The Leading Oculists of Portland

are relying upon the Columbian more and more.

Because the Columbian keeps getting farther and farther ahead of its competitors in the perfection of its equipment and the quickness of its service.

The operators have found that their prescriptions are more accurately executed here than they've ever been anywhere else in the West, and accuracy is the most vital of all requirements.

That's because we're keeping abreast of the times. Just about 20 years ahead of the ordinary optical store in both facilities and methods.
