Less Than 7 Per Cent of Second Liberty Bond Issue so Far Subscribed.

14 WORKING DAYS REMAIN

Showing Now Indicates Hardest Kind of Work Is Necessary for Remainder of Campaign.

WASHINGTON, Oct. 11 .- Less than 7 per cent of the \$5,000,000,000 which the Government hopes to obtain in subscriptions to the second liberty bond issue has been subscribed at the close of the list tonight.

Treasury officials made public the subscription figures tonight. The total is \$325,465,000. This figure includes every dollar reported to the reserve banks from every section of the United States. One reserve district, however-Minneapolis reported no figures.
"The subscriptions indicate the ne-

cessity for the hardest kind of work on the part of the whole country for the balance of the campaign," reads the Treasury Department's announcement. "The campaign is more than one-third gone. Fourteen working days remain. "Subscriptions by Federal reserve districts were as follows:
"Boston, \$41,800,000; New York, \$228,-

\$27,000; Philadelphia, \$13,583,000; Cleve-land, \$1,895,000; Richmond, \$12,229,000; Atlanta, \$1,703,000; Elchmond, \$12,229,000;
Atlanta, \$1,703,000; Chicago, \$4,816,000;
St. Louis, \$1,729,000; Minneapolis, no
report; Kansas City, \$1,237,000; Dallas,
\$1,899,000; San Francisco, \$16,047,000.
(These figures represent the total of
Bubscriptions actually filed with the
56veral Federal reserve banks and the Treasury Department).

Hard Work Now Necessary.

"While a very large number of incor-porated banks and trust companies throughout the country have not yet reported any subscriptions to the Fed-eral reserve banks," the straement con-tinues, "and while the liberty loan committees have unofficially reported a number of large subscriptions which have not yet been formally filed, the subscriptions thus far received indi-cated the necessity for the hardest kind of work for the balance of the cam paign. "The Secretary of the Treasury has

requested subscriptions to the amount requested subscriptions to the amount of \$5,000,000,000 in order that allotments might be made up to \$4,000,000,000,000,000,000. There are 24 business days during the campaign and the average daily subscriptions should amount to more than \$28,000,000 per day, whereas the average has been only about \$36,-

"It is particularly important to im press upon the people that this wast undertaking must not be left to those of great wealth as no such sum can be of great wealth as no such sum can be subscribed except by earnest co-operation of all the people of the country.

"It is estimated that in the first campaign there were about 5,000,000 subscribers and with the better organization now available and the large amount of educational work which has been done, the country should be able to count at the close of the campaign subscriptions from at least 10,000,000 people.

NEW YORK, Oct. 11.—With approxi-mately two and one-half weeks re-maining before the closing of subreserve district's offering to the sec ond liberty loan stood tonight at \$282,-882,150. The quota of the district has been placed at \$1,500,000,000.

Among the larger subscriptions to-day were those of the Chicago & Northwestern Hallroad Company, \$3,-\$00,000; Chicago, Milwaukee & St. Paul Railroad Company, \$2,500,000; Ameri-can Locomotive Company, \$2,000,000; the National Conduit & Cable Company,
