

UMATILLA LANS URGE HERMISTON AS SITE

Portland Chamber and Governor to Aid in Effort to Procure Cantonment.

DELEGATION VISITS CITY

Climate Said to Permit of All-Year Activity, Land Belongs to Government, Electricity, Water and Wood Easy to Get.

A substantial delegation from Umatilla County to arouse interest in the campaign of Umatilla County to secure the location of an Army cantonment near Hermiston visited Portland yesterday and the co-operation of the Chamber of Commerce and other interests was pledged. Governor Withycombe advised the delegation, first by telegram and later in person, that he would aid in the movement in every possible way.

The proposed cantonment site of 20,000 acres was inspected on Monday by Major Richard Park, chief engineer of the Western Division, who is covering the Western states on a trip of inspection of various sites offered. About 10 locations have been offered in the Pacific Coast states, although the Hermiston location is the only one being considered in Oregon, so it is regarded as a state-wide movement that will be supported by everyone in Oregon.

Hermiston Club Acts.

The Hermiston Commercial Club started the campaign for an Army cantonment there last May, when data were submitted to the War Department through the Department of the Interior. Because of the extensive reclamation work already completed near Hermiston, the Reclamation Bureau was already quite familiar with the conditions there. More recently the proposal of Hermiston people has been taken directly to the Western Division of the Army and data given directly to officials in charge.

It was pointed out by the committee here yesterday that the proposed site would cost the Government nothing, that it is chiefly Government land and that conditions surrounding it are ideal for cantonment purposes. The tract lies on a well-irrigated waterway about 200 feet above surrounding irrigated lands. Transportation facilities are said to be ample, with the O.-W. R. & N. Company's line passing the tract on two sides, while the Spokane, Portland & Seattle Railway is just across the river, and in the Columbia, available for navigation.

Climate Considered Ideal.

The climate is so well adapted to the purposes of an army camp that it is said the men may be out in the open all the year around without being either too hot or too cold. A water supply may be had from Minnehaha Springs, three miles away, and light and power may be supplied by a transmission line of 27 miles from Pendleton or Umatilla. It is only 30 miles to the forest reserve lands, where ample timber is available.

Two sites are under consideration, one of which will be chosen in the West, and it is the hope of the Umatilla County committee that one of these will be Hermiston. Major Park was inspecting a tentative site at Tenino, Wash., yesterday. His report will, of course, be made to the War Department, and it will be some time, probably before Hermiston people will learn what his findings are.

Those in the party that visited Portland yesterday were Senator J. N. Burgess, Judge G. W. Phelps, Leon Cohen and R. Alexander, Pendleton; F. B. Swagay, Thomas Fraser, William Kennedy and E. P. Dodd, Hermiston; Dr. W. E. Donnelly, Arlington; Ralph Holt and Frank Sloan, Stanfield.

'NO LOYAL MAN NEED FEAR'

Postmaster-General Burleson Gives Views on Censorship Law.

WASHINGTON, Oct. 16.—Postmaster-General Burleson announced that his policy of administering the broad powers of newspaper censorship vested in him by the trading with the enemy act will be "as conservative and cautious as it is humanly possible to be."

Mr. Burleson said in an administrative act he would have in mind only one thing: The country is at war with Germany and no deliberate propaganda to discourage support of the Government in prosecuting the war to a successful conclusion will be tolerated. Beyond that, the Postmaster-General said, no steps would be taken to interfere with criticism of the Administration.

When his attention was called to the belief throughout the country that the new law will confer censorship powers on him broader than was contemplated in the censorship law defeated early in the present Congress, Burleson said: "I realize that it is a great power, but I intend to be as cautious and conservative as it is humanly possible to be. There will be no injustice done."

Make Your Own Cough Syrup and Save Money

Better than the ready-made kind. Easily prepared at home.

The finest cough syrup that money can buy, costing only about one-fifth as much as ready-made preparations, can easily be made up at home. The way it takes hold and conquers distressing coughs, throat and chest colds will really make you enthusiastic about it. Any druggist can supply you with 2 1/2 ounces of Pinex (50 cents worth). Pour this into a pint bottle and fill the bottle with the granulated sugar syrup. Shake thoroughly and it is ready for use. The total cost is about 65 cents and gives you a full pint—a family supply of an effective, pleasant tasting remedy. It keeps perfectly.

It's truly astonishing how quickly it acts, penetrating through every air passage of the throat and lungs—loosens and raises the phlegm, soothes and heals the inflamed or swollen throat membranes, and gradually but surely the annoying throat tickle and dreaded cough will disappear entirely. Nothing better for bronchitis, whooping cough, whooping cough or bronchial asthma.

Pinex is a special and highly concentrated compound of genuine Norway pine extract and it is known the world over for its prompt healing effect on the throat membranes.

Avoid disappointment by asking your druggist for "2 1/2 ounces of Pinex with full directions and don't accept anything else. A guarantee of absolute satisfaction or money promptly refunded goes with this preparation. The Pinex Co., Ft. Wayne, Ind.

HOOPER SAYS GO SLOW ON SWEETS

Serious Sugar Shortage in Eastern States Is Expected Soon.

CANE SUPPLY DISTRIBUTED

Further Offerings Not Expected Until Late in November—Retailers Advised to Sell in Small Lots.

WASHINGTON, Oct. 16.—The Eastern states fear a sugar shortage with no prospect of relief before late in November, when the Hawaiian and West Indian beet crops arrive. In a statement tonight forecasting the shortage the food administration again appealed to the American people to cut down their consumption of candy and sweet drinks, and at the same time gave warning that retailers already have received their stocks at prices recently agreed upon and the public should be ready during the temporary scarcity in the East than it has been paying during the past 30 days.

The shortage is due, the Administration says, to the failure of the public, outside of a few loyal homes, to reduce consumption and the unusual exports to France in order that the French people may have their meager ration of one pound of sugar per person per month.

In regard to prices attention is called to the fact that by agreement the price of beet and Hawaiian sugar has been fixed at 7 1/2 cents a pound, Atlantic and Pacific seaboard bases, and the maximum retail price at interior points should be 8 1/2 cents, while by an agreement with the cane refiners and Cuban producers the price of cane sugar has been held down so that it should reach the consumer at about 9 cents a pound.

Louisiana Producers Sivo.

The Administration notes that it still is awaiting a reply to the offer of the Louisiana producers to join in the agreement.

There will be a temporary shortage in the supply of sugar to the area north of Savannah and east of Pittsburgh, the food administration's statement said. During the latter part of October and the month of November, pending the arrival in the market of new sugar, the beet sugar factories in the Western United States, and the Hawaiian production, will be able in a short time to take care of the sugar supply in the United States, and the beet sugar production from this source will gradually extend eastward, and beet sugar will reach the Atlantic seaboard by the end of November. The rapidly with which this sugar invasion from the West can take place will be largely controlled by the economy shown in the consumption of sugar by the people in the Western area, and the Administration makes a special appeal to them to apply the economy shown in the consumption of sugar, more especially of candy and sweet drinks in the Northeastern states, may be supplied at the earliest possible moment.

Cane Sugar Distributed.

Practically all of the cane sugar in the hands of the refiners and producers has now been distributed to the jobbers and retailers at the prices maintained on a basis that should reach the consumer in the neighborhood of 9 cents a pound. Therefore, if by virtue of the shortage in the Eastern states, the price of sugar should increase, it is only proof that it has been increased at the hands of either the producer or the refiner.

The food administration asks the public not to pay more for sugar during the present shortage than it has been paying during the last 30 days, and that the supply of beet sugar reaches the Atlantic seaboard, it should be available upon a less basis than the cane prices above mentioned.

Limited Sales Urged.

Furthermore, the food administration requests that all jobbers in the West as well as in the East should discontinue the sale of sugar with care amongst the retailers in much reduced quantities, and that the retailers, in turn, should refuse to sell only a very limited quantity to any one customer. We also trust that jobbers will refuse to sell sugar to any retailer who advances the price.

A remedial contribution can be made if the American people will at once reduce their consumption of candy and sweet drinks. Many householders of the country have responded to appeals for voluntary reduction, but unless a cane secure a wider reduction of the sugar in candy, ice cream and sweet drinks it will be impossible to curtail the supplies of these industries as has been done all over Europe.

MOTHERS TO HEAR BOYS

Proposal to Send Phonograph Records to Trenches in France.

WASHINGTON, Oct. 9.—That mothers and relatives may hear the voices of beloved ones who are serving with the United States Marines in France, a Massachusetts woman has suggested that blank phonograph records be forwarded to the boys in the trenches.

Such records would prove dear to every household from which a son is serving; it means that even though he be killed in battle, his voice can still be heard by those he held most dear, writes the woman to Marine Corps officials here, who have taken the matter under consideration.

POLITICIAN IS PERSUASIVE

Thompson Lieutenant Embarks in Cheese and Lemon Business.

CHICAGO, Oct. 9.—It begins to look as if life will become insufferably dull in the Twenty-first Ward, now that the State's Attorney has put a crimp into the activities of Francis E. Thompson, a politician. For Mr. Becker was no plain, ordinary henchman. Rather, he was an intriguer, an adroit and almost poetical gentleman, a creature with many argosies sailing the political waters.

Thus he appears in the light of a cheese salesman and purveyor of lemons. Having lined up the saloonkeepers in the ward, exhibited his prowess over the police department, fire department, his pull and his drag with the powers that be, Mr. Becker cast about for further opportunities and his roving eye lighted upon the figure of Frank W. Keigher, formerly a morals inspector under Mayor Fankhouser.

The facts as they were issued by State's Attorney Hoyne, convinced that the ward was waiting

MESSAGE IS FORCEFUL

A. G. CLARK TELLS WHY PEOPLE SHOULD BUY BONDS.

FOUR-MINUTE SPEAKERS PRESENT LIBERTY

Four-Minute Speakers Present Liberty Bond Question to Motion Picture Theater Audiences.

A. G. Clark, of the Home Industry League, one of the four-minute men speaking nightly in Portland theaters, told the audience at the Peoples last night that there was a German spy among them.

"And I want that spy to get this straight," he said. "Prussian treachery in Mexico we subscribe a billion dollars; for Prussian treachery in this country we subscribe a billion; for Prussian treachery against women and children a billion, and for broken faith a billion more. And then, on top of that, we have more until militarism is beaten to its knees."

Urging liberal subscriptions to the Liberty loan, Mr. Clark told it all in one mouthful of more expressive than elegant: "If you can't go across, come across."

Mr. Clark left with his audience this parting advice: "Remember that men win battles, but money wins wars."

Nine other four-minute men spoke at the evening. They were: W. T. Williamson, Liberty; Professor H. L. Herdman, Columbia; Homer D. Angell, Strand; Ralph Coan, Peoples; Elmer Amidon, Sunset; R. Jacobson, Star; Hamilton Johnson, Marine; Yngve Cane, Circle, and G. L. Carlson, Globe.

HONOLULU ASKED TO SAVE

6000 Pounds of Wheat Daily May Be Saved Through 'War' Bread.

HONOLULU, T. H., Oct. 15.—Six thousand pounds of wheat daily can be saved the United States if Honolulu families will only eat graham or "war" bread instead of the regular white loaf. Such is the announcement of the territorial food commission, which has issued a special conservation campaign that is expected to produce results in the home through the school children.

Governor Pinkham issued a proclamation on the first day of school, bringing the last two days of the campaign to the attention of the children the necessity for economy in food and clothing, emphasizing the importance of avoiding waste during the course of the war. The schools will be asked to issue propaganda designed to strike home to every parent through the lessons to the children.

Approximately 20,000 pounds of bread are consumed daily by the residents of Honolulu and if this consumption were entirely of graham bread, the above-mentioned saving in wheat would result and as all flour is imported from the mainland, Hawaii would consequently be less of a drain on the states in the matter of food supplies.

The action of the Government in fixing \$2.20 as the maximum for wheat flour is not expected to have any effect on bread prices here. Bread is now selling for 10 cents a loaf that costs 6 to 8 cents in the states while the standard 10-cent loaf sells here for 15 cents.

WAR BOON TO FRESHIES

O. A. C. First-Year Men Will Not Have to Do Usual Rook Work.

OREGON AGRICULTURAL COLLEGE, Corvallis, Oct. 16.—(Special.)—The freshman duties rather than useless pranks arranged by the sophomores will be the order of events at O. A. C. this year. The present sophomore class has outlined a system of treatment toward first-year boys which will not require them to do "rook duty" which is only a waste of time. At many times freshmen have been required to scrub sidewalks. Such practices will be abolished and the freshmen will become an aid in keeping the campus in first-class condition.

SCHOOLS TO HOLD RALLIES

Closer Co-operation Between Patrons, Teachers, Pupils Proposed.

Community rallies in each of the high schools of the city for the purpose of promoting closer co-operation between patrons, teachers and pupils in handling high school problems, will be held during November.

The meetings will be addressed by Bishop Summer. The programme in each instance will begin with a hymn, music, singing, followed by readings and musical numbers.

The meetings will begin at 7:45 P. M. as follows: Washington, Thursday, November 8; Franklin, Tuesday, November 13; Jefferson, Friday, November 16; James, Tuesday, November 20; Lincoln, Friday, November 23.

What's New for Fall?

A GOOD many men and young men are asking that question about clothes.

Here's the first item of interest: Hart Schaffner & Marx suits and overcoats for Fall are here. The popular fabrics are worsteds, chevots, tweeds, iridescent shades, greens, browns, grays, in checks, plaids, stripes and mixtures—and they're all-wool, every one of them.

We don't need to argue about the merits of Hart Schaffner & Marx clothes; you know they're good clothes; you know that they're guaranteed to give you satisfaction. The values are unusual.

MORE CARS BUILT

Southern Pacific Trying to Reduce Shortage in State.

EARLY RELIEF IMPROBABLE

With Crop Movement On and Added Demands Upon Railroads Because of War Conditions, Task of Getting Cars Increases.

Although a car shortage exists on Western railroads, the carriers are doing everything possible to meet the situation, according to railroad officials. The Southern Pacific, for example, is building new cars as fast as the supply of materials and labor will allow.

Steel for new rolling stock is hard to obtain and as a result wood is being used instead of steel for all parts where steel is not absolutely essential. It is said to be out of the question to build all-steel freight cars under present conditions.

Daily Shortage Large.

The Southern Pacific Company was short 1255 cars of all kinds yesterday. Since October 1 the daily shortage has run from 1100 to 1200 cars.

It has lately been stated to the Public Service Commission, it was reported recently, that the O.-W. R. & N. Company had turned over 1000 cars to the Southern Pacific Company. It is thought by railroad men that this statement might give a wrong impression to shippers, because the statement is misleading. There has been no turnover of cars whatever in the sense that the cars were given for the use of the Southern Pacific Company on its own lines.

What was meant, and the term that should have been used, is asserted by Southern Pacific officials, is interchange of cars. Empty cars are received from the O.-W. R. & N. Company for loading on Southern Pacific lines and then turned back, loaded, to the O.-W. R. & N. Company for delivery to destination. This practice is, of course, common between all connecting railroads.

Figures compiled by the Southern Pacific Company show that from September 1 to October 11, inclusive, the Southern Pacific Company delivered to the O.-W. R. & N. Company at East Portland 2019 cars. During the same period the Southern Pacific received from the O.-W. R. & N. Company 2384 cars. This is an excess in favor of the Southern Pacific Company of 35 cars.

Demands Are Heavy.

With the crop movement on, the added traffic demands upon the railroads by reason of the transport of quantities of war materials and troop trains, and the difficulty in getting cars returned from the East, it is impossible, say operating officials, to forecast an early relief from the vexing problem of car supply as it exists at present. However, everything that

can be done is being undertaken to supply traffic demands.

Youth Killed by Train.

FRANKFORT, Ind., Oct. 9.—William Cash, 4 years old, son of Mr. and Mrs. C. J. Cash, was killed when run down and crushed under an automobile driven by Newton C. Paragon, a wealthy farmer. The accident occurred in front of the Cash home when the boy attempted to prevent his sister, Berneth, 2 years old, from being hit by the machine. The little girl had started to her home from the opposite side of the street. The boy, believing his sister was in danger, called to her to wait for him. He was struck as he started to assist her.

Give Your Teeth Exercise

HARD crusts, and fibrous foods give the teeth work to do, and are in a measure tooth cleansers. The teeth need exercise just as much as any other part of the body.

The chief cause of tooth decay is the use of soft pulpy foods which cling to the teeth and ferment.

That's why you need to use a dentifrice which is first and always an efficient cleanser. S. S. White Tooth Paste is the best and most scientific combination of active cleansing agents on the market. It is made by the world's best known makers of dental equipment and supplies according to a non-secret formula determined by eminent dental authority.

Your druggist has it. Sign and mail the coupon below for a copy of our booklet, "Good Teeth; How They Grow and How to Keep Them."
