CARS ARE LACKING

Orders for Potatoes Are Being Sent Elsewhere.

DEMAND HAS BEEN GOOD

Prices Offered to Farmers for Shipment Are Liberal, in View of Quotations Prevailing in Local Jobbing Trade.

Shipping orders for Oregon potatoes have been coming forward freely, but dealers are handleapped in filling them by the acarcity of cars. It is impossible to get refrigerator cars, even for Government busiand only a few boxcars are to be had. Could the orders now booked be dispatched promptly, more orders would be ment here, but the delay in getting the potatoes moved is having the effect already of diverting business to other points where the transpertation facilities are better.

Local suppers have been offering \$1.25

et country points for sood shipping stock and up to \$1.50 for fancy potators. These are considered to be good values in view of the jobbing prices new ruling in this market, which are not much above the prices farmers are receiving at their sta-tions. On Front street quotations generally range from \$1.50 to \$1.75 for Oregons of table rize, while Yakimus have been offered by jobbers for some time at \$1.75.

MORE POULTRY IS NEEDED FOR FOOD Secretary of Agriculture Calls on Growers to Increase Production for Meat.

The Secretary of Agriculture points out the importance of increasing poultry on the farms in the following letter transmitted to the American Poultry Association through

"I hope that the coming meeting of the American Poultry Association, which you will attend as a representative of the Department, will be highly successful and pro ductive of good results. I need not point out that an adequate supply of foodstuffs is essential to the effective prosecution of the struggle in which we are engaged. We must not only supply our own needs, but we must endeavor to meet in part the needs of the nations with which we are co-opersting. The poultry industry can render very great service to the Nation in this emer

The production of poultry is one of the The production of poultry is one of the best means of bringing about a quick in the meat supply of the country. In many sections, particularly in the South, the number of fowls on individual farms the number of fowls on individual farms of an and should be very largely increased. If the improved methods which have been worked out by the experts of the state agricultural colleges, the experiment stations and the Department of Agriculture were generally adopted, many of the problems confronting positrymen would be solved or

Vague Rumors of Coming Developments at Washington Affecting Munitions Industry; Rails Share in Advances.

NEW YORK, Oct. 18 -- Stocks moved forward in a convincing fashion today, despite the further weakness shown by isolated is-sues, notably coppers. Much of the activity sure, notably coppers. Much of the activity centered around the war group, particularly steels, at extreme gains of 2 to 7 points. The advance was materially aided by extensive short covering and heavy buying from commission-houses, who were reported to be acting for Western interests. There ware vague rumors of early developments at Washington, which are expected to redound to the advantage of several of the runitions companies now filling large contracts for the ailies.

Halls shared in the rise. Low grade or reorganized transportation issues were more prominent than usual, the steady accumulation of Southern Railway common and preferred. Rock Island, Missouri Pacific and other Western and Southern lines being accompanied by I to 24-point advances.

United Static Steef rose to 105 late in the resident and closed at 104 s, a net gain of 25 points. Bethlehem Steels were next in favor, the new stock rising 7 to 8% and the of laws advances of the same
