

SOCIETY NEWS

BY GERTRUDE P. CORBETT

MISS ISABELLA MACLEAY is being delightfully entertained with informal pre-nuptial functions, which really furnish all the festivities that the younger girls indulge in after-noon. Yesterday Miss Susan Cheney entertained with a pretty tea in her honor and about 35 of the younger contingent participated in the affair. Garden flowers in a riotous display combined with vivid-toned Autumnal Splashes adorned the rooms. Mrs. Alan Green and Miss Katharine Graham presided at the tea table and a few of the girls assisted in serving. Today Misses Katharine and Charlotte Laidlaw will be hostesses for a tea complimentary to the popular bride-elect.

One of the most important events on the social calendar of today is the reception marking the formal opening of the new quarters of the Portland Woman's Union, "the Martha Washington Hotel." A large tea has been arranged for the event, and prominent matrons and maids will be on hand to receive the guests and show them over the beautiful building. The furnishings, which are modern, attractive and dainty, have been purchased from the series of round-robin parties that were given during the past few months.

Mrs. J. E. Cornett, president of the union, with a number of former presidents, will receive the guests and the hostesses of the day will be Mrs. W. A. MacInnes, Mrs. Max Hirsch, Mrs. Willis Dunaway, Miss Elsa Grelle, Mrs. F. Steinhart, Mrs. Albert Smith, Mrs. J. W. Cook, Mrs. M. A. M. Ashby, Mrs. H. H. Northrup, Mrs. Henry Laidlaw, Mrs. Charles Rumelin, Mrs. L. A. Frank, Mrs. Robert Wilson, Mrs. A. C. Holmes and Mrs. Alice Benson Beach.

Everyone interested in the work of the Portland Woman's Union and all friends of the pre-officers, as well as the former, are invited to attend the tea today from 2 to 5 o'clock and again tomorrow, to permit the men to attend, from 4 to 5 o'clock.

Last night was a gala night at the Auditorium, when the popular opera, "La Boheme," was sung by the Scala Opera Company. Society attended the performance, many handsome and wonderful wraps and gowns were admired on prominent women, some of whom were hostesses for line parties, ranging all the way from six to ten. Numerous little groups later attended the supper-dance at the Multnomah Hotel.

Another affair of today that is receiving considerable attention from society is the performance of "Jack and the Beanstalk," which will be shown all day at the Multnomah Hotel. This morning there will be a special matinee for the poor children of the city, all the heads of the various institutions having been requested to send the children as guests of the management. There will be provision made for conveying the boys and girls to and from their homes.

Mrs. Stanley Scott, wife of Captain Scott, of the United States Engineering Corps, stationed at Vancouver Barracks, will share honors in the informal tea to be given this afternoon by the Misses Charlotte and Katharine Laidlaw with Miss Macleay. Mrs. Scott is a recent bride and a charming young woman.

Selmar J. Monro, of the United States Ambulance Corps, who came from Camp Lewis for a visit, was guest at Hill Military Academy Friday and addressed the cadets on "The Advantages of Military Training." Mr. Monro is a graduate of the academy.

Arrangements are being completed for a card party and dance to be given by the Patriotic Order of America, at their hall in the East Side Business Men's Club, corner Grand avenue and East Alder street, on the evening of October 29.

Miss Hazel Isakson has returned to Portland after being absent for more than a year. Immediately after graduating from the University of Chicago, she spent several months visiting relatives and friends in the Middle West, returning home by way of California. She is the daughter of Mr. Charles A. Isakson, who reside at 210 1/2 North Twenty-second street, this city.

One of the gayest events in the Portland Heights Club this season was the military dance given last night by the club members in honor of Colonel Jones and the officers of the Liberty Post at Vancouver. Only members of the club, the officers and their wives were invited.

Tonight the young people in their teens will be the guests of the club at a dance from 8 until 11:30 o'clock. The committee is: Mrs. James B. Kerr, Mrs. John A. Keating, Miss Louise Boyd, Miss Gladys Ross and Mrs. A. P. Matthews.

Conservation Talks.
By Teachers, Girls' Polytechnic School.

WHEN we realize that nearly three-fourths of the food heat units furnished by the cereals come from wheat alone we see the need for conservation of the wheat supply. This conservation is to be accomplished, not through reduction in the amount of wheat used in the bread. In this the South sets the rest of the country an example for there other grains than wheat are used liberally for breadstuffs.

One of the tested recipes used in our domestic science department is for bread made of both cornmeal and wheat flour. In quantity for four loaves it is as follows:

Two and one-quarter pounds, or 2 1/2 scant quarts sifted bread flour, 3/4 pound, or 2-3 cupsfuls cornmeal, two cakes compressed yeast, 3 level table-spoonfuls of sugar, 1 1/2 level table-spoonfuls salt, about one quart liquid (water, milk, or equal parts of milk and water), 3 level table-spoonfuls of shortening, if desired.

If milk is used it should be scalded and then cooled until lukewarm. Less yeast may be used, but more time for rising will be required. Make sponge with two pounds of white flour, the yeast, salt, sugar and liquid. Cover and

place in a moderately warm place to rise. When the sponge has become light, which should be within two hours, beat it thoroughly, add the softened shortening, if this is to be used, and gradually work in the remainder of the wheat flour which has been sifted with the cornmeal.

Knead the mixture until a smooth and elastic dough has been formed which is fairly soft, add a little more water or flour as required, kneading well after each addition. Cover and set back to rise again until double in volume, which will require from one to two hours. Knead lightly, mold into loaves and place in slightly warmed and greased pans. Let rise until it has doubled in volume, then place in the oven, which should be at a good, steady heat (400 to 425 degrees Fahrenheit), and bake 45 to 50 minutes.

Women's Clubs

By Edith Knight Holmes

THE Grange Woman's Club met in room A, Central Library, yesterday at 2 o'clock. Extensive plans for the year's work were outlined. Early Oregon history will be taken up in the form of short questions and answers at every meeting.

Papers will be prepared on some of the different operas, with musical selections. Home economics and health hygiene will be discussed. The value of medicinal herbs of Oregon, and vegetable matter suitable for dyeing will be discussed by an authority on the subject.

The club voted to ask the Grange women of the state to donate jelly to be sent to the Oregon boys encamped in Oregon and Washington for their Christmas dinner. The club adopted a resolution endorsing the proposed cantonment at Hermiston, Umatilla County.

A pleasant incident of the afternoon was the story of the founding of Pacific University at Forest Grove, told by Mrs. H. A. Lewis. The founder was her grandmother, Mrs. Tabitha Brown, who settled there in 1848.

A letter was read before the club from Mrs. Lucia Faxon Alderton, president of the Woman's Press Club. Twelve Granges were represented.

The first council meeting of Clackamas County Teachers and Parent-Teacher Associations will be held at Oregon City High School today. This will be an all-day session and lunch will be served at the building.

The Parent-Teacher Association will stand back of the teachers and district boards in the big food conservation drive which is scheduled for the last week of October. This will be followed by a drive for child conservation, and a full attendance is requested that the plans for these campaigns may be well laid. O. M. Plummer and Mrs. Millie R. Trumbull, both of Portland, will give addresses, which will be followed by general discussion.

An all-day meeting of the Woman's Association of the First Presbyterian Church will be held on Tuesday in the church house. Luncheon will be served at 12:15 o'clock.

Summer Woman's Relief Corps held their first sewing as a Red Cross unit at the Courthouse. A goodly number of members were present and considerable work was completed. They will meet to sew every Thursday at 10 A. M. The regular meeting of the corps will be held this evening at 7:30 o'clock. Visitors welcome.

The Sellwood Community Center, East Fifteenth street and Spokane avenue, will hold open house tonight at 8 o'clock. The Bureau of Parks opened this new center the first of the year 1917 and is launching a season's activity which will supply the Sellwood community with gymnasium classes for young and old and with social and educational opportunities of more than ordinary interest and value.

W. H. Morgan, principal of Sellwood School, is chairman of the evening, and Mrs. J. E. Cornett will be the guest speaker. There will be a short musical programme. The public is invited.

Dr. and Mrs. Sherman E. Wright left for the East the latter part of September, visiting in Chicago, Minneapolis and other points. Returning westward, Mrs. Wright stopped off in Minneapolis to visit her mother, Mrs. William S. Best, and she will return to Portland the end of this month. Dr. Wright returned last week to his home here.

Clubwomen are anticipating the convention of the Oregon Federation of Women's Clubs to be held next week in Prineville. Last year they went to Seaside and had some regular beach features as side issues and social entertainments. This year there will be

The Modern Way!

Everything is always done in the most modern way at all of the seven COLUMBIAN stores. They keep step with the progress of science. Compare the COLUMBIAN'S store here with any other store in Portland—observe its neat, modern appearance and particularly its up-to-date, scientific equipment.

When you get COLUMBIAN service, you get the very latest and best.

COLUMBIAN OPTICAL - CO

thing needed when the girl has the first one of her "crushes." Sooner or later every girl has to chaperone herself. Some time she will have to decide a course of conduct concerning which she cannot possibly imagine how anyone in her "set" would act. It may be that she cherishes no hero, not even her mother. Or perhaps she cannot visualize her heroine in her own circumstances. And usually the matter demands, or she thinks it demands, instant action.

For armor of life we say to an aggressive boy: "Do what is right." To a girl, docile, innocent, ignorant, we only say: "Do what is correct." And then she meets a situation where "correctness" blows out its lantern.

Instead of codes, substitute principles. Principles based on knowledge. Before Christian fought Apollon in "Pilgrim's Progress," the angels gave him three preparations for danger. These three every girl should have for her life's equipment. They are: a sword, a chart of the road, and "another weapon, called All Prayer."

Lester is Lanky.
My Lester is slow and dreamy, does not seem to have any idea of the passage of time, and is listless in his habits. He is 8. What do you think is the trouble?
Lester is Lanky.

He may have adenoids. His lack of vitality may be due to his low breathing capacity. You should attend to this at once.

He may have what is known as "slow reaction time." That is, he may be one of those whom it takes longer for a stimulus from the outside world to work through his nervous system than others. If this is the difficulty, it cannot be overcome. He will always be deliberate, but he may prove to be accurate and thorough.

Or he may be what is called "the subjective type" of mind. I quote from Professor M. V. O'Shea: "Psychologists classify people according as they are objective or subjective in their mental attitude and activities. One type is outward-looking, as it were. He is alert to everything that is going on about him, constantly responding to all that happens. If there is nothing doing around him he falls asleep, for what goes on within will not be active enough to keep him awake. Another type of individual, though, is inward-looking. His eyes and ears are turned inward rather than outward. He gives attention to the objects of his fancy more than he does to the objects of the real world."

"Much of what goes on around him that secures a response from the objective type may make little or no impression on him. This is the day-dreamer, the builder of castles in the air. You can hardly expect to revolutionize this kind of mind, but you can harness his idealism to imaginative and noble projects and even to some share in homely duties."

FOUR FILE DIVORCE BILLS

George Earl Humberstone Stayed Out All Night, Wife Says.

That her husband would remain away from home four evenings every week and then tell her it was none of her business where he was or with whom he associated on those occasions was more than Hazel Jean Humberstone bargained for when she married George Earl Humberstone, according to her complaint for divorce filed yesterday. They were married in this city October 28, 1908.

Other suits for divorce filed yesterday were: Ora F. Lowe vs. George Lowe, married at Vancouver, Wash., May 27, 1899, desertion; Minnie Miller vs. Harvey B. Miller, married at Guthrie, Okla., February 14, 1892, cruelty; Emma J. Barry vs. Thomas F. Barry, married in this city June 21, 1911, cruelty.

GOVERNMENT BUYS HORSES

Sales Arranged at Medford and Redmond by County Agents.

The United States War Department has recognized the economy and convenience of county agent co-operation in buying war horses.

At a horse sale arranged by C. C. Cate, of Jackson County, at Medford last week nine head of cavalry horses were bought at \$135 per head and 12 artillery horses at \$165 each. There was no commission, and the sellers received just what the Government had to pay.

A larger sale was held by R. A. Ward, of Crook County, at Redmond on October 17 and 18.
