

ATTEMPT TO SINK TRANSPORT MADE

Scheme to Place Explosive in Hold of Vessel Once German Liner Foiled.

PLOTTER IS APPREHENDED

Charles W. Walnum, Believed to Be Teuton, Held Without Bail as Result of Disclosure of Designs.

NEW YORK, Oct. 19.—On a charge of conspiring to place an explosive on a United States converted transport, formerly a German merchant liner, Charles W. Walnum, believed to be a German, was held without bail by a United States Commissioner this afternoon for examination on October 24. Walnum claimed to be a Norwegian and said he had taken out his first naturalization papers in this country. He pleaded not guilty and told the authorities he was not a spy. For six months he has been chef and pantryman on a yacht owned by Harry Payne Whitney.

What People Are Saying.

Condensed From Press Dispatches.

MRS. THOMAS J. PRESTON, formerly Mrs. Grover Cleveland, speaking at a "woman's war service meeting" in New York, the first of a series to be held in every big city of the country in a nation-wide movement to organize women for war service, says: "Today we are called upon to be soldiers of freedom face again the old grim fact of war. But this is a war to end war, and therefore our eyes must be dry and our hearts unwavering for sacrifice. More than that, we must all serve. Not grief, but labor, not tears, but steadfast purpose, are worthy of the men who bear our color against the enemy of the world's peace. The woman slacker is as guilty as the man slacker, because her power for victory is as real as his."

After making a \$500,000 subscription to the Liberty Loan for the Merchants' Loan & Trust Co. of Chicago, President E. D. Hulbert, of that institution, says: "The one weak spot in the situation is the attitude of the farmers. They will neither buy Liberty bonds, pay taxes, sell surplus crops, nor will they have asked many out-of-town callers have asked many farmers paying taxes and I have heard of but one instance of a farmer saying an income tax was not a profit throughout the period of the war, but are unwilling to help the government in any of the four ways mentioned. The farmers have been pampered by politicians until they seem to feel they are a privileged class."

Bankers of the United States are urged to be liberal in their loans to agriculturists and manufacturers. George W. Norris, president of the Federal Farm Loan Board, says: "Last year's agricultural production is estimated at \$1,000,000,000 and this year's at \$1,000,000,000. The farmer should be provided with loans sufficient to permit him to carry on his work without feeling the need of ready money. Financing of manufacturers who see the need of enlarging their plants to meet the demands is also vital to the vigorous prosecution of the war."

A letter from Marshal Joffre expresses his thanks to the American Cross of Honor for the bestowal of its decoration upon him as France's greatest hero. When the French government recently declined to name the man who in all France was thought most deserving of the tribute, the society voted to make the award to the hero of the Marne.

"This manifestation goes straight to my heart and touches me all the more, inasmuch as through my person it is to our heroic France and to the soldiers who gloriously defended her at the Marne that you have desired to pay tribute," writes Joffre.

Premier Painleve, at a luncheon given by French Senators and Deputies in honor of Medill McCormick, says: "I am happy to welcome an allied citizen and a representative of American democracy. The arousing of a consistent support of justice will prove one of the greatest events in history. France, I venture to say, is not unworthy of America's co-operation, for France will continue to struggle and

Suffered Terribly From a Burning Sensation in His Stomach.

"Last Summer I had a bad spell of indigestion that lasted about ten days. There was a terrible burning sensation and a good deal of gas in my stomach. I suffered terribly at times, being unable to get relief until I took a friend's advice and began using Chamberlain's Tablets. The relief from the first was very apparent, and by taking only half a bottle of them I was cured." writes G. F. Parkhurst, Cicero, N. Y.—Adv.

WASHINGTON, Oct. 19.—Swedish officials here characterized the proposed Swedish Cabinet as the most democratic in the history of the country. The Conservatives are not represented, and the Ministry as a whole is strongly Socialistic. Hjalmar Branting, Minister of Finance, is a Socialist leader, and some of the other members are high in the Socialist ranks. The Cabinet as a whole, according to the views of well-informed persons here, must be considered one of the people and not of the court circles. It inclined toward the extreme left of the retiring Cabinet.

ments from miners already in the National Army for service in France is under consideration by Secretary Baker. To ascertain whether such units will be acceptable in view of France's delicate labor problems, informal negotiations are being conducted with members of the French High Commission. National Army men would be assigned to the mining regiments only on a permanent basis, but Government officials touch with the unions believe more of the 15,000 miners taken on the first draft call would offer themselves for service in France. Many fields in Southern France are not being worked because labor is not available.

Details of Italy's serious economic situation while her soldiers are pressing the Austrians at the front reach her in official dispatches. Producing no coal, Italy also depends for many of her other supplies upon the outside world, which virtually means the United States. England requires all her shipping for her own purposes. The situation is so grave that the Austrians are being urged to consume and few furnaces will be lighted this Winter in either Italian military or private houses. Even the military operations are hindered.

Information upon which may be based action with respect to licensing enemy or enemy insurance companies in the United States is sought by the Treasury Department of a state superintendent of insurance. Authority to license or withhold licenses from such companies has been delegated by the President to Secretary McAdoo. Applications must be made prior to November 5 and acted upon within 30 days. Companies whose licenses may continue to do business in the meantime.

Four new active sovereign grand inspectors-general of the Supreme Council of the Ancient and Accepted Scottish Rite of Free Masonry, for the southern division of the United States, have been elected and crowned by the Supreme Council, bringing its membership up to 25. The new inspectors-general are: Fred C. Schramm, of Salt Lake City; Marshall W. Wood, of Bolivar; E. J. McAdoo, of St. Louis, and Olin S. Wright, of Plant City, Fla.

Figures on the German weekly food ration are made public by the Federal food administration with the observation that it is far below the amount required to maintain bodily health and vigor and is likely to have serious and permanent results. Computed in terms of American equivalents, the ration amounts approximately to four and a half pounds of bread, a half peck of potatoes, a cupful of beans, peas or oatmeal, a half cupful of sugar, six individual patties of butter and an equal amount of other fats.

Investigations by the State Department reveal that German firms and individuals in Western republics have been active in procuring the necessities to conduct a propaganda against the United States and its allies, to cause strikes in mines and oil fields, products from which are vitally necessary to the allies, and even to attempt to influence the political attitude of some of the governments.

The Daughters of the American Revolution, through the National Board of Management is announcing that \$200,000 will be invested by the organization in Liberty Bonds. In addition a vigorous campaign is under way to encourage individual subscriptions. Incomplete returns from 23 states indicate that individual members subscribed to the first loan to the extent of more than \$2,500,000.

To further its campaign for economy in the government, the Federal Administration has secured the services as voluntary aides of Paul B. Boden and William Childs, Jr., of New York. Some restaurant owners complain they cannot offer suitable substitutes on the proposed "meatless" Tuesday and "without-meat" Wednesday. The Federal administration is working on this problem.

So that it may not interfere with the second Liberty Loan campaign, Red Cross Theatrical day has been postponed from October 26 to December 7. Theatrical workers' salaries throughout the country and the salaries of many actors for that day will be contributed to the Red Cross war fund.

Reports to the State Department indicate that the German harvests this year have not relieved the food situation to any appreciable extent. There is a great scarcity of fats and animal food in general and the supplies received from Roumania and neighboring neutrals are not making up for the lack of proteins.

Because some exporters have sought to take advantage of the prohibition permitting the exportation of single sugar shipments of not more than 25 barrels, the War Trade Board revokes the regulation and orders that until further notice all consignments of sugar of any size for export must be accompanied by a certificate of origin from the United States or Canada or Newfoundland.

Brigadier-General Littell, in charge of Army cantonment construction, issues a statement describing the status of heating plant construction in the National Army camps. He says the last of the plants probably will be completed by November 1 and that all camps' temporary use of stoves has been authorized.

A new portrait of President Wilson for the National Gallery of Ireland at Dublin is being made by John S. Sargent. The President has no engagements this week except the Cabinet meeting and can devote ample time to the painting.
