An ordinance exempting hotel proprietors and persons operating automobiles solely for business purposes, supported by Mayor Baker, was laid over for a week because of the opposition of Commissioners Mann and Bigelow.

An ordinance creating an additional deputy in the office of the City Attorney was passed and the salary was fixed at \$125 a month.

This was ratified by Mayor Baker, who explained that he will transfer back to police duty if Gould, considering out of the legal bureau, and J. W. Inskip, who has been probation officer for the Municipal Court, and have the new deputy do that and additional work.

A saving in salaries would thus be made. Commissioner Barbur notified the Council that in future he will object to four-fifths matter, or so-called emergency subjects, being brought into the meetings except in actual cases of necessity.

He said the Council calendar should contain all items up for consideration and that he would not know in advance what is to be discussed.

The Council voted unanimously to prohibit the sale or use of sparklers for Fourth of July purposes or otherwise. The Council appropriated \$500 for a tourist camp ground on the Forestry building site.

50 TO BE CERTIFIED

District Exemption Board to Take Action Today.

9 OF 19 FAIL PHYSICALLY

Of Ten Remaining, Only Two Claim Exemption, Although Others Are Expected to File Objection.

Board Moves Quarters.

Approximately 50 young men of Oregon will be certified for the National Army this morning at a session of the district exemption board.

All young men whose exemption claims have been denied by the district, as well as those who did not claim exemption, will be certified and the certification will then be forwarded to Adjutant-General White.

Chairman Clark, of the district board, returned Tuesday night from Albany and presided over the district board yesterday for the first time.

Only two cases were considered by the board yesterday and in both of these exemptions were granted. Gilbert Hanson will be exempt from war duty because of his occupation as a farmer.

He is a resident of Clackamas County. Edward C. Bowen, whose claim of a dependent wife was denied by a local board in Clackamas County, won out in the district board when he showed that his wife is physically unable to work and is entirely dependent upon him for support.

The board expects to take up many more cases of exemptions the latter part of the week. Because of the many records used, it was busy yesterday moving into larger and more comfortable quarters on the third floor of the Courthouse.

Out of 19 registrants examined by a local exemption board yesterday nine were turned back as physically unfit. Ten were held as possible soldiers, only two of whom have yet filed claims for exemption.

SALARY STUDY IS BEGUN

CITY COMMISSIONERS TO MAKE RECOMMENDATIONS.

Increases for Employees Will Depend on Whether Funds Are Available in Treasury.

Action by the City Council with regard to increases in the salaries of practically every municipal employe will depend upon the condition in which the city treasury is found when a report is filed for consideration by the Treasurer and Chief Deputy Mayor Griggs.

There are indications that it may be impossible to do much in the way of raises until the next fiscal year on account of funds being short.

Another bunch of petitions for increases reached the Council yesterday. Mayor Baker was instructed by the Council to refer all petitions to the respective Commissioners of departments for their recommendation.

Mayor Baker suggested a special session to be held next week for consideration of salaries, but Commissioner Barbur suggested that each Commissioner take the petitions to the respective employes, go over them and determine upon his recommendations and then report back. This was agreed to.

Mr. Barbur suggested that it might be found possible for the Council to grant the increases sought at this time, but that it could go on record as being willing to do the right thing when the funds are available.

Make It Your "War Bread"

You may not go to the trenches, but you will want to heed the President's request for conservation of food supplies. You will want to do your bit in preventing waste of the great food staples.

You can do this by demanding a larger per cent. of whole wheat grain in bread and breakfast foods. The real "war bread" must contain the entire wheat grain—not the white flour center—but every particle of gluten and mineral salts that are so necessary to the well-balanced ration; also the outer bran coat that is so useful in keeping the bowels healthy and active.

Shredded Wheat Biscuit

is 100 per cent. whole wheat. It is therefore the real "war bread." The whole wheat grain is the most perfect food given to man. It contains every element the human body needs to build healthy tissue and furnish energy for the day's work.

Two or three of these crisp, brown loaves of Shredded Wheat with milk and sliced bananas, berries, or other fruits, make a nourishing, strengthening, satisfying meal at a cost of a few cents.
