

NEW DRAFT RULES READY FOR ISSUE

Regulations to Be Mailed to Local Exemption Boards of Country Next Week.

SELECTION IS SIMPLIFIED

Burden of Supplying Needed Information Rests Upon Individual Registrant; Scheme Adopted Reduces Work of Boards.

WASHINGTON, Nov. 12.—Copies of the new Army draft regulations came off the press today for a final reading preparatory to mailing to the local exemption boards throughout the country next week.

Under the new plan the burden of supplying information which will result in his being placed in his proper classification under the selective service law rests squarely upon the individual registrant. All instructions are actually in the hands of the boards which are annulled upon the receipt of the new regulations, which are greatly reduced in extent and simplified in process.

Information Is Complete. Included in the new book is everything bearing on the draft processes as now organized, from the time the questionnaire is sent to each registrant and filled out and returned to the boards, until accepted men are actually in the military service. Each book carries a copy of the statutes and also a verified copy of the master list of the drawing.

The questionnaire is the basis of the plan of grouping registrants in five classes, liable for duty by classes. The boards will be able to classify a man immediately when his questionnaire has been received.

Work of Boards Lessened.

The questionnaire process will eliminate from consideration for military service probably 95 per cent of the men who would have been discharged or exempted under the old plan. Under the first call the average board was compelled to examine 100 men to obtain one for service. In some cases not more than one out of 10 or 12 was sent to the camps.

It is expected that, under the new scheme, the average figures will be reversed and at most not more than one man in five called will fall to pass his medical examination and be rejected.

DEMOCRATIC PEACE IS AIM

American Union Against Militarism Announces Change in Name.

NEW YORK, Nov. 12.—The American Union Against Militarism announced tonight that it had changed its name to the American Union for a Democratic Peace. Its aims were declared to be "free peoples, free markets, free seas and world union for disarmament."

Among the officers and members of the executive committee are: Fred E. Finch, president; Crystal Eastman, secretary; Herbert S. Bigelow, Frank John, Max Eastman, the Rev. John Haynes Holman, David Starr Jordan, Owen R. Lovejoy and James H. Maurer. "We are utterly opposed to the extension of military service to men, and especially to all legislation tending to fasten upon the United States a permanent system of compulsory military training and service," said a statement issued by the committee.

FEW TURKEYS WOULD HELP

Knappa, With 1 Man in Company E, Gives Thanksgiving Trimmings.

If some other community will now kindly step forward and provide the turkey, the men in Company E, of the 44th Infantry, temporarily stationed at Vancouver, B.C., will have a genuine Thanksgiving dinner with all the trimmings.

The patriotic citizens of Knappa yesterday contributed to the company the following supplies: One box of honey, one box of oranges, 12 boxes and 14 sacks of apples, 155 pounds of potatoes, 22 pounds of carrots, 85 pounds of turnips, 120 pounds of cabbage and one case of beans. Company E was selected as the recipient of this substantial donation because the organization includes one member who enlisted from the town of Knappa.

Emergency Produces Hero in Bill Schroeder.

Mantle of Fog Envelopes "Ramona" and Fair James. John Footall Rooters, Who Sighed Because They Were Getting Home Too Soon, Worry About "What Mother Will Think" as Captain Prepares to Wait.

"Oh, a sailor's life is the life for me," chorused the James John High football team and their loyal supporters as the gallant ship "Ramona" plowed the deep on its return voyage from Rainier, where 30 girls and 30 boys, five faculty members and several parents had journeyed to witness the James John-Rainier game.

"Oh, I wish we didn't have to go so fast," mourned, one fair rooter. "We've been having such fun. And we'll be in Portland in no time." But look! Shiver our timbers! What have we here? "Hence come this dense fog that settles round about us like smoke about a battling seadog? Our gallant ship wavers, hesitates, and

Costs Less and Kills That Cold

CASCARA QUININE

The standard cold cure for 20 years—10 tablets form a safe, sure, no-opiates—cure cold in 24 hours—grip in 3 days. Money back if fails. Get the genuine box with Red Top and Mr. Hill's picture on it. Costs less, saves money. 24 Tablets for 25c. At Any Drug Store.

heaves to. Must we stay here? On account of the fog? For how long? All night! Heavens!

"Mother will be worried to death," wailed a little blonde-haired passenger. "Oh, Mr. Pilot, can't we go on?" "Not if I know it," growled the skipper, as he pointed to a "Safety First" sign prominently displayed. Emergencies produce heroes. Here was an emergency if there ever was one. And Bill Schroeder came forth. Stepping into the starboard gig alone and by himself, he fared forth into the all-enveloping fog. For two hours the anxious watchers watched. Then back came Bill, with gladsome tidings. Come what might, the people at home knew of their plight and were reassured. Their laughter and song rang down the hurricane deck as dancing and games helped to while away the hours of the long tarry.

FOUR CHILDREN SURVIVE

JOHN C. McCREA RESIDENT OF NEWBERG SINCE 1891.

Former Yamhill County Commissioner Born in Michigan in 1847, Oregonian Since 1877.

NEWBERG, Or., Nov. 12.—(Special)—John C. McCrea, who died here suddenly Saturday night, was 70 years of age. Mr. McCrea was born in Branch County, Michigan, September 18, 1847, and leaving home in 1871, he lived for a

year in Iowa, in Missouri and again in Iowa. In 1874 he went to Kansas, and then to California, locating near San Francisco, where he engaged in brick-making and farming. In 1877 he located in Marion County, Oregon, purchasing a large farm to which he added later. In 1891 he removed to Newberg, securing a pleasant home on the Willamette.

Mr. McCrea served the communities in which he lived in various capacities, being County Commissioner of Yamhill County four years. He was stockholder, director and vice-president of Chehalis Valley Bank.

In 1887 Mr. McCrea married Miss Althea Eleanore Baldwin, of Burr Oak, Mich., who survives him. They have had six children, four of whom are still living. The children, located here, are: Fred H. of St. Johns; Edith A. (Mrs. S. Hubbard), of Bend; John C., of Kalama, Wash., and Archie E., at Camp Greene, Oregon. He also has several grandchildren, four boys and three girls, and one great-grandson, Shirley G. Johnston, of Portland.

The late J. C. McCrea.

RAILWAY EARNINGS OFF

SEPTEMBER AGGREGATE SLIGHTLY UNDER THAT OF LAST YEAR.

Southern Lines Alone Show Increase, According to Figures of Interstate Commerce Commission.

WASHINGTON, Nov. 12.—Aggregate net earnings of railroads of the United States during September this year were slightly less than for the same month last year, when railroad earnings were at their peak. Reports from 173 roads, compiled today by the Interstate Commerce Commission, show that only the Southern lines recorded increases. Net revenues for the 173 roads were \$110,880,310, as compared with \$117,505,474 a year ago. Operating revenues were \$347,131,272, about \$32,000,000 more than last year, and operating expenses were \$236,249,962, about \$29,000,000 more than a year ago. For nine months, ending with September, net revenue showing a slight decrease over the same period last year, being \$859,153,008, as compared with \$872,736,331 in 1916.

Eastern roads, whose application for higher rates is now pending before the Interstate Commerce Commission, reported net revenues during September of \$42,556,722, as compared with \$47,024,265 last year. Their gross revenues were \$151,394,408 and expenses were \$110,543,686.

Western roads, which have taken steps to re-enter the rate increase case, reported net revenues of \$50,697,563 as compared with \$55,426,814 last year. Their operating revenues were \$149,972,454 and expenses about \$99,346,951.

BRITAIN PLANS RATION

DIRECTOR OF FOOD ECONOMY PROPOSES FOOD ALLOWANCES.

Amounts to Be Fixed According to Character of Work Men and Women Are Engaged In.

MANCHESTER, England, Nov. 12.—Sir Arthur Yapp, director of food economy, outlined here today his plan for rationing following are the suggested weekly allowances of bread: Men on heavy industrial or agricultural work, eight pounds; men on ordinary work, six pounds; men on sedentary work, four pounds, eight ounces.

Women on heavy industrial or agricultural work, five pounds; women on ordinary industrial work or domestic service, four pounds; women on unskilled or sedentary work, three pounds, eight ounces.

Other foods, the allowance of which is the same for all, are apportioned as follows: Cereals, other than bread, 13 ounces; meat, two pounds; butter, margarine, lard, oils and fats, ten ounces; and sugar, eight ounces.

Children are not affected, as no definite rations have been fixed for them.

CHINA OBJECTS TO JAPAN GREENHEAT

Formal Protest Filed at State Department by Chinese Minister.

TEXT NOT MADE PUBLIC

Point Raised That Legality of Understanding May Be Called Into Question Because Not Submitted to Senate as Treaty.

WASHINGTON, Nov. 12.—Formal protest against the agreement between the United States and Japan regarding China was lodged at the State Department today by Mr. Wellington Koo, the Chinese Minister, on instructions from his government.

The text of the document left by the Minister was not made public, but it is understood China objects to any such action, affecting its interest, without assent to the wishes of the Chinese people themselves. News that a similar protest had been filed at Tokio reached here unofficially yesterday.

Little Is to Be Said. It is probable that while the State Department and the Japanese Foreign Office will respond at an early date with explanations and declarations of the absence of any sinister designs upon China, there will be no extended diplomacy exchanged on the subject of the protests.

Behind the Chinese objection to the manner in which the American-Japanese understanding was negotiated is the view that it is an unjust and dangerous theory that any nation has a right to assert a claim to support interest in another country without the latter's consent.

Secretary Lansing, in his statement announcing the agreement by which Japan's special interest in China is recognized and both countries reaffirm the "open-door" policy and pledge the independence and territorial integrity of China, made it clear that the United States always has recognized and has asserted for itself special interests in another country based upon proximity.

Doctrine Displeasing to China. The Chinese government, however, is understood to be unwilling to subscribe to the doctrine. It is estimated that have come from Peking that the legality in point of international law of the agreement was called in question because it had not been submitted to the American Senate in the form of a treaty which would have given it the force of law.

It is also understood that the understanding is of the same nature as the famous Root-Takahira agreement which adjusted the rights and obligations arising from the immigration into the United States of Japanese coolie labor. This agreement never was submitted to the Senate, but that made by Mr. Lansing and Viscount Ishihara is held to be body except perhaps for information.

The administration view is said to be that prolonged and useless discussion of American relations with the Japanese would be the only outcome of a different course.

SAFETY MEASURE PLANNED

Report to City Showing Elevator Inspection Proposed.

An ordinance requiring the owner or agent of every building in which an elevator is operated to make a quarterly report to the city showing that the elevator has been inspected and is in safe condition is to be proposed by City Commissioner Barbur.

He says this will be a means of requiring the owners to keep their elevators in safe condition. Under the present system the cars are insured by the owner leaving the inspection to the insurance companies. Commissioner Barbur says the city should be assured that a satisfactory inspection is made regularly at least every three months.

SHIP EARLY, IS ADVICE

Railroad Official Points to Danger of Christmas Congestion.

The season approaches when worried railroad men will wonder how they are going to handle the avalanche of Christmas packages. F. W. Robinson, traffic manager of the O. W. R. & N. G. railroad, said today that the "ship early" is in keeping with the times.

"To handle properly the packages for our soldiers and sailors is not alone going to tax the facilities of the postal department and the express companies, but will require unusual effort on the part of the railroads of the United States," said Mr. Robinson. "A little individual effort will go far toward relieving congestion."

GREAT AIR FLEET URGED

Aero Club of America Favors Appropriation of Billion.

NEW YORK, Nov. 12.—Resolutions urging the appropriation by Congress of not less than \$1,000,000,000 to build an emergency fleet of huge war planes to offset the mobility of German forces on their interior lines of communication were adopted at the annual meeting of the Aero Club of America here today.

The appointment of an allied air board to co-ordinate the aeronautic efforts and resources of the allied countries also was proposed.

COAL COMPANIES WARNED

Dealers Cannot Profit by Having Buyers Do Their Own Hauling.

WASHINGTON, Nov. 12.—Coal companies which charge the price set by the Government and require a purchaser to do his own hauling, have their margin of profit cut by the Fuel Administration. Garfield gave this warning today on receipt of reports that some dealers have curtailed the service, such as delivery, which formerly was included in the market price of fuel.

NINE ANGLERS TO BE TRIED

Illegal Fishing in Wabana and Necanicum Rivers Is Charged.

R. Jorgenson, C. Olson, E. D. Landon, Antonio Scarpatti, H. E. Hansbury, H.

T. Sawrey, G. Shepard, J. C. Shepard and Pete Mathison, arrested November 6, are to be brought to trial on complaints filed by the State Fish and Game Warden. All are charged with illegally fishing more than one-third of the width of the Wabana and Necanicum rivers. In addition to this, H. E. Hansbury and R. E. Foss are charged with illegally buying and selling fish without a license. Deputy Fish and Game Warden Rathbun made all the arrests. Price is a wholesale fish dealer, has been brought to trial on charges of fishing with gillnets in the Tillamook River.

HARD FIGHTING LASTS

BRITISH LOSE SOME OF GROUND GAINED FROM GERMANS.

Heavy Artillery Fire Follows in Vicinity of Passchendaele—Furious Counter Attacks Continue.

(By the Associated Press.) BRITISH FRONT IN FRANCE AND BELGIUM, Nov. 11.—Heavy enemy artillery fire has followed the hard fighting which occurred on the north and northwest of Passchendaele yesterday, but the Germans have attempted no further infantry action of any magnitude. North of Passchendaele the Canadians were holding their advanced line strongly today and consolidations were being effected on the salient. On the lower ground to the west, where such a bitter struggle occurred yesterday, the British were forced to withdraw from the Passchendaele salient counter attacks by the Germans. This territory, north of Goebert, in the valley of the flooded Fossebeke, was the most difficult sector in the line of the offensive. The ground was very marshy and the whole zone was heavily defended with strongly fortified farms. The British troops in this territory, however, still had some of the newly won ground to their credit today, notwithstanding their withdrawal.

BERLIN, Nov. 11.—Desperate fighting occurred yesterday on the Flanders front in the Passchendaele region. Today's communication from army headquarters says the British attacked repeatedly and were repulsed.

LONDON, Nov. 11.—The Germans have made no attempt to recapture the ground gained by the British on the Flanders front. In their attack in Palestine on Friday, which resulted in an enormous advance and the capture of Askalon, the British took 710 prisoners, the War Office announces. They also captured five 5.9-inch howitzers and 100 prisoners. On Thursday, 13 guns and 100 prisoners were taken, the report says.

PARIS, Nov. 11.—A German attack in the Vosges, near Hartmannsweilerkopf, resulted last night in violent fighting. Was called in question because it had not been submitted to the American Senate in the form of a treaty which would have given it the force of law.

SEATTLE STEEL PLANT FOREMAN CALLED GERMAN AGENT.

Explosions in Foundry and Bessemer Works Blamed on Gus Vollrath. Also Said to Have Spilled Metal.

SEATTLE, Wash., Nov. 12.—Gus Vollrath, a former foreman at the Olympic Steel Works here, was arrested today charged with causing two explosions at the Olympic plant and one explosion in the Aurora Foundry Company's works here last week.

Officials of the Olympic plant told the police they also believed Vollrath was a German agent. He is a German agent and claim the explosions were part of a plot intended to halt the manufacture of steel plates for Government vessels under construction here.

An acid which Government chemists have not yet been able to identify was a part of the explosive used, police said. M. G. Tennant, who succeeded Vollrath as foreman at the Olympic plant, was arrested tonight by the acid in one of the explosions.

Officials of the Olympic plant told the police they also believed Vollrath was a German agent. He is a German agent and claim the explosions were part of a plot intended to halt the manufacture of steel plates for Government vessels under construction here.

Whether the sentence will be 30 or 60 days or six months the militants could not predict tonight, but all who were rearrested today are confident they will "do time." It is surfragette policy to go to jail rather than pay a fine, the theory being that payment of a fine would be a confession of guilt.

The Gram girls retired early tonight, exhausted from their experiences of the day. They expect this to be their last night of freedom for some time.

Mrs. Harvey W. Wiley, wife of the pure food expert, was the only defendant to note an appeal from the court's decision today, and she did not join the afternoon expedition.

Church Talks Made at Albany.

ALBANY, Or., Nov. 12.—(Special)—

GRAY HARBOR COMPANY FORMED

TO GET AIRPLANE STOCK.

Government Will Be Asked to Sell at Once Spruce in Olympic National Forest.

HOQUIAM, Wash., Nov. 12.—(Special)—The Gray Harbor Rived Airplane Spruce Association has been organized, with A. E. Peterson, of Aberdeen, as secretary. It is composed of men interested in the production of spruce for airplane stock.

The first move of the new association will be to take up with the Forestry Service and the War Department the importance of opening to sale immediately spruce in the Olympic National Forest in the district north of Hoquiam. There is a large number of spruce trees adapted to use in airplane beams, the material which is particularly hard to obtain, in the National Forest close enough to transportation to permit its being removed by the riving method.

Steps have been taken by the Forestry Service to place this on sale, but the members of the association believe, under the plans outlined, there will be no chance to obtain it, and the plans proposed by the Government officials will shut out the riving operator, as this work must be done by the small operators.

Riddle Red Cross Active.

RIDDLE, Or., Nov. 12.—(Special)—The Riddle Red Cross sent 10 Christmas packages this week to the Roseburg Chapter, as this was their share of the packages from Douglas County. Fifteen articles were included in each package, with aprigs of mistletoe and holly.

Scarlet Fever in Riddle.

RIDDLE, Or., Nov. 12.—(Special)—Riddle school is closed indefinitely on account of several cases of scarlet fever being present in town. The cases are developing, are very slight and the homes have been quarantined.

PICKETS KEEP AT IT

Suffragettes Defy Judge Who Releases Them.

MISSES GRAM SEEK JAIL

Rearrest Follows Return of Banners-carriers to White House Grounds. Imprisonment Was Expected and Hoped For.

OREGONIAN NEWS BUREAU, Washington, Nov. 12.—Two Portland girls, Alice and Betty Gram, who were caught in the suffragette raid in front of the White House Saturday, were found picketing as they were confined here, released by the judge of the Police Court this afternoon, along with 49 other suffragette pickets, on suspended sentence. Within 15 minutes after their release the Misses Gram and a large body of other suffragettes were again picketing the White House. They were promptly placed under arrest for the second time, and will again face the Police Court judge tomorrow. They are out on bail today.

OUR BOYS IN FRANCE AND HOME PROTECTION

The men on the firing line represent the pick of our American youth. One in four of our boys at home was sick, rejected because of physical deficiency. Many times the kidneys were to blame.

If we wish to prevent old age coming on too soon, or if we want to increase our chances for a long life, Dr. Pierce of the Surgical Institute, Buffalo, N.Y., says that you should drink plenty of water daily between meals. Then procure at your nearest drug store, Anuric (double strength). This "An-u-ric" drives the uric acid out and cures backache and rheumatism.

If we wish to keep our kidneys in the best condition a diet of milk and vegetables, with only little meat once a day is the most suitable. Drink plenty of pure water, take Anuric three times a day for a month.

Send Dr. Pierce ten cents for this package. "Anuric"—many times more potent than lithia, eliminates uric acid as hot water melts sugar. A short trial will convince you.

MR. REEVE JONES says: "Just a few lines in regard to Dr. Pierce's Anuric Tablets which I took for my kidney trouble. I am glad to recommend them to you. I saw that they are good or I would not recommend them. The swelling was going down so I quit using them. I have quit taking them now and am cured getting along fine and dandy."

"One old lady, 65 years old, to whom I have recommended Anuric says that it did her good, took the swelling out of her neck."

"The beauties of the Austrian court used a lotion which was so effective in keeping the face smooth and free from wrinkles, even in the aged, they named it the 'Water of Eternal Youth'."

Some one recently has divulged the secret of this wonderful, though exceeding simple, wrinkle lotion. It is dissolved in a half pint which hazel—that's all there is to it. An old man can get his wrinkles, even in the aged, they named it the "Water of Eternal Youth."
