

### A. H. EATON OFFERS TO LEAVE FACULTY

Resignation of Professor to Go to Regents, Following Charges of Disloyalty.

#### HEARING IS REQUESTED

Lane County Representative Desires to Clear Name of Stigma and Cause University as Little Trouble as Possible.

UNIVERSITY OF OREGON, Eugene, Or., Oct. 4.—Allen H. Eaton, the university professor whose attendance at the meeting of the Peoples' Council for Democracy and Peace brought charges of un-Americanism and demands for his removal from the faculty of the University of Oregon, tonight tendered his resignation to President Campbell, but will continue his duties at the university until the board has acted.

In the absence of Judge Robert Bean, president of the board, who is in California, Vice-President A. C. Dixon today called a meeting of the regents for October 26, to give notice of the resignation. Mr. Eaton's letter of resignation, addressed to President Campbell, is as follows:

**Hearing Is Requested.**  
I herewith hand you my resignation as a member of the faculty of the University of Oregon, with the request that it be placed before the board of regents for their consideration as soon as they shall be able to meet in full board session. At that time I respectfully ask the privilege of personally appearing before the board to answer the charges that have been brought against me by the Eugene Commercial Club.

I deeply regret that the board of regents should have been forced upon me this unpleasant and unmerited responsibility. I tried to avoid it for the University must take up the responsibility of this investigation I desire to do what I can to give the board complete freedom from unjust agitation and pressure.

**Charges Held False.**  
As I see it there are only two big considerations in the whole matter. One is the welfare of the University; the other is justice to me. I want it to be considered first, and because it is important to more people. But the clearing of my name is equally important to the University and vital to me. Therefore I shall welcome the opportunity that I know will be granted me to place the whole truth before the regents, believing that truth and freedom will bring justice.

Nothing in this communication must be construed as an admission of any alleged facts that I have already denied; it is an admission only of my confidence in the board of regents, whose anxiety to see the University cannot be greater than mine. I will appreciate an early and prompt answer. Respectfully yours, ALLEN EATON.

### GERMANY IS LAUDED

School Text Book Tells of Bravery and Prowess.

LOVE OF PEACE ASSERTED

Carpenter's Geographical Reader of Europe Declares War is Made Only on Nation's Call and Kaiser Held Not Absolute.

EUGENE, Or., Oct. 4.—(Special.)—The discovery of a text book in the Eugene public schools that makes statements regarding Germany which are directly at variance with the facts which the United States Government is seeking to place before the American people caused a sensation here today.

On page 216 a paragraph appears as follows: "The Germans are a very brave people. They have had many wars in the past and are always ready to fight for their rights. The people are fond of peace and they go to war only when the nation calls them. In this respect the German Emperor has not absolute command over the army or over his people. He can call out his soldiers at any time to defend the country if it should be invaded, but to make an offensive war he must have the support of the people and the consent of the upper house of the German Parliament."

The following page a paragraph appears as follows: "This Congress (the German Imperial Congress) consists of two houses, the Bundesrat, which has 61 members, appointed by the governments of the states for each session, and the Reichstag, which has 397 members elected for terms of five years by all the people of Germany. In both houses there are more Prussian representatives than any other, for Prussia has by far the most people and is the most powerful of all the states."

**Franchise is Shadowy.**  
The untruthfulness of the statements is shown by the address of the speaker as printed in the Oregonian in part as follows: "And in Germany they don't even have the right to vote. They only have a shadow of a franchise. You read every day in the newspapers about the Reichstag, but what the Reichstag does does not make any practical difference. The German Reichstag has no more power than a school debating society. Over the Reichstag is the Second Chamber, corresponding to our United States Senate, and the members of that are appointed by the 25 ruling Princes of Germany and represent them and vote as they are told by those ruling Princes."

"In Prussia the members have this sort of an arrangement: They elect members, it is true, for the lower branch of the Prussian Bundesrat. Over that is the House of Lords, against which the lower chamber can do nothing, but even for the lower chamber they are elected by a system of voting depending on wealth."

Superintendent of Schools W. R. Rutherford stated tonight that Carpenter's Geographical Reader of Europe is used in nearly all of the schools of the state. He said it had been recommended by the State Department of Education.

"I have not read that portion of the book dealing with Germany since the war began," he said. "If there are statements that should come out we will apply the red ink."

### PIONEERS AT LANE FAIR

W. L. BRISTOW, COUNTY'S FIRST WHITE SETTLER, SPEAKS.

Boys and Girls Who Received Dozen Chickens in Spring Return Two, According to Agreement.

EUGENE, Or., Oct. 4.—(Special.)—One hundred and thirty-six pioneers of Oregon, who came here prior to 1885, were registered at a reunion held in connection with the Lane County Fair today. This number did not include all the early settlers in attendance, as those who had attended in former years were not required to register.

W. L. Bristow, grandson of the first white settler in Lane County, was among those who addressed the meeting.

President F. M. Wilkins declared the day the most successful in the history of the Lane County Fair Association.

Lane County boys and girls in connection with the fair have revealed that they keep a verbal contract. The Eugene Chamber of Commerce last Spring distributed 12 chickens each to a large number of school children, with a view to increasing the poultry supply in time of war. The chickens were given on condition that each child should return two chickens to the Chamber at the time of the county fair. Several of the children who delivered two chickens today said that two were all that remained of their flocks, disease or misfortune having taken the others. The chickens returned are to be auctioned at the fair tomorrow and the proceeds given to some patriotic fund.
