

TARNOPOL FALLS TO TEUTON HANDS

Russian Guards Retreat, but Regiments to Southeast Remain Faithful.

DEATH PENALTY URGED

Premier Kerensky Sanctions Draconic Methods to Restore Discipline and Cope With Efforts of Agitators.

PETROGRAD, July 25.—The Russian Guards Corps, Tarnopol, retreated, unopposed by the enemy, said the official statement tonight, but the Prohursky and Semensky regiments remain faithful and are fighting southeast of Tarnopol.

In these streets of Stanislaw there are stubborn bayonet engagements. The populace threw grenades on the retreating Russian troops.

A report of the general staff of the Rumanian army received here today says: "In the South Carpathians troops under General Rozova, Averesco assumed the offensive and occupied the villages of Meresed and Volochany and captured several hundred prisoners and 19 guns, including some heavy ones. We owe this success to the skillful maneuvering and close co-operation of the Rumanian and Russian forces and also to the vigorous activity of our allied artillery."

Remnant of Batteries Wiped.—The powerfully organized enemy line has been broken on a extensive front. The bravery and devotion of the troops was incomparable. Among other incidents one battery lost its entire personnel except seven men who continued firing without cessation, and finally silenced the enemy's fire. Lieutenant-General Stcharbatheff, commander of the Russian line in Rumania, decorated all these men with the St. George's cross.

The present line of the southwestern front is approximately that occupied after General Brusiloff's drive last summer, except Tarnopol, where the enemy succeeded in pushing further into Russian territory.

The Germans chose the junction point of the Seventh and Eleventh armies for beginning their offensive, the first blow being struck between Zboroff and Pekiabo on a 20-mile front. Without great effort, as is admitted in the Russian official communications, they pursued their advance on the line of the Sereth. This uncovering of the Russian positions south of Tarnopol forced a retreatment all along the diagonal line southward, cutting the Strypa and Ziota Lipa to Halicz and the Lomnica.

Death Penalty Urged.

One of the first results has been a general agitation for the restoration of the death penalty for insubordination in the army and for reasonable conduct on the part of agitators. General Kornaloff, commander of the southwest front, has issued order to all subordinate commanders to open fire on deserters and troops refusing to obey orders. Premier Kerensky has sanctioned the effort to restore discipline. Many Maximalists, to whose agitation the present situation of the troops is directly attributed, have been arrested.

Rear-Admiral Razvoeff has been appointed commander in chief of all the Russian naval forces in the Baltic.

The newspapers announced that Rear-Admiral Yevdovskiy, commander of the Baltic fleet, had been arrested for communicating a secret government telegram to the sailors' committee.

General Pershing and Marshal Joffre are already pals. Since the arrival of the first American expeditionary force in France Pershing and Joffre have become close friends, and their appearance in public together is always a signal for enthusiastic demonstrations by the people. The picture shows the veteran Marshal of France and the younger American General together at the Champ de Mars in Paris. Marshal Joffre has been detailed to assist General Pershing in every way possible.

CHINA IS NOT ISSUE

Japanese Commission Created Solely for War Work.

RADICAL VIEWS OPPOSED

Authorities Emphasize Point That Visit to America of Ishih Commission Not for Purpose of Discussing Chinese Question.

TOKIO, July 1.—(Correspondence of the Associated Press.)—Viscount Kikujiro Ishih and other Japanese, speaking authoritatively, have laid stress on the point that the forthcoming visit of the Ishih mission to the United States has no relation to the recent action of the American Government in sending a note to China.

The mission is purely connected with the operations of the war, it is explained. The idea of the mission's creation came into being long before the incident over the American note, and negotiations concerning it were practically concluded before the note was made public. If radical questions concerning China and the Far East generally are discussed they will arise incidentally.

Japan Would Guard Islands.

Viscount Ishih probably will submit to the Washington Government Japan's willingness and readiness to substitute Japanese warships for the American naval force now in the Pacific Ocean, including those making up the Asiatic fleet with headquarters at Manila. The underlying idea is that Japan, taking up the task of protecting American territory and interests in the Pacific, the American fleet would be free to transfer to the Atlantic Ocean, where it would be more useful.

A strong sentiment in favor of Viscount Ishih taking up the Chinese question has arisen in Japan. The press generally has been urging that the present Ishih mission, an excellent opportunity for frank exchange of views with the American authorities.

The Japanese have claimed that they have a special position in China which is based on considerations of racial similarity, geographical proximity and economic approach. A recognition of that superior place is believed here to be one of the great ends of Japan's diplomacy and probably would be ready to sacrifice immediate material interests for eventual recognition by the world for their special, paramount position in China.

Political Demands Opposed.

It is recognized, however, that the United States, free of foreign alliances, is in a totally different position from England and France and that it is a very great step to ask her to abandon her prerogative of independent action in China and substitute a recognition of Japan's paramount place, which would be coupled with a practice of always consulting Japan.

TEUTON ATTACK ON AISNE IS FRUITLESS

Germans Are Driven Out of Positions on Calvarnie and Casemates Plateau.

BRITONS RAID OFF YPRES

English Airmen Drop Bombs on Submarine Base at Zebrugge and Bruges, and Explosions and Fires Follow.

LONDON, July 25.—British troops yesterday made successful raids east and west of Ypres on the Belgian border, capturing 114 prisoners, including two officers, according to the official statement issued today by the British War Office.

ON THE FRONT, July 24.—(Delayed.)—The furious attack of the Germans along the Chemin des Dames sector on the Aisne front has brought them nothing but death and the failure of all their plans to obtain possession of the ridge and the observation places. At daybreak today the French launched a counter attack with such vigor that they turned the Germans out of the few hundred yards of trenches they had succeeded in occupying in the first onset and sent them rushing back to their old lines. The famous One Hundred and Fifty-second Regiment led the attack.

The Calvarnie plateau was the scene of the most furious fighting. The Germans who had gained a footing there were driven out everywhere except at one small point which is of no importance. On the Casemates Plateau the result was similar. At almost every point, the French compelled the retirement of the Germans. Subsequently the Germans tried once more, but in vain, to drive out the French.

The artillery tonight is at work most heavily. The front line is as light as day from the flashes of the shells. LONDON, July 25.—A dispatch to the Exchange Telegraph Company from Amsterdam says that the English air force announced that the English airmen during the last two nights have bombed Zebrugge, the German submarine base, and the town of Bruges, Belgium. Explosions and fires followed the attacks. A submarine shed at Zebrugge was damaged, according to the dispatch, and it is probable that a submarine was blown up.

PARIS, July 25.—The official communication tonight reads: "The activity of the two artilleries was very spirited, particularly on the Casemates plateau, in the region of Champagne, in the region of Moronvillers, and on the left bank of the Meuse. Everywhere our batteries very vigorously took to task the enemy artillery. There was no infantry action. "Shells to the number of 567 were fired into the air."

"Belgian communication.—The enemy artillery was active during the night against our communications in the region of Wootzen and near St. Jacques Capelle. There was grenade fighting before Dixmude and artillery fighting in the region of Ranscapelle and Rippergaale. "Army of the east, July 24.—There was moderate artillery activity in the region of the Yser. Enemy patrols were dispersed by the Serbians near Sivarvina. Lively artillery actions occurred northwest of Monastir during the night of July 24. Calm was re-established in the day."

STORY OF ATTACK RE-TOLD

British Sailors Say American Transports Snak Six U-Boats.

HALIFAX, N. S., July 25.—British sailors arriving here today who say they were among crews of vessels in the vicinity of the transports which conveyed the first American troops to France declare they were credibly informed that German submarines made a concentrated attack and were beaten off with a loss of six U-boats, only one submarine escaping. The sailors say they were within three miles of the transports and witnessed some very continuous fire. The men were on three former Dutch vessels, which had been taken over by the British government and were on their way to Europe.

A Great Responsibility.

THE responsibility attached to the preparing of a remedy for infants and children is undoubtedly greater than that imposed upon the manufacturer of remedies for adults whose system is sufficiently strong to counteract, for a time at least, any injurious drug. It is well to observe that Castoria is prepared today, as it has been for the past 40 years, under the personal supervision of Mr. Chas. H. Fletcher.

What have makers of imitations and substitutes at stake? What are their responsibilities? To whom are they answerable? They spring up today, scatter their nefarious wares broadcast, and disappear tomorrow.

Could each mother see the painstaking care with which the prescription for Fletcher's Castoria is prepared: could they read the innumerable testimonials from grateful mothers, they would never listen to the subtle pleadings and false arguments of those who would offer an imitation of, or substitute for, the tried and true Fletcher's Castoria.

Children Cry For Fletcher's CASTORIA

Extracts from Letters by Grateful Parents to Chas. H. Fletcher.

G. J. English, of Springfield, Mass., says: "It was your Castoria that saved my child." Mrs. Mary McGinnis, of St. Louis, Mo., says: "We have given our baby your Castoria ever since she was born, and we recommend it to all mothers." N. E. Calmes, of Marion, Ky., says: "You have the best medicine in the world, as I have given your Castoria to my babies from first to last." Mrs. Albert Uginsky, of Lawrenceburg, Ind., says: "As I have had your Castoria in use for nearly three years, I am pleased to say it is just as represented. My children are both well and happy—thanks to Castoria." R. P. Stockton, of New Orleans, La., says: "We began giving your Castoria to our baby when he was eight days old and have kept it up ever since, never having had to give any other medicine." Mrs. Dolph Horabuckle, of Colorado Springs, Colo., says: "We commenced giving your Castoria to our baby when she was four weeks old. She is now seven months and weighs 19 1/2 pounds. Everyone remarks: 'What a healthy looking baby.' We give Castoria credit for it."
