6 IN CHICAGO DIE FROM INTENSE HEAT

East and Middle West Swelter, Death List on Atlantic Slope Being Large.

WHEAT BELT HAS RELIEF

Drawbridges Expand Until They Can't Be Opened-Bridegroom of Day Numbered Among Victims of Torridity.

CHICAGO, July 30. - Hot weather the genuine goods, supported by the forces of General Humidity, made a fierce and general onslaught upon the country today, making new records for the season over all the Middle West and in the East.

Meanwhile the Northwest, which has been baking and smothering under unusual heat, experienced sudden relief over a wide area. This means that the present heat wave in the East, Central West, Central and Eastern states will be short lived, as breezes from the Northwest will probably bring rain and lower temperatures. Six Deaths in Chicago.

In Chicago the temperature soured to 99 and there were six deaths and numerous prostrations. Among the victims was John Lukaszyk, who was married yesterday and expired early this morning. A woman aged 61, a man aged 60, a baby and a restaurant waitress were among the victims. Arthur Roney, aged 12, dived from a pier into shallow water and broke his

Dispatches from New York, Boston, Philadelphia, Cleveland, Detroit and other points east of Chicago say all records for the season were broken today. New York reports five deaths and more than a score of serious prosteritors.

Many More Deaths Expected. It is feared the death list will be heavily augmented when the returns are in from the congested districts where prosertations were very nu-merous. Several New Jersey cities remerous. Several New Jersey cities fe-port one to four deaths. Maximum temperature in New York was 94 and the humidity was 51. Boston reported a maximum of 98, the hottest in five years, but an evening breeze took the curse off the hot wave to some extent. Cleveland showed 105 at the street level and 94 ten stories up where the lake breezes had fair play.

Chicago Was Expectant. Chicago had ample warning Satur-day and Sunday of what was coming and was fairly well fortified against today's terrific heat. For this reason today's terrific heat. For this reason the death list is much smaller than usual with the first fierce burst of Summer heat. A stiff breeze also blew all day and, while it was hot, it kept down the humidity and afforded considerable relief. The three days' steady heat has caused the steel on many of the bascule bridges spanning the Chicago River to expand to such an extent that it was necessary today to direct streams of cold water upon them before the spans could be opened. At the Lake-street bridge it was found At the Lake-street bridge it was found necessary to saw off six inches of the steel on one of the beams before the pressure was relieved.

Northwest Has Cool Wave. The most remarkable feature of the eat wave is shown in the Northwest, thich has been scorching for weeks Wheat and other crops and pastures have been withered and streams and wells went dry, so that the problem of feeding and watering livestock became serious. Herds were transferred many miles to wooded districts where there was a semblance of pasturage.

was a semblance of pasturage,
Moorhead, Minn., which on Friday
reported maximum temperature of 110,
showed 56 today, following light rains.
Havre, Mont., which had been up to 100,
dropped to 42 today. Corona, Colo., had 42, its normal temperature, and residents were wearing overcoats. North and South Dakota points, which Friday and Saturday were baking under 199 ed by draft to shoulder rifle for the and 192, report 48 tonight. Minneapolis, Nation, the foregoing list has been which had the unusual figure of 100 Friday, is now back to 79, which is liminary "war cast" and will be inabout its normal.

Cyclonic Storm Breaks Stege. The long heat slege in the Northwest was broken by a storm of cyclonic othy Phillips, is a director as well as proportions, which tore down buildings featured player. Ray is the former much lightning, which did considerable and scheduled for Paramount pictures; walkdee Reld is the handsome Lasky damage. Despite this destruction, however, the Northwest balled the

sons went into the lake Sunday, ac cording to the official count at the mu-nicipal beaches, and the number seeking relief in the lake today was not far short of that figure.

MANY \$2.50 COINS ARE HELD

Rich Victoria Young Chinese Depos its \$700 Worth at Scattle Hotel.

SEATTLE, Vash., July 30.—(Special.)—Chan Sing, a Chinese 20 years old, of Victoria, B. C., deposited with the cierk of the Hotel Scattle today for safe keeping \$750 in United States gold coins, each of the denomination of \$2.50. Chan, with his two sisters, respectively 12 and 18 years old are respectively 13 and 18 years old, are heirs to an estate worth \$490,000, left them by their parents. All three were born in Victoria, where their father born in victoria, where their father accumulated a fortune in business.
"I just have a fancy for collecting \$2.50 gold coins," explained the young man, "and I put them into the hotel safe until I could arrange for safety-deposit box at a cank. I am interested in a silk mill in China and an part and a part in a business block in Canton owner in a business block in Canton.

I plan to go there this Summer, as I have for the last the years."

Chan would like to assist in recruiting a Chine:e regiment for service under Pershing, he says.

PORTLAND LAWYER DEAD

Elmer E. Mallory Dies Following Illness of Several Months.

Elmer E. Mallory, an attorney, son of the late Rufus Mallory and Mrs Lucy A. Mallory, died last night at his residence, 1174 Hawthorne avenue. following an illness of several months.

Mr. Mallory was about 54 years old
and had been a resident of Portland
for 30 years. He was born at Salem.

Or. Besides his widow and mother he is survived by two children, aged

creased to many times its initial size.
Of these men two are directors, Marshall Nellan and Ralph Ince, while trees, flattened and battered the Triangle star now with Thomas H. Ince much lightning, which did considerable damage. Despite this destruction, however, the Northwest halled the storm as a lifesaver, for a few days more of drouth would have meant utter ruin for crops and the death of large numbers of cattle and sheep.

Chicago's bathing beaches were thronged from daylight until far into the night. Three hundred thousand persons went into the lake Sunday, according to the state of the state of the state of the handsome Lasky star who has appeared so often with Geraldine Farrar; Irving Cummings has supported various stars, more recently Virginia Pearson; Mr. Davidson has played leads with Ethel Barrymore in several Metro pictures of late; Mr. Calvert is an Essanay star and Mr. Bennett is with Edison.

Many Stars at Convention.

How would you like to have been present at the Chicago convention of the Motion Picture Exhibitors' League of America? Here's a list of the film who were present during the

big affair: Alice Brady, Violet Mersereau, Norma Allce Brady, Violet Mersereau, Norma Talmadge, Bryant Washburn, Francis X. Bushman, Beverly Bayne, Fanny Ward, Anita King, Hazel Daly, Mae Marsh, "Dimples" Walker, Eddle Lyons, Lee Moran, Sheldon Lewis, Doris Ken-yon, Fearl White, Mary McAlister, Alice McChesney, Mae Murray, Rosemary Theby, Robert Leonard, Nell Craig, Margaret Clayton, Josephine, Huddle-Margaret Clayton, Josephine Huddle-ston, June Elvidge, Carlyle Lackwell, Madge Evans, Edith Storey, Viola Dana Madge Evans, Edith Storey, Vio and Mr. and Mrs. Sidney Drew.

Organist Wallace Drafted.

Oliver G. Wallace, noted organist, who is presiding over the Liberty Theater Wurlitzer organ and its melodies. nterposes a query as to the ethics of ransporting a huge musical instrument o the war zone. Mr. Wallace registered for the selective draft at Seattle and his number is 420 in the drawing. So he is fearful that despite the presence of Friend Wife he may be asked to leave the ivory keys and shoulder

"Charlie Chaplin could take his feet cane and hat with him into the trenches, but I'm afraid they wouldn't stand for an organ," laments Mr. Wallace. "If they'd let me take a Wur-litzer along they could have my wages for the Red Cross."

Torpedoplane in Pictures. Admiral Bradley Fiske, United States Navy, and Allan R. Hawley, president of the Aero Club of America, were guests of honor at a special demonstration of a motion picture at the Para-mount Pictures Corporation projection mount Pictures Corporation projection room recently, where animated drawings, showing the theory and operation of the torpedoplane were shown on the screen for the first time. The torpedoplane is the invention of Admiral Fiske, and the United States Government is seriously considering the adoption of this remarkable combination of weapons for use in the present war.

It consists of an aeroplane which, in-

stead of mounting a machine gun, carries a torpedo equal in dealliness to those which are carried by battleships and submarines. It will in fact destroy any battleship affoat. This torpedo is carried under the body of the aeroplane and in a position which permits the pilot to aim the torpedo by the simple process of steering his own plane. When he has brought the torpedo to bear upon his target, the simple of the simple process of steering his own plane. pedo to bear upon his target, the sim-ple pulling of a single lever releases the torpedo and at the same time starts its propeller in motion.

Screen Gossip.

The same man who invented the method of catching birds by throwing fresh salt on their tails told Douglas Fairbanks the spotlight of an auto-mobile would attract coyotes, and a night trip across deserts with a trusty rifle would be great sport. Doug, spent the entire night without a single

Dusty Farnum and Winifred King-ston were executed as American spies by Germans one morning last week,

The livery stable where Bill Hart keeps Frits during his vacation days, guarded the Westerner's saddle by having a vault built at their barn, where it could be securely locked up all the time the actor was not using it.

Madge Evans, the child star of World-Pictures Brady-Made, has just finished a post-graduate course in horseback riding at Durland's. This educational training was begun to fit the little actress for the circus episodes of "The Little Duchess," soon to be published, and was continued until she became a thoroughly expert horse woman-that is to say, child.

Metro's "The Slacker," starring Emily Stevens, is said to be the best pho-toplay in which this famous niece of the more famous Mrs. Fiske has ever appeared.

"Rebecca of Sunnybrook Farm," the next Mary Pickford production, has been completed.

Fox is hiring special streetcars to convey his kiddies about for the film-ing of "Aladdin and His Wonderful Lamp" down Los Angeles way.

Charlie Chaplin has an aristocratic earning capacity—something like a million a year—yet he has been on the hospital list for a couple of weeks with a plebelan allment—carbuncles.

Among the supporting players in the Norma Talmadge picture, "The Moth," are Eugene O'Brien, Donald Hall, Maud Allen and Virginia Dare. Hassard Short, young English writer of short stories and composer of music, who played with Laurette Taylor in "Peg O' My Heart," makes his debut in the Maud Allen understudied Marjorie Rambeau in "Cheating Cheat-

A news note from Los Angeles in-forms the public that Crane Wilbur was thrown out of a barber shop (just for scenes in a picture), but passers-by thought the ejection was brought on by Crane's refusal to let 'em cut his hair.

In the new Fairbanks picture, "Down to Earth," "Doug's" stunts are said to range from doing a handstand on a mountain precipice, 8000 feet above the sea level, to teaching a hippopotamus the famous Fairbanks amile.

bert has appeared since joining the Culver City forces two years ago. In each of the 10 plays the young juvenile, a former Portland boy, has shown a constantly developing sense of dramatic effects.
Robert Harron, Bessie Barriscale, Louise Glaum and "Fatty" Arbuckle once were listed among Mutual players.

Fox's "Jack and the Beanstalk," a ten-reel feature, is said to have cost \$500,000 in the making.

Julian Eltinge, who began active work before the camera at the Lasky studio on his first Paramount picture, is somewhat alarmed over his new sleeping schedule. The feminine impersonator found himself arriving at the Lasky studio at 7:30, just three hours after his regular retiring time. Despite his best efforts to ward off this disgraceful proceeding, he finds himself so tired at night that he is perfectly willing to go to bed at 9 o'clock.

himself so tired at night that he is perfectly willing to go to bed at 9 o'clock.

When Carlyle Blackwell, the World Pictures star, first "turned out for himself," he earned his living slaying a mandolin and singing ballads, mainly reminiscent of mother. At the Cellege Inn, Chicago, he sang 45 times every night for the munificent compensation of \$8, until his voice gave out, where-upon he formed a team with another young fellow and cut up the hard work. At present—but, as Mr. Kipling says, that is another story.

It was Margaret Loomis who helped the Hayakawas—Tsuru Aoki and Sessue—choose their new Hollywood home, which is situated at the mouth of Laurel Canyon. Miss Loomis, who was a Ruth St. Denis dancer for two years, has undertaken, between Lasky pic-tures, to instruct Miss Aoki in the art of St. Denis dancing. So it was as much for the wide, secluded lawn in connec-tion with the house as the beauty of the house itself that influenced Miss Aoki and Miss Learnis in the choice of Aoki and Miss Loomis in the choice of the new Hayakawa bungalow.

TRAINING THE CHILD

ITTLE boys get their first spankings, Ed Howe says, at 16 months, little girls at 12.

The event is as surprising to the nother as to the child. That she should ever lay violent hands on her cherub was hitherto unthinkable. The gusto with which she performs the rite is shocking to herself.

The occurrence is momentous, because it indicates the frank recognition that the baby must have been trailing something else than clouds of glory when he came. He is slightly imperfect. More than this, he is annoying. Suddenly the mother catches a glimpse of new and lifelons responsi-bilities in regard to him that are more than physical. Hereafter she must be more than a nurse, she must learn to be a mother. The thought is disturbing. Baby Gets Mentally Awake.

Each infant begins life in a state of hibernation. He spends his first three nonths in Buddha-like self-contemplation. The rest of the first year is em-ployed in a ceaseless endeavor to annex the adjacent world, an endeavor cir-cumscribed by the fact that locomotion is crablike and subject to early ex-

But when the second year dawns the young child appears in his full character and destiny. He is an explorer. He climbs, creeps, walks, runs incessantly. He wriggles through incredibly small exits and appears, crowing, in most unexpected and dangerous places. Getting Into the Game.

Wherever he is, he is a disturber. Once he slept 22 hours a day, now he is unconscious but 12. These lulls he begrudges, lest some fun should be going on in the world that he shall miss. He interferes with the housekeeping, breaks up the home evening and wakes up from his nap just when mother has something else in particular to do. He is Johnny-on-the-Spot most of the

lis over for him forever. For the first time he has moods, caused, we infer, from "getting teeth." His anger is sudden, explosive and apparently en-joyable. He begins to have what is known as "a will of his own"; he does not always see eye to eye with his

The First Rift in the Lute. Now comes a certain shock in the social relations. The infant feels it. Hitherto he has seen his mother mostly on her knees before him. To be placed suddenly and violently across her knees is, at least, astonishing. The change requires rapid intellectual adjustments. But it is really harder for the mother. and that afternoon attended a banquet given by the Kaiser, or something like that, all of which makes this film life her child now does not need her all the time, because he is finding that his world contains so much more than her-self. Yet she sees that when he does need her it is in so much harder and

higher ways than ever before.

About this time she decides to give up her plano practice and buys her first book on child study. Stop! Look! Listen!

It is a mementous juncture. You cannot go on as before. If you do you imply board a baby. You do not bring him up. Two lessons the young parent has to

Over every way by which the mother approaches the child she must now hang the sign, "Stop! Look! Listen!" so she will not collide with him. For to listen is the chief part of parent-

Learing thus to understand her child. the other thing is to nourish him. The child's unconscious daily prayer is that beautiful one in the Old Testament: "Feed me with food convenient for me." About all that is needed to make a child good is to give him good place so full that regular patrons were conditions. The most frequency consecutions. conditions. The most frequent cause of unable "naughtiness" is lack of suitable play all day. material. The irritable child is usually so because he has been needlessly of the open-saloon days a headquarthwarted. say, it is short and sweet like the old say, it is short and sweet like the old woman's dance. Have you never realized that the only trouble we ever fear is immediate trouble? The fear of hell, of leaving one's wife without in the held Friday.

Walnut (surance, of meeting a six months' note, these disturb few people, because they are so remote. What may happen to your son before 11 o'clock soon passes out of his mind. Perhaps that he out of his mind. Perhaps that he "should die before he wakes," mentioned in the old beside prayer, seems tioned in the old beside prayer, seems to him nearer and more real.

It is experience from which he will gladly learn at length, not from unsupported warnings.

Saturday at Dundee, Or. The subject or discussion will be "Cultivation and Fillers." An invitation has been extended to all those interested in walnut culture to attend the meeting.

Los Angeles Lawyer Taken to Douglas by Auto and Put Aboard El Paso Express.

GOVERNOR'S AID SOUGHT

Committee Takes Drastic Steps When Counsel, After Appearing Before Body, Fails to Satisfy as to His Mission.

BISBEE, Ariz., July 30 .- Fred H.

BISBEE, Ariz, July 30.—Fred H. Moore, a Los Angeles attorney, was deported from the Warren district late today by Deputy Sheriffs.

Moore admitted that he was attorney for the I. W. W.

Moore arrived in Bisbee this morning from Phoenix and was said to carry letters from Governor Campbell to Mayor Erickson and Sheriff Wheeler, neither of which he presented.

Moore was allowed to remain in Bisbee throughout the day, He called on several local people, among them being the city police judge. He asked for the reasons for the deportations and made general inquiries.

This afternoon he was asked to come

This afternoon he was asked to come before the investigating committee of the loyalty league. When he appeared he stated that he had come here as attorney for three Slavonians, who owned a restaurant in Lowell and who were deported July 12. These three men, however, have returned to Bisbee and were allowed to remain. Upon being questioned, Moore admitted he was an attorney for the I. W. W., but would not state his exact mission in the Warren district. At the end of the con-ference he was told that he would oblige the committee by returning at

Moore failed to return at 4 o'clock and within a few minutes he was found by deputies. He was invited into a waiting automobile, his effects, which were at a hotel, were loaded into the car with him and, accompanied by sev-eral local men, he was driven to Doug-las. At Douglas Moore was put on board the night train for El Paso and was accompanied as far as Rodeo, N. M., by a deputy.

DOMESTIC SCIENCE BY LILIAN TINGLE.

PORTLAND, July 28.—Please give a recipe or drying cherries. Would also like to know how to serve eggplant some other way besides frying. Thanking you in advance.

MRS. D. F. H.

CHERRIES may be dried either with or without their stones. If they are stoned they are more useful (in baking, for instance) and pack in a smaller space, but there is always some

ioss of juice.

Wash, dry and be sure to pit them, if large. If small, pit them or not, as may best suit your convenience.

Spread on drying trays and dry in the un or in a drier from two to four ours. If a drier is used raise the temperature gradually and do not let it exceed 150 degrees Fahrenheit. When leathery the cherries should be up from his nap just when mother has removed from the drier and kept for something else in particular to do. He is Johnny-on-the-Spot most of the material from one box to another daily time. Not only does he disturb, but he is mixing, before finally packing them.

This is called "conditioning" the product. All dried fruits and vegetables should be treated in this way before packing. If the product is too moist a little more time in the drier can easily be given to prevent molding and

aweating. Store in tin cans if possible, as the product needs to be protected from moisture and from insects. Directions for drying cherries with sugar (to make something resembling the commercial candied cherries) were

ou saw them. You saw them.

You might try the following as a charge from fried egg plant.

Scalloped egg plant—Pare and slice the egg plant and soak in brine under weight for half an hour. Wipe dry and place in a buttered baking dish with alternate layers of tomato sauce or sliced tomatoes and crumbs and grated cheese. Cover the top with a mixture of cheese and crumbs, Bake about 35 minutes or until tender and lightly browned on top. Serve in the baking dish as a "main dish" for luncheon or supper. A little finely chopped parsley, or onion, or green pepper (all or any of these) may be added with the tomato for variety.
