

BOYS GOING TO WAR LEAVE LOVING CUP

W. Reidt, "Father of Third Oregon," Gets Friendship Token From "Sons."

SPEECH BRIEF BUT POINTED

Crowds of Relatives and Friends Spend Day at Camp in Order to Be Near Those They Love as Long as Possible.

BY WILL G. MAC RAE. WITH THE THIRD (BEAVER) REGIMENT, OREGON INFANTRY, Sept. 23.—(Special.)—Can you frame this picture William Reidt, father of the Third Oregon, flabbergasted, bewildered and acting like a duck in thunder? The picture is hard to frame, but that is what happened this morning at the Third Oregon Infantry camp...

WILLIAM REIDT.

at this time was only conjecture, but there was, he said, one thing that he could predict without a possible chance of his predictions going wrong: that once the American soldier got on the job he would stay put until it was through, and then would not let down a peg until the job showed it had been mastered and completely done. It was easy to judge by the size of the crowd that all roads headed towards camp. Notwithstanding the fact that the soldiers of the Beaver regiment had a week of farewelling, relatives and friends came to camp early. These relatives and friends had been warned by their "boys" there would be little chance for visiting today, yet they dared the lowering clouds and gray drab day. And how parents did watch and eagerly scan each face and each detail that passed in and out of the camp on the heavily laden combat wagons. It was a study in suppressed anxiety...

Valley Trip Will Be Enjoyed. It was also a day of the lunch package. Everybody who arrived at camp brought along a lunch package filled with the good things that can only be cooked by loving hands. Mrs. John L. Baker, wife of Colonel Baker, and friends brought a tonneau load of lunches. The trip of the Third Oregon through the Willamette Valley promises to be one of great triumph. Company I enjoyed a chicken dinner, the gift of Major E. W. Settlemier, of Woodburn. The citizens of the town will, as the train goes through that town, place aboard several hundred cooked chickens. The officers have been notified by the citizens of the Valley towns that boxes of fresh fruit and other good things will be at the depots waiting for the train. Colonel John M. Poorman, who fought with the Second Oregon in '98, could not see the Third get away without having a bit of camp life. A party of friends and Colonel Poorman spent the afternoon, and to give the visit the proper touch, Colonel Poorman, while the women folks were busy setting out the lunch, built a campfire and, while the coffee was boiling, swapped old camp stories with Colonel May and Colonel Abrams.

1100 HUNGRY SOLDIERS FED

Two California Contingents Enjoy Bounty of Multnomah Hotel. Eleven hundred exceptionally hungry men were fed at the Hotel Multnomah yesterday morning, all being soldiers from various points in Southern California, bound for the mobilization camp at American Lake, Wash. They were especially hungry because it had been impossible for them to stop off at any station along the line, and they had not eaten since early Saturday afternoon. To give the boys a taste of Portland hospitality the Multnomah Hotel management "dished up" an extra good breakfast, not only as to quality, but as to quantity, and let them eat all they could hold. There was plenty of ham and eggs, and also meat, biscuits, potatoes, coffee and all the bread they could eat.

They left this afternoon for the North.

New Foot Remedy Causes Big Stir Among Druggists.

Since the virtues of Ice-Mint as a foot remedy became known in this country druggists have been having an extraordinary demand for this product and it is predicted that foot troubles will soon be a thing of the past. In experimenting with Ice-Mint in the treatment of corns and calluses it was found that just a little applied to a tender aching corn or callus would instantly stop the pain or soreness and that in a short time the corn or callus would shrivel and loosen so that it could easily be lifted out with the fingers—roots and all—leaving the surrounding skin in normal, healthy condition. In minor cases of foot troubles, such as tender, itching, burning swollen feet it was found that just a little rubbed on the feet in the morning would keep them cool, easy and comfortable during the entire day. Ice-Mint is a clean, creamy, snow-white, non-poisonous substance that will not inflame or irritate the most tender skin. The active ingredients of this product are imported from Japan where the people have the healthiest, best-cared-for feet in the world. Ice-Mint imparts such a soothing restful feeling to the feet that it has become very popular with ladies who wear high heel shoes and with men who have obtained from any druggist at small cost and one jar will be sufficient to rid you of every corn or callus and your feet to fine condition. Just try it. You'll like it immensely.—Adv.

WAR-TAX BILL TO GO THROUGH SOON

Senate and House Conferees Consider Measure in Sunday Session.

COMPROMISE IS DRAFTED

Excess Profits Section Disposed Of and Speedy Action on Other Sections of Bill Is Expected.

WASHINGTON, Sept. 23.—A Sunday session of the Senate and House conferees on the war tax bill resulted in the drafting of a compromise proposal on excess profits rates and exemptions which may lead to a report within a few days. The proposal is understood to provide for important concessions by both sides. With the excess profits section disposed of completion of the report will be a comparatively simple matter. Conferees are generally agreed on the other sections of the bill, and final votes will be taken with great rapidity once they start.

Beer and Liquor Rates to Stand.

Save for elimination of the Gora amendment, designed to levy a prohibitive tax on grain to be used for making beverage liquors, the Senate beer and liquor rates probably will stand. This would mean a tax of \$2.75 per barrel on beer and \$3.20 per gallon on whiskey. It became known today that the second-class mail rate agreement provides separate zones for advertising and reading matter at widely different rates, to go into effect from three months to two years after enactment of the bill into law. The rate on advertising matter would range from between 1 and 2 cents a pound in the first zone to about 10 cents in the last. The rate on reading matter would be slightly in excess of the present 1-cent rate a pound in the first zone of 250 miles, and the extreme zone rate would be less than 6 cents. County weeklies, farm and religious and similar publications would be exempt from the advertising rate.

Adjournment in Sight.

Members hope to begin tomorrow their home stretch in a race toward adjournment. Results of the week probably will determine whether the special war session can end, as is the general aim and understanding, between October 5 and 12. Both houses are having difficulty in keeping a quorum for the final clean-up. Money bills are the center of interest. During the last week Congress sent the \$1,538,000,000 bond bill to the President. Tomorrow conferees hope to finally agree on the \$2,500,000,000 war tax bill, and the Senate appropriations committee meets to approve increasing the \$1,000,000,000 war deficiency appropriation measure between \$300,000,000 and \$500,000,000. Prompt enactment of the latter is expected, but disagreement on the tax bill, all leaders agree, would disrupt all adjournment plans.

Tell them to go ahead. You might as well have the use of that building you are planning—there is nothing to be gained by waiting. There is no prospect of prices going down for some time after the war is over. Go ahead and let your contracts. When it comes to the roof you can make a real saving, and get a better roof by specifying Certain-teed Roofing. Certain-teed is not cheaper because the quality is lower, but because it is a less expensive roofing to manufacture. It is better, not only because it is cheaper, but also because it is light weight, weather-tight, clean, sanitary, fire-retardant and costs practically nothing to maintain. It is now recognized as the preferable type of roofing for office buildings, factories, hotels, stores, warehouses, garages, farm buildings etc., where durability is necessary. Certain-teed is guaranteed for 5, 10 or 15 years, according to thickness (1, 2 or 3 ply). There are many roll roofings on the market, but only one CERTAIN-TEED. It pays to get the best. It costs no more to lay a CERTAIN-TEED roof than it does to lay a poor roof, but there is a vast difference in the wear. You can't tell the quality of a roofing by looks or feel. Your only safety is in the label. Be sure that it is CERTAIN-TEED—then you are certain of quality and guaranteed satisfaction. CERTAIN-TEED PRODUCTS CORPORATION. CONTROL OF SELF IS URGED

Impressive Sermon Delivered by Rev. Arthur F. Bishop.

At the Central Presbyterian Church, East Thirteenth and Pine streets, last night, Rev. Arthur F. Bishop delivered an impressive sermon on "The Heroism of Self-Control." The man who conquers himself is greater than the man who conquers his external enemies, was Rev. Mr. Bishop's interpretation of the text. "He that ruleth his spirit is greater than he who rules a city," said Rev. Mr. Bishop. "The standard of courage has often been a physical standard, but there is a spiritual standard. Let us practice self-control and control of thoughts, as well as control of words and action."
