Lansing Makes Statement.

In his statement accompanying the announcement Secretary Lansing said:

Viscount Ishii and the other Japanese commissioners who are now on their way back to their country have performed a scrvice to the United States, as well as to Japan, which is of the highest value.

There had unquestionably been growing up between the peoples of the two countries a feeling of suspictor as to the motives inducing the activities of the other in the Far East, a feeling which, if unchecked, promised to develop a serious situation. Rumors and reports of improper intentions were increasing and were more and more believed. Legitimate commercial and industrial enterprises without uiterlor motive were presumed to have political significance with the result that opposition to those enterprises was aroused in the other country.

The attitude of constraint and doubt thus nnouncement Secretary Lansing said

The attitude of constraint and doubt thus created was fostered and encouraged by the campaign of faiseisoed which for a long time had been adroitly and secretly carried on by Germans, whose government as part of its foreign policy desired especially so to allenate this country and Japan that it would be at the chosen time no difficult task to cause a rupture of their good relations. Unfortunately there were people in both countries, many of whom were entirely honeat in their beliefs, who accepted every false rumor as true, and alded the German propaganda by declasing that their own government should prepare for the conflict, which, they asserted, was inevitable, that the interests of the two nations in the Far East were hostile, and that every activity of the other country in the Pacific had a sinister purpose.

Distrust Not General, The attitude of constraint and doubt thus

In a Statement accompanying the note Mr. Lansing said Viscount Ishii and the members of his mission, now ou their way home, had performed a service of the highest value to the United States, as well as to Japan, by clearing away misunderstandings which, if unchecked, promised to develop a serious situation in the Far East. He spoke of the attitude of constraint and doubt fostered by a campaign of falsehood adroitly and secretly carried on by the Germans and said that, through the frankness and cordiality of the Japanese commissioners, the propaganda of years had been undone in a few days.

News Is Surprise.

by Secretary Lansing and Viscount Ishii, it had not been known generally that the delicate Far Eastern question had been taken up at the conferences between the commissioners and American officials.

In fact, it was stated authoritatively soon after the mission's arrival in Washington that such problems would not be touched upon and, as the conferences progressed, the general understanding was that such subjects as Japan's need for steel for shipbuilding and American gold for trade balances were engrossing attention.

It now develops that these latter questions have been left to the resident Ambassador, Almaro Sato, to work out with the proper officials of the American Government.

Comment on the dispatch from Pekin was withheld last night because of an understanding between the two governments that the announcement should be made today, simuitaneously at

Public Announcement Advisable.

In order to dience mischlevous reports that have from time to time been circulated, it is believed by us that a public announcement once more of the desires and intentions shared by our two governments with restard to China is advisable.

The governments of the United States and Japan recognize that territorial proplinquity creates special rolations between countries and consequently the Government of the Japan recognize that territorial proplinquity creates special rolations between countries and consequently the Government of the Japan recognize that the Japan has a special interest in which her possessions are contiguous.

The territorial sovereignty of China nevertheless remains unimpaired and the Government of the Imperial Japanese government that, while seeggraphical position gives Japan such agecial interests, they have no desire to discriming the commercial rights heretofor granted by China in treaties with other powers.

"Open Boor" Maintained.

The governments of the United States and Japan deny that they have any purpose to infringe in any way the independence of territorial integrity of China and they declare, furthermore, that they always aghere to the principle of the so-called "open door, or equal opportunity for commerce and industry in China.

Noreover, they mutually declare that they are opposed to the subject or citiziens of any country as a stateman of high statem

of the officials, as the United States Government itself in the cases of Mexico, Cuba and other American republics and in the Monroe Doctrine itself has been foremost in the assertion of the doctrine of special privileges by reason of the geographic and economic relations.

Japanese rallway concessions in Manchuria also are regarded as proper objects of special Japanese interest, not to detail large privately owned Japanese business enterprises in China proper. The vital importance to Japan of the maintenance in China of a strong government capable of affording protection against internal violence and against the insidious efforts of hostile foreign intrigue for such Japa-nese interests is freely admitted by American officials, hence the willing-

ness to consummate this agreement. Though only hinted at in Secretary Lansing's statement, it is known that the Germans had calculated to weaken the American campaign against Ger-many in Europe by obliging the Wash-(Concluded on Page 4, Column 2.)

Premier Kerensky Astonished That He Has Been Misunderstood by English Press.

Nation Is Economically Poor and Asks Unstinted Help in War Munitions and Finances-Premier Going to England.

PETROGRAD, Nov. 6 .- Premier Kerensky is planning a visit to England on official business. The Premier has been seriously iil, but has recovered sufficiently to travel and is expected to leave Petrograd for England within a few days.

Russia is still doing her utmost to carry on the war. She will continue to do her duty. These are the views of Premier Kerensky, whose secretary, in his name, protested today against any other interpretation of his recent interview with the Associated Press. David Soskice, the Premier's secre-tary, made the following statement to day regarding the "misinterpretation by some of the London press" of the interview:

Kerensky Is Astonished.

I have seen M. Kerensky with reference to the interview and shown him quotations from the English press. He was very much astonished at the manner in which his plain statements were received in London. Whoever read the whole interview can draw but one conclusion from it—Russia was doing, is doing and still will do her utmost in carrying on her share of the common cause against the enomy, having devoted all her might from the very first days of the war, when England only began her vast preparations and America was still neutral.

Russia, which always was much poorer economically than her mighty allies, now naturally feels the pinch of war more than England and America, and therefore is justified in the contention that her allies now should shoulder the heavier burden and should assist her unstintedly with war material and flances, in the matter of her requirements.

Russin Will Do Her Duty. The Minister-President, in this interview, pointed out that not every one of the allied countries appreciates fairly the great part Russia has played and still is playing in the war, and that some were inclined to attack her bitterly because of the great difficulties with which she is confronted now. She will continue to do her duty.

M. Soskice said the interpretations of the American press of his interview were pleasing to M. Kerensky.

Kerensky Controls War Office, General Verkhovsky, the Minister of War, has been granted an indefinite leave of absence by a government order which relieves him of his office. General Manikovsky has been appointed acting War Minister temporarily, while the department will be under the general direction of Premier Keransky.

General Verkhovsky, the Russian War Minister, has been a member of the Cabinet since September 5. He has been a strong advocate of better disci-pline in the Russian army and has pline in the Russian army and has endeavored to introduce reforms.

On September 28 he told the Democratic Congress that a final victory over Germany was certain if discipline was restored in the Russian army. In an address to the preliminary Parliament on October 25 he urged reorganization of the army and the authorization of severe punishment for
