

MEN MUST WATCH FOR POSTED LIST

Bulletins at Board Headquarters Will Constitute Legal Notification.

PROVOST MARSHAL RULES

It is incumbent upon all registered men to learn their red ink numbers and know when orders issue.

WASHINGTON, July 23.—The master list of the drafting last Friday which fixed military liability under the draft will not be ready for distribution to the local exemption boards until tomorrow. It had been hoped to mail it tonight to Governors of states for distribution, but a delay resulted from mechanical difficulties in printing.

Pending publication of this official result of the drawing no authentic information is available to check the unofficial report transmitted to the newspapers during the drawing. It is probable a copy of the official list will be given out here tomorrow.

The Governors will be furnished with two copies for each local board in their states. They will be asked to mail each copy separately to local officials so as to insure delivery. Immediately on receipt of their lists each local board will cancel the numbers higher than the top red ink number in its district, and then from the remaining numbers enough men to make up double the district's quota will be notified to appear for physical examination.

Men Must Watch for Posted Lists.

Provost-Marshal-General Crowder ruled today that posting at the board headquarters of the list of men ordered to appear constitutes legal notification. It therefore is incumbent upon all registered men to learn their red ink numbers at once and to see that the board headquarters is watched when the list is posted. Those ordered up also will be notified by mail, but the period allowed for appearance will count from the posting of the list.

The ruling was in connection with an order issued by the War Department holding the ranks of the regular Army open to registered men for voluntary enlistment up to the time such men have been posted as ordered to appear. The War Department has been notified also that the Army makes no claim upon any registered men until that time, so that registration is no bar to enlistment in the Army, Navy or National Guard.

Credits Expected to Continue.

In apportioning draft quotas credit was given for voluntary enlistments prior to June 30, but there has been no indication whether credits will be given for men coming in since that date. An average of 100,000 men a day has been reported by the regular recruiting stations alone, and counting the National Guard, it is probable the voluntary enlistment provided close to 500,000 men of the 687,000 called for under the draft act as necessary to fill up the regulars and create the first increment of the National Army. No announcement has been made as to what disposition will be made of this excess of credits, but it is entirely likely that in the end every man who enlists voluntarily will reduce by one the quota of his home district.

Provost-Marshal's Office Swamped.

The office of the Provost-Marshal was swamped today with applications for blanks requesting transfer of examination. All who applied were told that no steps in that direction could be taken until the registrant had been called for examination. He then may secure necessary blanks from the board within whose jurisdiction he is at the time. His physical examination can be transferred without affecting regarding exemption claims may also be received and considered at a temporary residence.

Every man finally certified for military service, however, will return to the jurisdiction of his home board and go with the troops from his home town.

Confusion of Numbers Overcome.

Regulations to govern the application of the master list by the local exemption boards have already been promulgated and include a method by which any difficulties arising from confusion of serial numbers are to be overcome. The plan is to regard such registration cards as additional to the number already provided and the local lists. A separate drawing will be held by the state authorities to place these additional cards and such other cards as may have come in by mail since July 10 in order as they are drawn. They will then be appended to the registration list of their district and be immediately affected by the selection drawing of last Friday just as though they had been included in the list at that time.

Probably it will take several days for the boards to become thoroughly familiar with their work. After that officials expect the examinations and exemptions of men or their certification to the higher boards for military

SPREAD POSLAM TO TEST ON PIMPLY SKIN

Try this! Spread Poslam over that itching skin affected at night. Then dismiss the trouble from your mind. Sleep soundly and, next morning, examine the skin and see just what one application of Poslam has done. You will rejoice to know of one remedy possessed of real healing energy which can bring about results so quickly.

Eczema, Pimples, all broken-out, itching surfaces, respond to Poslam as to nothing else.

Sold everywhere. For free sample write to Emergency Laboratories, 243 West 4th St., New York City.

And Poslam keeps the skin medicated with Poslam, will benefit your skin while used daily for toilet and bath.

A Charge Account

—may be opened by any girl who wishes to dress well at small expense by selecting her apparel this Summer at CHERY'S, 389-91 Washington st., Pittcock block.

duty will proceed rapidly. Within a week after the local boards begin operations the district boards also will be able to begin their work and take up questions of industrial exemptions as rapidly as they arise.

CHURCH COUNCIL IS CALLED

Women Given Equal Rights at Notable Russian Meeting.

PETROGRAD, July 23.—An ecumenical council of the Russo-Greek Orthodox Church will meet at Moscow Assumption day, August 28. The meeting will be the first one since Peter the Greek, having abolished the patriarchate, forced the church under the control of the autocracy. The event is awaited with impatience by church reformers, more than 200 of whom are expected.

The ecumenical council will comprise in part members acting ex-officio and in part representatives elected by the clergy and laity. In the selections women will be given equal rights with men. This is a highly modern concession, as the orthodox church, traditionally and by dogma, does not favor the participation of women in ecclesiastical life.

AMERICAN OFFICERS HOME

Investigators Sent to Western Battlefront Face Fire.

AN ATLANTIC PORT, July 23.—Eleven American Army officers, members of a special commission sent to France, England and Belgium early in June as investigators of Army conditions, arrived here today on an American steamship.

The officers visited all the commands on the Western front and shrapnel-scarred steel helmets which they brought back as souvenirs supported their admission that they had been under fire.

They confirmed cable reports of the enthusiasm with which the American soldiers are receiving the French people and, as one officer expressed it: "We are mighty proud of the way our boys are being treated by the soldiers of whom they are now allies."

STRIKERS MAKE PROFFER

(Continued from First Page.)

the traction company to compel the company to operate its cars and, in default of operation, the appointment of a receiver. The city resisted the transfer of the case.

Mayor Gill said today he had received word from private sources that the strikers are on the way to Seattle to attempt to operate streetcars. He will lay his information before the City Council. The streetcar company is reported to be preparing to house strikers.

Prosecuting Attorney Lundin today filed information in the Superior Court charging 15 former policemen charged for refusing to protect strike-breakers, with nonfeasance.

Shipbuilding Already Suffers.

Federal officials are interested because the streetcar strike threatens to involve the great Seattle shipbuilding industry through a sympathetic strike of the building trades in which the shipyards would become immediately affected because the wooden hulls of the building industry is already suffering from a shortage of timber and because a shortage of lumber for construction of the National Army camps is feared.

The difficult features of the situation are the refusal of the Puget Sound Traction, Light & Power Company to arbitrate the strike, the Amalgamated Association of Street and Electric Railway Employees of America and the refusal of the lumber manufacturers to arbitrate the strike of shorter hours, insisting on the ten-hour schedule. In their efforts to obtain concessions from employers, the advocates of conciliation have refused to treat with trades unions strengthens the hands of the Industrial Workers of the World.

Union Electricians Ordered Out.

The local unions of the International Brotherhood of Electrical Workers today ordered out the union electricians in the ten Seattle stations of the Puget Sound Traction, Light & Power Company. The union electricians will cut off the power from two large shipyards, from hundreds of industrial plants and from the Tacoma and Everett power plants. The union of the large plants have already made connections with the city power plant, which is prepared to furnish power to the Seattle power plant. The union would be affected by a power strike.

The Master Builders' Association today issued a statement saying that the union electricians, which is reported to be threatened, is not likely to take place, as the master builders have an agreement with the unions, running until next May, under which strikes and lockouts are positively forbidden.

Police Pressure from the National Government, Seattle business men today continued their efforts to bring about settlement of the Seattle streetcar men's strike and the lumber strikes that have closed many of the lumber and shingle mills of Western Washington.

Company Voices Its Position.

The Puget Sound Traction, Light & Power Company made no effort to run cars today. In a half-page newspaper advertisement today the position of the company in the strike is set forth to the public. The public, the company asserts it does not oppose union labor and does not oppose the formation of a union, provided it is free from outside interference. The company is opposed to the closed shop, and voices opposition to the Amalgamated Association of Street and Electric Railway Employees of America "because of its long record of unreliability and broken agreements."

Police records for the past week show that 185 persons were injured in automobile accidents last week, a majority of the accidents being due to careless driving in the effort of automobile drivers to take the place of streetcars as passenger carriers. Two of the persons injured have died and many are in hospitals.

TACOMA TRIES NEW TACTICS

Mandamus Proceedings Filed to Force Strike Settlement.

TACOMA, July 23.—Mandamus proceedings were filed in the Superior Court today by the state of Washington and the city of Tacoma against the Tacoma Traction & Power Company and 203 striking streetcar men citing them to show cause Thursday why a writ of mandamus should not issue directing the company to operate the streetcars. It is the first suit of the kind ever brought in the state.

"The public must have service at once or the state of Washington is out of business. If it does not pay its men enough wages and provide proper hours to keep them in its employ, it must increase to the place where it can give service," City Attorney Harmon said, basing his assertion on Judge Gaynor's decision in a recent New York case.

Tacoma and Seattle strikers paraded the streets tonight, headed by bands. There was no demonstration. Louis H. Bean, manager of the street railway system, said he operated 25 cars today.

JURY IS LOCKED UP

Mrs. Mooney Is Optimistic as Deliberations Are Begun.

COURT URGES FAIRNESS

Jurors' Box Is Held No Place for Partisan Feeling—Unofficial Labor "Jury" Brings in Verdict of "Not Guilty."

SAN FRANCISCO, July 23.—After having been summoned into court and questioned by Judge Seawell regarding its progress, the jury in the case of Mrs. Rena Mooney, accused of a premeditated murder, was sent to the hotel at 10:30 tonight and locked up for the night.

The jury will return to its deliberations at 9:30 o'clock tomorrow morning.

The case went to the jury at 12:55 o'clock today. Mrs. Mooney laughed and chatted with friends as the jury left the courtroom.

In the course of his instructions to the jury Superior Judge Seawell said: "Fair Consideration Urged."

"The box is no place for partisan feeling and no political consideration must enter into your deliberations or verdict."

"You are not bound to heed any theories advanced by either the prosecution or the defense; you must act only on the evidence."

"If a reasonable doubt of guilt has been established the defendant must have the benefit of such doubt."

"It must be clearly established in first degree murder that the alleged murderer had a definite purpose and premeditated the act."

Labor "Jury" Exonerates.

The unofficial labor "jury" retired to a separate building for deliberations. Its verdict will be presented to the Central Labor Council tomorrow.

While the jury was still out, the unofficial labor "jury" brought in a verdict of "Not guilty," according to an announcement by the foreman, George Sweet, president of the Sheet Metal Workers' Union of Oakland. He said they deliberated 2 1/2 hours and reached their verdict.

This labor jury was appointed by the Central Labor Council of Oakland.

WAR STILL ON IN AFRICA

GERMAN TROOPS MAKE STAND AGAINST ALLIED FORCES.

Heavy Fighting Takes Place and British Official Statement Says German Suffer Large Loss.

LONDON, July 23.—German troops in German East Africa attempted to make a stand last week against the allied forces which are gradually closing in on them. An official statement issued here today says heavy fighting took place, in which the Germans suffered large loss. The announcement follows:

"On July 17 the enemy evacuated Mosti Shikamun, a portion of his forces retreated southwest toward Likawage and the main body fell back on Narongombe. Throughout the 17th and 18th our columns pressed the retreating enemy in a most difficult country, capturing a few prisoners and occupying a ridge two miles north of Narongombe by nightfall of the 18th."

"On the 19th the main enemy positions in the vicinity of Narongombe were attacked. Severe fighting ensued, the enemy offering most stubborn resistance and making numerous counter-attacks in the course of which it is ascertained from prisoners that sustained heavy losses. Our casualties also were considerable."

"In the Rufiji area, the enemy evacuated Kitope, our columns having driven his rearguard toward Medaba, on the 21st. In the Songea area, the enemy continued his retreat toward Mahenge, offering slight resistance to our pursuing forces. In the northern area a German column, under the command of Sanjo district, west of Lake Natron, is now moving south through Engaruka, pursued by Belgian columns from Ikoma."

RAIL REVENUE GAINING

MAY RETURNS SHOW SUBSTANTIAL INCREASE OVER 1916.

Western Roads Have Phenomenal Advance and Pay \$1,000,000 More in Taxes Than a Year Ago.

WASHINGTON, July 23.—After five months of decreased earnings compared with a year ago, returns from the Western railroads to the Federal Finance Commission for May, made public today, show an increase in net revenue of approximately \$3,465,000, and an increase of \$1,100,000 in railway operating income over May, 1916.

Operating revenues totaled \$245,773,079, an increase of approximately \$14,000,000. Expenses increased to \$238,523,379, leaving net revenue from railway operation of \$107,050,200. Operating income was \$95,079,548. After taxes and uncollectible revenues have been deducted an increase of approximately \$2,700,000 in the railway tax bill is recorded.

The biggest gain was shown by Western roads, whose revenues jumped \$2,000,000 to \$139,197,707, while expenses showed an increase of approximately \$14,000,000.

Western roads paid approximately \$1,000,000 more in taxes last year, leaving net revenue of \$141,632,580 as compared with \$241,911,046 in May, 1916, an increase of approximately \$6,120,000.

CONFERENCE TO INVITE U. S.

Formal Announcement Not Yet Sent Out by Russia.

WASHINGTON, July 23.—The United States will be invited to attend the allied conference on war items called by the Russian government to be held in August, it was stated today at the Russian Embassy. As yet no formal invitations have gone out, but informal discussions with the British and French governments have established their willingness to accept.

Embassy officials do not know the exact scope of the conference. Undoubtedly there will be discussion of what treaties the allies' governments feel should be binding on the new Russian government. Whether or not the United States will deem it wise to participate in such a conference is problematical.

ELKS PLAN TO SPEND FUND

\$1,000,000 Raised to Aid Families and Men Maimed in Battle.

NEW YORK, July 23.—The \$1,000,000 war fund to be raised by the Benevolent and Protective Order of Elks will be used in the coming year to aid the families left behind by soldiers and in aiding disabled men to learn new trades or professions.

This announcement was made here by John K. Tener, chairman of the war relief commission of the Elks and president of the National League of Baseball Clubs, in a statement submitted to the grand lodge.

Disorderly Resorts Restricted.

WASHINGTON, July 23.—By executive order issued today President Wil-

Comparative prices are misleading and often untrue—Notice that we do not use them!

Today--continues our great Pre-inventory Sale!

Kodak developing and finishing Sixth floor.

Sipman Wolfe & Co. Merchandise of Merit Only

Eyes examined without charge Second floor.

Here's the best of today's news!

A mighty sale of pongees

—And because we contracted for them months and months ago, the prices are but a fraction of what is being asked today! —There are three lots in this shipment and they're priced as follows:

89c—\$1.09—\$1.33

—They are 33 and 34 inches wide. Just the silks that every woman wants for Summer frocks and blouses and coats, and that many men want for shirts and underwear.

—These imported pongees are all good and heavy and they'll stand no end of wear and washing without showing the "white feather!"

—We look to see them create the liveliest kind of buying, starting right at 9 o'clock this morning. Second floor—Lipman, Wolfe & Co.

Pre-inventory sale

Lawn Dresses at \$1.49

—You'll be amazed when you see what charming frocks we've put out to sell at \$1.49! Most of them have been marked double and more than double this price. They're white, with dainty stripes in blue, lavender and black. Girdles of black velvet ribbon. Utility dresses, too, with empire waist and trimming of piping and embroidery.

LAWN FROCKS

Reduced to \$2.95

—Such frocks as you'd wish for if you were planning to have them made to your order! If you're adding a frock or two to your wardrobe you'll be more than pleased with what you'll find.

Fourth floor—Lipman, Wolfe & Co.

All fancy cotton SKIRTINGS at 1/2 price in this pre-inventory sale

—Every yard of sports skirtings has been marked at just one-half price for this pre-inventory sale! We are anxious to bring our stocks to a low level before we close our books for the half year! And, right now, these sports skirtings are at the height of their popularity. There's an endless range of styles!

White waistings, 48c

—All white, finely woven, fancy waives, in 36 and 40-inch widths. A very choice selection of woven-in designs. They're excellent values at 48c.

Colored voiles, 29c

—A hundred patterns from which to select yours; ranging through light pinks and blues to navies. Specially priced for pre-inventory sale.

Second floor—Lipman, Wolfe & Co.

EXPLOSION IS SAFE

Winter in Crockerland Is Comfortably Passed.

ETAH IS STOPPING POINT

No Earthquakes Recorded Except Heavy Shock on March 11 by Seismograph—Dr. Hovey Describes Experiences.

BY DR. EDMUND OTIS HOVEY, Curator of Geology, American Museum of Natural History and Leader of the Crocker Expedition.

THORSHAVEN, July 23.—(Special.)—The Crockerland expedition party, consisting of MacMillan, Comer, Small and Hovey, passed the Winter comfortably at Etah. MacMillan made important additions to his ethnological work and Hovey had a seismograph in commission from October 20 onward, which recorded earthquakes except one heavy shock on March 11.

MacMillan was to start on March 25 with three Eskimos and four dogs sledges to map unknown portions of the southeast coast of Ellesmere Land and make studies as far as MacMillan Sound, returning to Etah early in June.

I left Cape York April 8 and consumed 20 days crossing Melville Bay. I had a supporting sledge to Etahman's Island and from Cape Sedon to Isasiak. The weather was mostly good but the deep snow and slush on the ice made traveling difficult. I reached Etah July 2 and left May 5 by sea ice around Sanderson's Hope.

I went down to Disko Bay and found Etah well. He is staying at South Upernivik, but is coming to Godhavn in July to await the Crockerland expedition relief ship.

I was delayed a week at South Upernivik on account of fresh snow, but I had excellent geological, botanical and ornithological studies this Summer.

I was delayed a week at South Upernivik on account of fresh snow, but I had excellent geological, botanical and ornithological studies this Summer.

HIGHLANDERS IN CHICAGO

Canadian Troops to Encourage Enlistments for Air Corps.

CHICAGO, July 23.—Kilts and tartans captured the heart of Chicago today when 200 of the Forty-eighth Canadian Highlanders headed by pipers and the regimental brass band paraded through the downtown streets as a preliminary to a week of intensive recruiting for the British Army as well as for the United States Army.

The Canadians, the first detachment of English military in actual service to march under arms on American territory since the evacuation of New Orleans in 1915, were greeted with cheers all along the line of march.

IRISH DELEGATES CHOSEN

Sinn Feiners and O'Brientes Refuse to Sit in Convention.

DUBLIN, July 23.—Arrangements for the Irish convention which on Wednesday will begin an endeavor to solve the Irish problem, are now complete.

Various bodies in Ireland have chosen their delegates to the convention. They constitute a group which is representative of all elements of Irish life, except the Sinn Feiners and O'Brientes, who refused to take part in the convention.

Some were chosen by the government to strengthen the labor representation, in view of the refusal of the Dublin and Cork Trades Council to send delegates.

Government Reward Limit Fixed.

WASHINGTON, July 23.—A limit of \$5000 as reward for information upon which smuggling cases may successfully be prosecuted and recoveries of duties obtained, has been set by the Government.

Aviation Bill Before President.

WASHINGTON, July 23.—The \$600,000 aviation bill went to the White House today for President Wilson's signature.

BOHEMIAN RESTAURANT

The real duty of a host is to feed and serve each man as if he were the only patron he had. That's a Bohemian idea and just now special lunches for warm weather along with the best that the market shows, at right prices, is attracting the visitors and those of Portland who enjoy a meal in such surroundings.

127 WEST PARK STREET Between Washington and Alder

RETURN HOME ASKED

Bisbee Deportees Also Want Federal Protection.

TELEGRAMS SENT WILSON

Government Is Thanked for Aid When Left on Desert and for Food and Shelter—\$1000 Is Spent Weekly for Families.

COLUMBUS, N. M., July 23.—Telegrams to President Wilson and to Governor Thomas E. Campbell, of Arizona, from Bisbee, Ariz., July 12, and who are encamped here in the old military stockade be returned to their homes under adequate protection, were sent today by the executive committee appointed by the men to conduct the affairs of the camp when military restraint was removed under orders from Washington Saturday night.

The telegram to the President follows: "All of the 1145 men deported from Bisbee have been residents of the Warren district long before the strike was called and many of them have homes and families here. We now demand that we be returned immediately to our homes under adequate protection. We appreciate and are thankful for the aid given us by the Federal Government when we were left helpless on the desert and for the shelter and food given us since."

Mrs. William B. Cleary, wife of the Bisbee attorney, who was deported with the other men, arrived today from California to be with her husband.

F. Moore, of Chicago, general counsel for the Industrial Workers of the World, who has been here investigating the situation, left today for Globe, Ariz.

BISBEE, Ariz., July 23.—A few of the men who were deported are getting into Bisbee, several having been seen on the streets here today. Deputy Sheriff, it is understood, will round them up and if they are found to be without visible means of support they will be tried for vagrancy.

The so-called investigation committee, which looked into a number of

cases after the actual deportation, has ceased its activity and the situation will be handled hereafter by the civil officials through vagrancy charges.

It was learned today that the Warren district relief association, through which many families are being aided in Bisbee, is expending upward of \$1000 a week among the Mexicans alone. This sum is augmented by the amounts expended toward the relief of the families of Americans.

NEW YORK, July 23.—Suspension by the railroads during the period of the strike of efforts not designed to help directly in the winning of the war is urged by the special committee on National defense of the American Railway Association in a letter addressed to Public Service Commissions and all state, county and municipal authorities throughout the country by Fairfax Harrison, chairman of the committee.

The erection of new stations and the elimination of grade crossings, the committee thinks, are among the non-essential improvements. The committee also urges co-operation in eliminating all passenger service "which is merely conventional and not justified by public necessity."

How to Overcome Foot Troubles

If you have tired, burning, aching feet, corns or painful callouses, you know only too well the misery and torture that they bring. It is unnecessary, however, to suffer longer with any of these foot troubles.

Go to your drugist and get a small jar of Ice-Mint. Rub a little of this cooling, healing discovery on your feet, aching corns, blisters, swollen feet. Instantly the pain of corns and callouses vanishes. And shortly the most stubborn and painful hard corns, soft corns, corns between toes, or aching callouses will shrivel up and lift off easily with the "fingers," root and all.

Ice-Mint costs a little
