OUTPUT OF SPRUCE TO BE INCREASED

Government Sends Officer to See That Oregon Produces 10,000,000 Feet Monthly.

COLONEL DISQUE ARRIVES

Man Who Revolutionized Conditions at Jackson Prison Recalled From Command on Eve of Sailing for Foreign Service.

Oregon has sufficient spruce to win The Government must have 10,000,000 feet a month, forthwith.

The Government has been getting .000,000 feet a month. This cannot be allowed to continue. That is why, on the very eve of his departure for

on the very eve of his departure for France with his cavalry unit. Colonel Brice P. Disque, one of the most unique and interesting officers in the Army, was recalled to Washington and commissioned to perform what in many ways is the biggest job connected with the industrial end of winning the war. With practically unlimited authority and virtual carte blanche to "get out the spruce," Colonel Disque reached Fortland yesterday morning, arranged for certain preliminary matters connected with his most important mission to the state, left last night for Tacoma on other features of his work and will return here later in the week. He will then make a flying trip to Washington for the purpose of reporting direct to the Secretary of War, the Chief of Staff and the Council of National Defense, when he will come back here to remain until his task is complete. here to remain until his task is com-

Officer's Experience Wide.

Colonel Disque has been an officer of the Army for 18 years and has seen

of the Army for 18 years and has seen service in many countries, including the Philippines, Asia and Europe, and has also had a considerable experience in industrial business, especially in handling men. He believes that men are men and that if one knows how, he can get the work out of them easily. This is no theory with Colonel Disque. He demonstrated it in Jackson Prison, the state penitentiary of Michigan, where he had been superintendent for a year prior to the war. During that year, working the so-called honor system and treating the prisoners as men, he conducted its affairs so that from the proceeds of the manufacturing end of the administration the state received of the administration the state received of the administration the state received \$185,000 over and above the operating expenses, which included wages to many of the prisoners, in some in-stances amounting to as high as \$70 a month and their keep. Hundreds of them supported their own families on their prison wages.

Peace Mission Not to Liking. "I believe there is good in every man and woman," said Colonel Disque, "and I operated the prison at Jackson upon that principle; results were wonderful. It was thought there might be some trouble here in getting men to turn out the spruce necessary to the Government's programme at this time. I do not know why I was chosen to

I do not know why I was chosen to handle this situation, but I do know that it nearly broke my heart when I was recalled from going to Franca. However, when shown the absolute necessity of this work and its great importance, I felt repaid. I shall do my best to execute my orders—jest out the

Official Permission to Import Spirits Issued and Later Withdrawn.

LAWS SEEM TO CONFLICT

Amounts Admitted While Bars Were Down Unknown; Question Is Put Up to Attorney-General Gregory.

WASHINGTON, Oct. 22 .- Instructions to all customs collectors throughout the country to admit to entry distilled spirits produced abroad prior to Octo-ber 3 last, "either for beverage pur-poses or other than beverage purposes," were made public and recalled within

County, together with some districts revenue laws given by Lawrence Beck-last night.

Arthur M. Churchill is chairman of the piedge card movement. He reports that people of the state seem thoroughly alive to the necessity of getting. revenue iaw approved October 3 re-pealed provisions of the previously en-acted food control law, which flatly prohibited the importation of any dis-tilled spirits. Now the question has been placed before the Attorney-General himself for a decision, and in the meantime the food law prohibition re-mains in effect.

Announcement is made by District Forester Cecil that a tract of 334 acres of sprace and hemlock timber located on the north shore of Heceta Island, in the Tongass National Forest of Alaska.

August Law Bars Imports.

That section of the food law, passed August 10, after prohibiting the manufacture of distilled beverages in this country, says: "Nor shall there be imported into the United States any distilled spirits."

Section 281 of 18 Section 301 of the revenue law, passed nearly two months later, pro-

vides:
"That no distilled spirits produced after the passage of this act shall be imported into the United from any foreign country or from the West Indian Islands recently acquired from Den-mark (unless produced from products the growth of such island, and not then into any state or territory or district of the United States in which the manufacture or sale of intoxicating liquor is prohibited), or from Porto Rico or the Philippine Islands.

Repeni In Questioned. Brush and Frightening Children.

Numerous complaints during the past few weeks of some one hiding in the brush along the Powell Valley road and frightening small girls returning from school were brought to an end yesterday, the police believe, in the arrest of Otis Long, aged 18, who lives in that district.

The youth is said to have been de-Mr. Becker held that the words "pro

> We eat too much meat, which clogs Kidneys, then the

back hurts. Says glass of Salts flushes Kidneys and ends Bladder

Uric acid in meat excites the kid-neys, they become overworked, get sluggish, ache and feel like lumps of lead. The urine becomes cloudy, the bladder is irritated, and you may be obliged to seek relief two or three times during the night. When the kid-neys clos you must help them flush diftimes during the night. When the kidneys clog you must help them flush off the body's urinous waste or you'll be a real sick person shortly. At first you feel a dull misery in the kidney region, you suffer from backache, sick headache, dizziness, stomach gets sour, tongue coated and you feel rheumatic twinges when the weather is bad. Eat less meat, drink lots of water; also get from any pharmacist four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will ful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salts is made from the acid of grapes and lem-on juice, combined with lithia, and has been used for generations to clean clogged kidneys and stimulate them to normal activity, also to neutralize the acids in urine, so it no longer is a source of irritation, thus ending blad-der weakness.

irritation.

source of irritation, thus ending bladder weakness.

Jad Salis is inexpensive, cannot infure; makes a delightful effervescent lithia-water drink, which everyone should take now and then to keep the kidneys clean and active. Druggists here say they sell lots of Jad Salts to folks who believe in overcoming kidney trouble while it is only trouble.—Adv.
