

AIRCRAFT NEEDS TO BE TOLD IN WEST

Spruce Men to Learn How to Prepare Material for America and Allies.

PUBLIC TO BE INFORMED

Motion Pictures Will Show Recent War Developments and Serve to Stir People to Co-operate in War Activities.

OREGONIAN NEWS BUREAU, Washington, July 27.—It is officially announced today that a delegation composed of representatives of the Federal Government, the British, French and Italian missions, American aircraft manufacturers and Pacific Coast spruce lumber men will leave early next week for the Pacific Coast to confer with lumber manufacturers for the purpose of obtaining their co-operation in turning out the aircraft programme of the United States and the allies. At the same time the military members of the delegation will deliver a series of addresses in the Coast cities and towns on the war situation.

The trip will be made under the auspices of the Aircraft Products Board and the Signal Corps.

Moving Pictures to Be Shown.
The delegation will be composed of E. T. Allen, of the lumber committee, Council of National Defense, who will represent the Aircraft Board; Lieutenant-Colonel L. W. B. Rees, of the British Royal Flying Corps; Major B. Perfield, of the Italian mission; Captain Henry Dourif, of the French mission; William Chadeayne, representing the aircraft manufacturers, and Howard E. Jayne and P. A. Douty, representatives of the spruce lumbermen.

They will take with them a series of moving pictures showing work at the front and will talk to the public on recent war developments, urging general co-operation in all war activities.

The schedule of this trip includes stops at Portland, Seattle, Tacoma, various other towns in Oregon, Washington, and possibly San Francisco.

The aircraft production board stated today that the joint allied and American programme will call for far larger amounts of spruce than were manufactured last year.

Public to Be Informed.
The purpose of next week's trip, according to the Aircraft Production Board, will be to educate manufacturers and the Western public as to the needs of the situation, arouse their enthusiasm and loyal co-operation and insure that nothing is left undone that will help spruce production and quick delivery of the necessary aircraft material.

The men who will make the trip will be able to explain in detail to the lumbermen the exact requirements of the aircraft manufacturers with the reasons for their demands, enabling them to carry out the terms of their contracts more intelligently than correspondence alone would permit. At the same time, their personal investigation of conditions on the Coast will enable the Government's representatives better to understand what difficulties they must prepare to meet and how best to apportion the supply.

JAPANESE STEAMERS SINK

Submarines Make Victims of Carriers Off French Coast.

NEW YORK, July 27.—The Japanese freight steamships Kagoshima Maru, 4566 tons gross register, and the Shiroan Maru, 3227 tons gross, were sunk by German submarines in the Atlantic Ocean on July 20, according to cable advices received by marine underwriters here today.

The Kagoshima Maru was on her way from an American port to Europe and was lost about 70 miles off the French coast. The other ship was on her way back to this country from Genoa.

FIELD ARTILLERY PROVIDED

Appropriation Asked Covers All Calibers of Guns.

WASHINGTON, July 27.—The War Department's supplemental war estimates, listed at \$2,468,613,000 for armaments for fortifications, covers the bulk of the mobile artillery programme, including mobile guns of all calibers, Secretary Baker explained today.

Brigadier-General Crozier, chief of ordinance, told the Senate finance committee today that probably not more than \$1,700,000,000 of the \$2,468,613,000 appropriation would be actually spent before the close of the fiscal year, though authorization of the entire amount was wanted to meet any emergency.

The expansion of American gun-making facilities is proceeding swiftly, and within a comparatively short time American gun shops will be able to produce and deliver in enormous quantities finished guns of any size needed by American troops.

APPEAL FOR GOLD RENEWED

Millions of Marks Worth of Coin Hoarded by People.

AMSTERDAM, July 27.—The daily recurring public notices printed in conspicuous type in German newspapers entreating citizens to aid the fatherland by giving it their gold evidently is insufficient to produce the results. The Weser Zeitung, of Bremen, publishes a renewed appeal complaining especially that the well-to-do public still fails to realize the situation.

The newspaper cites examples of members of the German Imperial and princely houses sacrificing their gold and jewelry and some competent authorities calculate that three to four hundred million gold coins are being obstinately hoarded in Germany, while the value of gold ornaments is estimated at a billion marks.

NEUTRALS LOAD GRAIN

Eighteen Cargoes Await Licenses and Letters of Assurance.

BALTIMORE, Md., July 27.—Eighteen neutral ships loaded with grain are anchored off this port with 96,000 tons of grain in their holds. Fifteen are Dutch and three Norwegian. Some have had their cargoes under hatches for a month awaiting a license from the United States Government and letters of assurance from the British Ambassador.

The cargo of one neutral steamer, consisting of grain was dumped overboard yesterday because it had spoiled. It consisted of about 7000 tons of corn.

VATERLAND TO SAIL SOON

Nearly \$1,000,000 Spent Repairing Big German Steamer.

WASHINGTON, July 27.—The big German steamship Vaterland, seized at New York by the American Government when war was declared on Germany, will be ready for service shortly. Repairs to the ship have cost slightly less than \$1,000,000.

More than half the German vessels taken over by the United States have been repaired and put on the seas. All those taken in American continental ports will have been repaired in a few weeks.

Federal Agent Found No Slacker.

EL PASO, Tex., July 27.—Nathaniel B. Mulholland, stenographer in the United States Immigration Service here, was released from custody today after a hearing on a charge of having failed to register for the selective draft. A telegram from Marshall, Tex., brought the information that Mulholland had registered there. Mulholland denied having uttered insults to the Government and the flag, as alleged by Government officials.

Coal Mining Company Bankrupt.

NEW YORK, July 27.—A voluntary petition in bankruptcy was filed here today by the New Mexico-Colorado Coal & Mining Company, owing liabilities of \$2,952,357 and assets of \$564,000.

PUBLIC AID IS NEEDED

CO-OPERATION WITH POLICE HELD BEST WAY TO CATCH SPIES.

Wireless Outfits Discussed Found Useful in Detecting Outfits Being Used by Enemies.

LONDON, July 12.—(By mail.)—The most effective method of combating the German espionage system in the United States is to be found in co-operation between the public generally and the police, according to opinions expressed to the Associated Press by high officials of Scotland Yard.

Since the entry of the United States into the war English officials and officials of the United States Department of Justice have been closely co-operating along these and other related lines, and the American agents have been

furnished with such information, not only in regard to persons, but in regard to methods of catching those who are working for Berlin.

The compact wireless apparatus, easily moved about and within containers that disguise its real nature, is to be especially guarded against. Scotland Yard feels.

Considerable difficulty has been experienced here with the wireless, and the police now freely employ an instrument through the use of which these enemy instruments are detected.

Wholesale internment of Germans has not interned all her German residents, but the police are absolutely sure of the connections of those allowed to remain at large.

Al Palzer Shot by Father.

FERGUS FALLS, Minn., July 27.—Al Palzer, widely known prizefighter, was shot and perhaps fatally injured today by his father when the latter attacked the fighter's mother. Palzer is now in a local hospital.

CANNERS MAKE APPEAL

PRESIDENT INFORMED COUNTRY'S ENEMIES ARE INSTIGATORS.

Federal Intervention Sought to Save Perishable Products Needed by Country and Allies.

SAN FRANCISCO, July 27.—President Wilson was directly appealed to today by the Canners' League of California for Federal intervention in the cannery strikes here and in the Santa Clara Valley.

"Enemies of the country are behind this desperate movement which is sweeping over many Western states," the message told the President. It declared:

"Agitators, practically all foreigners, are forcibly stopping women and men from going to work by threats to kill. This is not a strike but a conspiracy to stop fruit and vegetable packing, resulting in destruction to large quantities of fruit products absolutely necessary for use of our Army and Navy, our allies and the country at large. Goods already sold to the Government cannot be delivered."

Cannery owners say a new organization called the "Tollers of the World" is behind the trouble, which has affected about 2500 men and women employees. The strike leaders demanded shorter hours and increased wages.

BREAD PRICE LIVE ISSUE

95 Per Cent of Population of United States Interested.

WASHINGTON, July 27.—In a communication to Congressional conferees on the food bill, the War Emergency Council of the baking industry today gave notice that the \$2 minimum for

wheat proposed by the bill will permit of no reduction in the present price of bread.

The Council urged that the price of wheat be left to the food administration and pointed out that only 2 per cent of the population of the United States was interested in a high price for wheat, 95 per cent was interested in a reasonable price for bread.

The Council sees no immediate prospect for a reduction in bread prices.

Australian Flour Imported.

AN ATLANTIC PORT, July 27.—The first cargo of flour from Australia ever to reach this port was brought in today in a Swedish steamer. It consisted of 7000 tons and was consigned to a British agency.

Earthquake Visits Buenos Aires.

BUENOS AIRES, July 27.—A slight earthquake was felt last night throughout the country.

"What's new?" we asked. The answer was "SWEATER COATS!"

—And the newest of all are the Shetland and fiber sweater coats that come in such lovely shades as honey, gold, orange, coral, geranium, orchid and the like. They're hard to find, too, as our sweater chief discovered when he ransacked the market for them. But he managed, as usual, to secure the loveliest. So here they are, and at remarkably low prices, too.

\$10.00 is the price on Shetland sweaters of extra length, with collars and trimming to contrast.

\$7.85 for fiber sweaters in a wide range of styles and colors! Coat styles, fitted backs, cape effects and a variety of other new ideas that will cause all Portland to buy sweaters!

\$7.50 for Angora trimmed Shetland sweaters, with sashes and pockets. A variety of colors.

\$6.95 is the price mark on Shetland sweaters, with deep striped collars, pockets, sashes and cuffs. Gold, rose, coral and orchid colors among the lot.

\$8.75 is what we've marked some extra long, deeply colored, sashed and pocketed fiber sweaters in gold color.

\$15.00 and \$17.50 for really wonderful fiber sweater coats, in pleated styles, with long sashes and large collars.

Third floor—Lipman, Wolfe & Co.
