

CANDY EATERS MAY FEEL WAR'S EFFECT

Sweetmeat Makers in Portland to Discuss Means of Getting Needed Supplies.

COCOANUT IS MAIN WORRY

Manufacturers Will Provide Advertising Fund to Exploit Food Values of Products and Combat False Conceptions.

The sweet tooth, which so far has seemed immune from the food shortage, is ready to feel the stringency. Manufacturers of candy in the West in their annual meeting at the Hotel Portland yesterday spent considerable time discussing ways and means of getting badly needed supplies from other portions of the world.

Cocoa nut, for example, is just now highly prized, according to Secretary Otis, of Seattle. The product is to be had in great quantities in the lands where it is grown, but the shippers and importers cannot get transportation. It is one of the staples of the business. Sweetmeat makers also discussed ways and means of helping Food Administrator Hoover and the Council of National Defense conserve the food supply.

Yesterday afternoon they discussed the problems of cartage. Their investigations disclose the fact that the cost of cartage from maker to dealer and from dealer to consumer is as much as the total freight rates for the whole country's transportation of their products. They believe that this can be cut down.

They also will attempt to educate the people regarding candy and bring to their attention the fact that it is a food of highly nutritive qualities and has as its ingredients only those things which are regarded as the best forms of food under any other name.

An advertising campaign which will deal with this phase of their interests and to counteract wrong ideas when they appear regarding the effects of candy on teeth. They point out that candy has nothing to do with the condition of the teeth, but that soft foods merely give trouble in cases where teeth have not been properly taken care of.

The Association of Western Confectionery Manufacturers also heard that the general standard of the West is much better than the East and that the West eats much better candy, made under cleaner, healthier conditions than the East.

CITY EMPLOYEES ASK RISE

Council Defers Action Until Personal Service Rolls Are Complete.

Applications for increases in salary were filed by several city employees and were pending before the Council yesterday, but all were laid on the table pending the preparation of a complete list of the municipal personal service rolls. It is Mayor Baker's plan then to call a special session of the Council to consider a general revision of the standards of salary in conformity with present conditions.

The largest demands have been made by the bureaus of police and fire, where a 25 per cent increase is sought. Formal presentation of the firemen's application probably will be made this morning.

Last week he sang at Camp Withycombe to the delight of the several hundred soldiers who heard him. Don't Poison Baby.

FORTY YEARS AGO almost every mother thought her child must have PAREGORIC or laudanum to make it sleep. These drugs will produce sleep, and A FEW DROPS TOO MANY will produce the SLEEP FROM WHICH THERE IS NO WAKING. Many are the children who have been killed or whose health has been ruined for life by paregoric, laudanum and morphine, each of which is a narcotic product of opium. Druggists are prohibited from selling either of the narcotics named to children at all, or to anybody without labelling them "poison." The definition of "narcotic" is: "A medicine which relieves pain and produces sleep, but which in poisonous doses produces stupor, coma, convulsions and death." The taste and smell of medicines containing opium are disguised, and sold under the names of "Drops," "Cordials," "Soothing Syrups," etc. You should not permit any medicine to be given to your children without you or your physician know of what it is composed. CASTORIA DOES NOT CONTAIN NARCOTICS, if it bears the signature of Chas. H. Fletcher.

PATRIOTISM RUNS HIGH

Girls Bring Candy to Soldiers Passing Through on Trains.

Patriotism ran high through the country being visited by Company E, Eighteenth Railway Engineers, according to a letter County Treasurer Lewis received from his son, Wade W. Lewis, a member of Company E, now "on train" somewhere between North and South Poles.

"One sees many new and interesting sights," he writes. "The only thing which is the same in each locality is the patriotism displayed by all citizens, although in the manner in which it is done is sometimes curious."

"Everywhere we stop we receive a hearty reception from the people. Magazines and newspapers are given to us frequently. Everywhere the girls are free-hearted and, because we cannot leave the cars, they bring us candies and shake hands with us before we leave."
