
During the week Senator Sheppard  
will try again to get up his resolution  
for a National prohibition amendment,  
and he has high hopes of mustering the  
necessary two-thirds vote.  
Legislation to amend the conscription  
law so as to subject aliens to the  
draft probably will be pressed during  
the week and hearings will begin be-  
fore a Senate subcommittee on the  
Administration trading with the en-  
emy bill, recently passed by the House.

Five years ago the pupils in the  
Kwanziu Girls' Industrial School, Co-  
reia, never had seen a crochet needle,  
yet they have acquired such proficiency  
in crocheting that they have earned  
about \$400 for the self-help department  
of the school.

White was driving along a high stone  
wall and just as he reached the end  
of the wall the child stepped into  
the road, not more than six feet from

## BRITISH RAID REPULSED

(Continued from First Page.)  
four were lost in the haze. The pur-  
sues of the others continued, all the  
machines climbing to a greater height  
as they fought. They attained an alti-  
tude of 15,000 to 18,000 feet and were  
soon lost to sight.

Some excitement was caused in Lon-  
don by the sounding of raid warnings.  
Persons who believed anti-aircraft  
guns were in action made a rush for  
cover. The tube stations were favorite  
places of refuge.

Early morning services in the city  
churches proceeded without interrup-  
tion.  
About an hour after the first warn-  
ing the police again appeared on the  
streets with placards announcing that  
all was clear.

There is little doubt an attempt was  
made to reach London. In giving  
notice that warning signals would be  
fired the authorities announced that  
such warnings could not be given un-  
til it appeared from information re-  
ceived from the military that an attack  
on London was intended.

newspapers containing the speech of  
Imperial Chancellor Michaelis and the  
debate in the Reichstag have  
reached Denmark for some reason,  
but arriving Hamburg papers give more  
extensive reports of the speeches in the  
Reichstag than were transmitted by  
the Wolff Agency.

## WHEN YOUR COLOR FADES

When a girl's color fades, when her  
cheeks and lips grow pale, and she  
gets short of breath easily and her  
heart palpitates after slight exertion  
or under the least excitement it means  
that she is suffering from thin blood.

Headache and backache often ac-  
company this condition and nervous-  
ness is frequently present.  
The remedy, of course, is to build  
up the blood, and for this purpose Dr.  
Williams' Pink Pills are recommended.  
They are the remedy best suited to re-  
store the blood, bring brightness to  
the eyes and put color in the cheeks  
and lips.

The only other treatment needed  
costs nothing. It is this: Give the  
patient plenty of sunlight, moderate  
exercise every day, not enough to  
cause fatigue, and use care in the diet  
because the food craved is often not  
the best for the condition.

Two books, "Building Up the Blood"  
and "What to Eat and How to Eat,"  
give just the information that every  
mother of a growing girl needs. They  
are free. Write for them today to  
The Dr. Williams Medicine Co., Schen-  
ectady, N. Y. Your own druggist sells  
Dr. Williams' Pink Pills or they will  
be mailed postpaid on receipt of price,  
50 cents per box, six boxes for \$2.50.

## UNION REJECTS PACT

THREE OF EIGHT BUTTE ORGAN-  
IZATIONS OPPOSE ACTION.

**Mining Company Declares Offer Is  
Final—Wage Based on  
Price of Copper.**

BUTTE, Mont., July 22.—The Machin-  
ists' and Boilermakers' unions of Butte  
last night voted to reject the proposed  
contract offered the metal trades by  
the Anaconda Copper Mining Company  
as a result of recent conferences with  
the state executive board of the metal  
trades relative to wage increases. The  
machinists voted 187 to 21 and the boil-  
ermakers 27 to 17. Three of the eight  
metal trades unions of Butte have now  
rejected the contract.

International union officials tonight

predicted that the Anaconda and Great  
Falls metal trades locals, totaling 17  
in number, would vote in favor of the  
contract sufficiently strong to insure  
its adoption. Each metal trades union  
in the state has one vote and the ma-  
jority decides the action for all the  
unions involved.

A statement issued by the Anaconda  
Copper Mining Company this morning  
stated that the offered contract was the  
final word and that no further negoti-  
ations would be held should it be re-  
jected.

The proposed wage scale on which  
the unions are voting is determined by  
the price of copper, starting with a  
basis wage when copper is selling un-  
der 15 cents and increasing 25 cents per  
day for every 2-cent increase in the  
price of copper. The employing com-  
pany also agrees to modify the rustling  
card system so that it will not prevent  
any man's working for a living in the  
district so long as he does not disobey  
rules of the company.

With care, there is timber enough in  
the United States to last 444 years, ac-  
cording to a Government expert.
