LIBERTY DAY SET FOR OCTOBER 24
Proclamation by President Calls on Nation.

PEOPLE URGED TO RESPOND
Mr. Wilson Wants Loan to Echo Throughout Germany.

HALF HOLIDAY SET ASIDE
Every City and Hamlet Asked to Hold Meetings for Furtherance of Raising Funds to Mobilize America's Might.

WASHINGTON, Oct. 14.—President Wilson, in behalf of the liberty loan, tonight issued a proclamation setting aside October 24 as Liberty day, and urging the people of the Nation to assemble on that day in their respective communities and "pledge to one another and to the Government that represents them the fullest measure of financial support."

Nation's Might Mobilized.
The President's proclamation follows: "By the president of the United States of America: A proclamation: 'The second Liberty loan gives the people of the United States an opportunity to lend their funds to their Government to sustain their country at war. The might of the United States is being mobilized and organized to strike a mortal blow at autocracy in defense of outraged American rights and of the cause of liberty. Billions of dollars are required to arm, feed and clothe the brave men who are going forth to fight our country's battles and to assist the nations with whom we are making common cause against a common foe. To subscribe to the liberty loan is to perform a service of patriotism. Meetings are encouraged. Now, therefore, I, Woodrow Wilson, President of the United States of America, do appoint Wednesday, the 24th of October, as Liberty day, and urge and advise the people to assemble in their respective communities and pledge to one another and to the Government that represents them the fullest measure of financial support. On the afternoon of that day I request that patriotic meetings be held in every city, town and hamlet throughout the land, under the general direction of the Secretary of the Treasury and the immediate direction of the Liberty loan committees which have been organized by the Federal Reserve banks. The people responded nobly to the call of the first liberty loan with an over subscription of more than 50 per cent. Let the response to the second loan be even greater and let the amount be so large as to insure an assurance of unqualified support to hearten the men who are to face the fire of battle for us. Let the result be so impressive and emphatic that it will echo throughout the empire of our enemy as an index of what America intends to do to bring this war to a victorious conclusion. Federal Half Holiday Named. For the purpose of participating in the Liberty day celebrations all employees of the Federal Government throughout the country whose services can be spared may be excused at 12 o'clock Wednesday, the 24th of October. In witness whereof, I have hereunto set my hand and caused the seal of the United States to be affixed. Done in the District of Columbia this twelfth day of October in the year of our Lord one thousand, nine hundred and seventeen and of the independence of the United States the 123d. (Signed) WOODROW WILSON. By the President, ROBERT LANSING, Secretary of State. Figures Far Below Needs. Official reports of subscriptions up to the close of business last night, sent by 11 of the 12 reserve banks, show but little progress, the total standing at \$295,624,900, or only about 4 per cent of the \$5,000,000,000 hoped for. Following are the figures as announced by the Treasury Department: Boston \$500,000; New York \$250,000,000; Philadelphia \$14,411,000; Cleveland \$971,900; Richmond \$2,827,000; Atlanta \$3,331,000; Chicago \$10,801,000; St. Louis \$3,750,000; Minneapolis (not reported) \$175,000,000; Kansas City \$2,025,000; Dallas \$2,175,000; San Francisco \$2,111,000; 350,000,000. Not All Reports In. Unreported sales added to the official figures doubtless would greatly increase the total," the statement reads. "Possibly to \$550,000,000 or \$700,000,000. Conservative estimates from the New York, Chicago, Cleveland and San Francisco districts alone add \$180,000,000. In other words, the latest official figures and most careful estimates of unreported sales make it appear that not more than 14 per cent of the maximum quota has been subscribed. If it is to be attained \$358,000,000 worth of bonds must be sold every working day between now and the close of the drive.

NO LIBERTY BONDS FOR THIS BIRD, IF HE CAN POSSIBLY AVOID THEM.
