# SHIPYARDS STRIKE

Union Officials and Employers.

#### DAY NOT ISSUE

G. Y. Harry, Portland Man and Representative of Secretary of Labor, May Establish Office Here as Western Conciliator.

Federal conciliation probably will avert a strike in Portland's steel ship-yards.

After two days of counciling with members of the Metal Trades Council on one side and owners of the ship-building plants on the other, G. Y. Harry, representative of Secretary Wilson, of the Department of Labor, implied last/night that he is satisfied with the progress thus far made. He will continue his conferences for the next few days in the hope of getting

the two sides together.

The men are insisting on adoption of a new wage scale that will place the Portland plants on a parity with the Seattle plants. They also are ask-

ing for the closed shop.

It is understood that the employers are willing to make certain wage concessions, although not quite willing to stolen one load of wascept the Seattle scale in all partiturning for another.

Harry would be sent here to inquire into the situation caused them to post-

pone action.

After repeated conferences with Mr. Harry Tuesday and yesterday the excentive council of the Metal Trades Council met yesterday afternoon and considered the situation. They met again last night. The upshot of their meetings was to remain firm in their demands for the Seattle scale. pone action.

at the time of its adoption early in the present year.

The pending negotiations are in-

tended, by the union officials, to cover every steel shippard in Portland, al-though all yards do not now recognize the union in dealing with their men. All, however, pay the full standard

scale, or better. Leaders on both sides of the con troversy were confident last night that a strike will be averted. If the ex-treme emergency of a final disagree-ment develops it is believed that the Government will step in and force the plants to operate.

The local yards now are running on Government business, building ships intended for use by the Government or her allies to carry on the war, and any cessation of activities would interfere

with the war programme. Further meetings will be held today Mr. Harry, whose home is in Portland, will remain here indefinitely, maintaining headquarters with the Federal Bureau of immigration in the Federal Bureau of immigration in the fighting.

#### HOCKEY LEAGUE PROPOSED

Coast Association.

SAN FRANCISCO, Aug. 22.—(Special.)—The Winter Garden, which opens its Winter ice season on Thursday, August 30, is working on plans for the formation of a Coast hockey league. The cities proposed to be represented are San Francisco, Los Angeles, Spokane, Portland and Seattle. A regular schedule will be mapped out. It will be known as the West-ern Ice Hockey League. In addition, the chances are that a local league will also be in operation again. Interest is when he was struck by an automobile being worked up among the teams to driven by H. D. "Moore had stolen one load of wheat ready to run on the closed shop basis. Some plants, however, now are, to all practical effect, closed shops.

The hour question is not involved in the present negotiations, as all yards are operating on an eight-hour basis.

The main object of the Government in detailing him to the work here is to keep the shipyards in operation so that the important work necessary to a successful conduct of the war will not be stopped.

Mr. Harry has been engaged in his present duties as Federal conciliator for the last three or four months. Most of his work, however, has been in the Middle West. It is understood that Secretary Wilson proposes to detail him for work on the Pacific Coast and to establish Portland as the headquarters for the department.

Officers belonging to various branches of the American service left for Verdum last week to study the preparations for the attack. The artillery officers saw the preparations made with the big guns, while others studied the details of the co-operation of the infantry with the artillery. General Petain took General Pershing with him when he went to congratulate one division which had especially distinguished itself, the American commander adding his words of praise.

Pacific Coast Shipping Notes.

SAN FRANCISCO, Aug. 22.—(Special.)—
A big lighterage company falled today to have an order for barges for quick delivery accepted by any of the shipbuilding plants around the bay. Ocean-going barges are at a premium on account of the large volume of business being handled from this port by this method. It is expected, however, opportunity may be found soon to turn out a barge occasionally to relieve the situation. The Federal Government is not taking oil tankers quite as fast as was expected in shipping circles, as was shown today by the announcement of the Standard Oil Company that the Royal Arrow would sail for the Orient in about two weeks with 3,000,000 gallons of refined oil.

The tanker La Primera sailed today for La Union and Corinto with 20,000 cases of oil, and the large tanker left for Hankow with a capacity cargo of oil.

Mrs. Wilson, wife of the President of the United States, today selected names for two of the former German ships that were seized by the Government at the outbreak of the war. In keeping with her policy of choosing names of historical places, the President's wife gave the name of Montpeller to the steamship Bochum.

The Japanese steamships Ujina Maru and Tenshyo Maru arrived in port together from Oriental ports today and came into the harbor with one pilot.

The Seattle-built steamship Key West, with her prow badiy twisted from striking a rock off the Aleutian Islands en route to this port from the Orient via Vancouver, B.
