

EXEMPTION PLEAS GET LEGAL BOARDS

Provost Marshal-General Issues Instruction to Men Subject to Draft.

APPEALS ARE ARRANGED

No General Class of Workmen Will Be Exempt, Says General Crowder—First Step Is to Be Found Qualified Physically.

WASHINGTON, July 27.—A deluge of personal inquiries concerning future steps in the Army draft, and of pleas from industrial concerns, drew from the provost marshal's office today a statement that questions must be addressed to local boards and that claims for industrial exemption must go later to the district boards.

No general class of workmen will be exempted, Provost Marshal-General Crowder told the coal production committee, which sought information whether miners would be left at their work. Appeals to the provost marshal's office from employers on behalf of their workmen must be addressed to local boards and that claims for industrial exemption must go later to the district boards.

Procedure Is Explicitly Told. "The question of whether a man is more useful to his country in a peaceful pursuit than in military service is a matter to be taken up with the district board," said an announcement "and for that board to determine in the light of the circumstances surrounding each individual case."

Procedure in case of claim for discharge on the ground of industry or agriculture is explicitly outlined in the regulations. Only the upper or district board has jurisdiction over an industrial or agricultural claim for discharge. Before a man has a standing before the district board, he must first be certified to it by the local or lower board as physically qualified for service and must have had any discharge claim made before the lower board decided adversely to him.

Five Days Given for Appeal. He has five days after he is certified to the upper board in which to file claim for discharge and five days more in which to file proof. All claims for exemption or discharge, except claims for discharge on industrial or agricultural grounds, are decided originally by the local board or lower board. Most individual queries of the provost marshal's office come from men who are absent from their place of registration and have been summoned for examination. Such a man should apply in writing to the local board in the district where he is registered, and request an order directing him to appear for physical examination and physical exemption or discharge claim, before the board of the district in which he is now living. This request should designate definitely the board having jurisdiction over the district in which he is living; for example, "local exemption board's division No. 9, New York City."

California grapefruit, three for 10 cents. In the vegetable market: Yellow bantam corn is new this week—30 and 60 cents a dozen; seven ears, 20 cents. Potatoes decrease in price as they increase in size. Some very good lots are offered. Trousdale sent a consignment of the Early Bovee variety, that look first-rate—5 cents a pound; six pounds for a quart. From near Estacada comes a quantity of American Beauty—same price and appearance. From Hood River forwards stringless green and wax beans, three pounds 25 cents. Green peas, all that is left of them, 10 cents 1/2 pound; string beans at the same price. Cucumbers are becoming abundant. FACTS GIVEN GRAND JURY Determined Effort Made to Obtain Evidence Justifying Indictment Against Officials of Faction. New Outbreak Feared.

A determined effort is being made to obtain sufficient evidence to return indictments against the officers of the Bing Kung-Bow Leong tong, it was learned yesterday. In this connection it became known that Deputy District Attorney Collier yesterday, secretary of the Chinese Six Companies of San Francisco, who arrived in Portland Thursday night with the avowed purpose of bringing about peace among the warring tong of Oregon, appeared yesterday before the grand jury and laid before that body evidence tending to show that the Bing Kung-Bow Leongs are holding up every effort to sign a peace pact.

It was also learned that Detective Tichenor, who is in charge of the tong investigations for the city, was before the grand jury yesterday, and Mayor Baker, Detective Tichenor still clings to the theory that the Bing Kungs had a hand in the last Chinatown killing, July 18, and it is known that he believes this tong is causing a greater share of the trouble in Portland.

Visitor Takes Auto Numbers. "For my part I would welcome any information which might lead to the indictment of the officers of the Bing Kung tong, or any other tong for that matter," said Chief Deputy District Attorney Collier yesterday. "This office is simply trying to put a stop to this tong war in Portland and if indictments against the officers or members of every Chinese tong in the city will bring about the desired result I sincerely hope that this will be done."

Although he is heralded here as a peacemaker alone, it was learned that Sam Ahtye early yesterday was busily securing the automobile license numbers of every machine owned by Harry Ding and other prominent members of the Bing Kung-Bow Leong tong. This action on the part of the Chinese peacemaker from San Francisco caused considerable comment among the county officials.

At the Courthouse yesterday Ahtye said that he was not a member of any of the rival tongs, but he showed plainly that he was in sympathy with the Bing Kung-Bow Leongs. This, he said, has prevented the signing of any peace pact along the Pacific Coast because the Portland Bing Kungs have refused to sign a pact until some old scores are settled.

Dreams that Come True!

Year ago a little, barefooted kid got a job in a grocery store, and because he was poor it hurt him to hear other poor people, who didn't buy very much with the little cash they had, given but scant attention. And he dreamed of the time when he would have a big store with thousands of people who came and paid cash and everybody treated alike, and in a kindly way. He dreamed that they would appreciate that sort of treatment and feel that they were a part of the store and with their help he could buy big quantities of only the best foods and sell them for less.

If you want to see this dream coming true—come here and see the thousands who already know it and have helped make possible this store for all the people who want to live better for less.
