Sweden Dismisses Secretary of Foreign Office During Time Notes Were Sent-Office Will Be Reformed.

AMSTERDAM, Sept. 14.—Dr. von Kuehlmann, the German Foreign Minister, has requested the Argentine Logation at Berlin to communicate telegraphically a request to Count Luxburg, the German Minister in Argentina, to come to Berlin in order personally to report, according to advices received here from Berlin.

received here from Berlin.

The Argentine government also has been asked to secure a safe passage for Count Luxburg.

STOCKHOLM, Sept. 13 .- (Delayed.)-The French Minister to Sweden called today at the Foreign Office to request an explanation of the cable dispatches sent by the German Minister to Ar-

gentina through the Swedish Legation.
The Swedish government has decided to take steps to reform conditions in the Foreign Office. This follows a series of Cabinet meetings, conferences of officials with the King and conversations with Ira Nelson Morris, the American Minister, and the entente Ministers.

Request at Berlin Reported. No official statement of the nature of the steps Sweden has taken at Berlin is made, but the newspapers inti-mate that a request for an explana-tion has been made to Germany.

LONDON, Sept. 14. — An official statement issued by the Swedish government, telegraphs the correspondent at Stockholm of the Central News Agency, says that O. A. H. Ewerloef, scoretary of the Swedish Ministry of Foreign Affairs, has been given leave of absence from the Foreign Office and has placed himself at the dispo-sition of the Minister of Justice with the object of assisting in the special investigation in connection with the Swedish-Argentinian revelations.

M. Ewerloef, a Reuter dispatch from Stockholm says, presumably was sacrificed because he was acting permanent secretary of the Foreign Office during the whole period in which the Luxburg telegrams were forwarded.

FOREIGN MINISTER LINDMAN. Mr. Lindman is the Swedish Foreign Minister around whom centers the events which have brought Sweden to the brink of war. Violating the privileges that go with neutrality is the charge of the allies against Sweden. Using the inviolability of neutral diplomatic mail as a cloak, the Swedish Foreign Office forwarded the correspondence of the German Charge d'Affaires in Argentina to Berlin. It was pouched with the Swedish diplomatic mail from Argentina, and after reaching Sweden was forwarded to Berlin. The discovery of this duplicity also brought to light the fact that while negotiating with Argentina to have the U-boats spare her ships Germany was planning to sink Argentina's ships whenever she could do so without fear of detection.

Labor Situation Disturbed.

What the Shipping Board is trying to avert, the Admiral explained.

What the Shipping Board is trying to avert, the Admiral explained, is a disruption of labor conditions on the Pacific Coast. He said the present labor disputes in the Northwest are largely due to the fact that a Seattle yard having contracts with Japan and another foreign government on exorbitant terms, had gone into the market offering higher wages than other yards building for the United States could afford to pay and had thus drawn labor from those yards at the same times creating general dissatisfaction large word from Gaston B. SALISBURY, N. C., Sept. 14 .- Declaring that important evidence had been uncovered which gives him reason to believe that the death near Concord, N. C., August 29, of Mrs. Maude A. King, wealthy Chicago widow, was neither a suicide nor an accident, State Solicitor Hayden Clement announced late today that he would ask the Coroner of Ca-barrus County to reopen the inquiry into the case September 24. This date was selected, he said, so that he may have time to secure "certain documentary evidence which will be introduced at the inquest."
