# **EX-CZAR BANISHED** INTO SECRET EXILE

Deposed Emperor and Family Spirited Away to Siberia, According to Report.

## NICHOLAS BOWED BY GRIEF

Former Empress Alexandra Seems Lively and Pleased at Prospect of Change From Imprisonment in Palace.

PETROGRAD, Aug. 15.—Nichelas Ro-manoff, the deposed Russian Emperor, and the members of his family were spirited away under circumstances of extreme mystery early yesterday from Taarskoe-Selo to an unknown destination, which the provisional government firmly refuses to reveal.

The semi-official Russian news agency announced that it was reported the ex-Emperor and his family were being transported to Tobolsk, Siberia. Tobolsk is an out-of-the-way town of Western Siberia, far from the railroad and visited only by steamers which d visited only by steamers which the Irtysh River. In former times was an administrative center for exiles banished to Serbia by the Rus-sian rulers. It is a city of something more than 26,000 inhabitants. The cli-mate is extremely severe in Winter. No one except the local military and officials especially sent from Petrograd witnessed the ex-Emperor's departure,

parture was imaginary.

It appears that the plan was to remove Nicholas before dawn, but the train arrived at Tsarskoe-Selo several hours late. Instead of the gorgeous Imperial train in which Nicholas was taken to Tsarskoe-Selo from Mohilev in March, an ordinary train, composed of three sleeping cars, a dining car and several third-class coaches, was sent. A second train was assigned to take the baggage and servants, 50 of whom accompanied the ex-Emperor and his

family into extle. Nicholas was very depressed in appearance, but ex-Empress Alexandra, who was seen walking for the first time in months, seemed lively and pleased at the prospect of a change of surroundings.

Removal Decided in July. Vice-Premier Nekrasoff said that the removal of Nicholas was decided on after a series of secret sessions of the Council of Ministers late last month. The motives of the Ministers, he said, are political and military. It was decided to get Nicholas out of the way before circumstances arose making it. # Departure Is Secret.

In order to keep the departure seeret as long as possible, the train was kept on a side track to which Nicholas

and his party went.

The public was unaware of the transfer until late last night, Many rumors are current in regard to the motives for the removal of the imperial family and as to its destination. The semi-official news are over any the desagned. official news agency says the demands for Nicholas' transfer were due to fears of the authorities that attempts would be made to liberate him in connection With a counter revolutionary movement.

A prevalent theory is that the finding of a letter in which General Gurko.

Nekrasoff said, however, that all stories of the removal being connected with the Gruko affair or with attempts liberate Nicholas-were untrue, the transfer having been decided upon last

This morning, when they came before Major Issae Newell, mustering officer, and Lieutenant Joseph Moss, medical examiner, the whole proceeding was a lark on the surface. Once freed from the eyes of the examiners the anxious inquiry was: "Did ya make it, Slim?"

Most of them will make it. Lieutenant Moss paused long enough between physical examinations to remark: "I haven't come across one man who is under weight. They show up splendid, a fine body of men."
