Mayor Baker proposes to arrange for sufficient wood and coal for next Winter's consumption, with the end in view of holding prices to the present He has offers of several companies

operating at various points in the Northwest to lay down coal here at He also has his eye on large amounts of slabwood, for example, in the coun-try near Hoquiam, Wash., and is con-

fident he can arrange for transporta-tion facilities to bring it to Portland. He doesn't propose that the people of Portland shall be forced to pay in-flated prices for their fuel and is bending every energy to block any such

move and proposes constructive means of preventing any shortage or price Coupled with this are the efforts of the city administration to force a cut in ice rates and to compel a uniform

bread loaf at right prices.

In view of the situation which has developed here as to the supposed fuel shortage, the Mayor's announcement yesterday that he is confident he can supply the demands—and that at reasonable rates—will be mighty good news to the public.

Provisional Promise Given.

"I don't propose to permit any fuel shortage or any big increase in fuel prices," said Mayor Baker, when asked concerning the fuel situation. "I think I am safe in saying to the people of Portland at this time that they will get their wood, plenty of it and at rates at present prevailing. I don't think there will be any increases in I don't intend that there shall the Portland delegation came sailing

be any.

"I have not as yet received the report on fuel conditions from Mr. Humason, the special investigator for the city, but I will have it tomorrow morning. I do not know what it will contain or what he will recommend, but I do know that I will not permit the people of this city to be left with-out fuel or forced to pay exorbitant prices for it.

Wood Surplus Located.

"I will go the limit in an effort to mittee on the National Admen's conkeep prices at the present schedule and shall not let up until arrangements have been made for ample wood and coal supply at right prices. There will be an available slab wood supply, I that can be been wood supply, I think, for there will be a very large portland delegation went to Oakland amount of it that can be brought in amount of it that can be brought in from around Hoquiam as soon as labor conditions are righted there. Ice Conference Scheduled. Regarding the ice situation, W. C. Holman, secretary-manager of the Ice Delivery Company, which handles all of the deliveries for the various ice companies, will hold a conference with Mayor Baker and Special Investigator Humason in the Mayor's office this morning for the purpose of going over the details of the entire business.

This is the day set for legal proceedings, unless the companies lower their

ings, unless the companies lower their rates for each purchases from \$1 to 70 cents for each 100 pounds. Mayor Baker said last night that he would insist upon compliance with his demand and that he would instruct City At-torney LaRoche to proceed under the provisions of a city ordinance, unless the companies capitulate.

Fair Treatment Promised. Mr. Holman did not wish to make any public statement at this time as to what the companies represented by him would do, but made it plain that they wish to do what is right by the trade. He said that many details of the business are not understood by the general public and that he would lay before Mayor Baker and Mr. Humason this morning some points which he and his

ussociates believe should receive con-sideration from the officials.

Linked with the fuel and ice features of the administration's activities, is the subject of bread. Last week, un-known to the bakers, the Mayor in-structed E. D. Jones, City Sealer of Weights and Measures, to obtain sam-ples of bread loaves from various pro-ducers. It was found that there is no uniformity whatever as to size or uniformity whatever as to size quality and it is now proposed that action shall be taken, after due con-sideration, to bring about a betterment along this line. Further action will be taken later on this subject.

SERVICE OF SONG HEARD

gregational Audience.

Congregation to Applause-Women and Men on Tour to Aid Their Alma Mater.

BY BEN HUR LAMPMAN. Perhaps the park-bench congrega-tion, just across the way from the First Congregational Church, comment-

the voices that wandered out of the edifice and under the trees, to be lost in the distance of city.

And if they did they were right about the voices, but no organ mingled in that flood of hauntingly sweet melody. The tones that welled so softly, that soothed, entreated, promised and rejoiced, were the blended voices of four colored singers of Fisk University. And the service was a service of song.

Such music it was as one wants to shut the eyes to, and voyage wherever the melody flows—and there must be a message in it, for everyone is the quartette is as follows: Miss Bowthe melody flows—and there must be a message in it, for everyone is strangely quiet, and forgetfulness of all save the yearning of it falls like a bent-

"Lord, I Want to Be a Christian in My Heart," "Steal Away," "Roll, Jordan, Roll," "Nobody Knows But Jesus," "Swing Low, Sweet Charlot" and Where Were You When They Crucified

There were sermons in all of them, but in the last there was a super-sermon of the magnificent tragedy of Cal-

Since yearning, repeated the question for William Clark and William Robb, the every act of the drama of the cross. new owners, started work about six And shrinkingly after, as a child cries in the dark, came the declaration: "O, sometimes it causes me to tremble!"

But "Roll, Jordan, Roll" was of different weave and more familiar in its ploy 25 or 70 men. Negro Singers Enchant Contheme-the favorite of jubilee singers since jubilee songs were sung. "I looked over Jordan, an' what did I see, comin' for to carry me home?" slogan of New York women's society jubilantly queried the singers. "A band of angels comin' after me! Comin' for to carry me home!"

It is greatly to be doubted that ever

before has a service at the First Con-gregational been signalized by outright hand-clapping. And that is what hap-pened last night. As each song passed Quartet From Fisk University Stirs in sweetness there were scattered evidences of such a disposition, but when Dr. Dyott, as a midway announcement, told the congregation that he was cer-tain they preferred to hear more of the songs, even though he shortened his remarks, the applause was instant and unrestrained.

"I thank you," said Dr. Dyott, some-that dublously, and retired.

At the conclusion of the song service, Dr. Dyott spoke on the origin and soreness is soothed.
