HOW TO BRING BACK COMMERCE, Discussion of the revival of Portland's commerce has sprung up again. The subject is so vital that it will not down, especially when all persons who give it any attention realize that the war has given the port an opportunity which may never recur. HIS AMERICANISM.

HIS AMERICANISM.

I want to make it plain to the world that there was no leave of Americanism of loyalty involved so far as I am concerned. There could be none, for I am as good an American as any man, as loyal to my flag, as loyal to my country, and as firm and determined in support of every act of the Government in this war as any man.

I ask the editors of the newspapers in this and in other cities to give prominence to this declaration, so that there may not go abroad to the people of this country who have no appreciation of our local situation the slightest intimation that the question of the war or the war policy of President Wilson and the United States Government is in the slightest way involved.

My first utterance in this campaign in response to a question put by a reporter was that I stood uncompromisingly behind the President in support of the acts and policies of my country, and that the war must be fought to a cenciusien which would bring an honorable peace to America.—From a post-election statement by Mayor-elect Hylan, of New York.
