## WALKOUT OF 10,000 WORKERS IMMINENT

Advance in Wages Demanded by Bay City Metal Trades Denied, Strike Expected.

### SHIPYARDS ARE AFFECTED

Men Who Threaten to Halt Production Are Employed in Industries That Supply Bollers and Foundry Fittings for Vessels.

SAN FRANCISCO, Dec. 25 .- The Iron Trades Council, with 26 of its 27 affiliated unions represented, has voted unanimously to strike Wednesday unless its demands for a 10 per cent war bonus affecting more than 10,000 ironworkers, exclusive of shippard employes, is granted.

At the meeting of the Iron Trades Council, in session until early this morning, communications were read from the California Metal Trades Association and the San Francisco Foundrymen's Association, the employers' organizations, refusing the demands.

Fred V. Metcalf, secretary of the Cal-lfornia Metal Trades Association, announced that the shops would remain open and would endeavor to operate, despite the threatened strike.

The meeting was attended by ap-proximately 30 members of the Cali-fornia Metal Trades and San Francisco

Labor leaders stated the strike will be called Wednesday and will be continued until the 10 per cent increase is met or the men are decisively beaten.

While the meeting was in progress the copy of the telegram sent Ira Bennett, representative of the San Francisco Chamber of Commerce in Washington, by Howard E. Coffin, chairman of the Federal Aircraft Production Board, which urged the men to deferstrike action, was read. The telegram follows:

Pour part of the gravy over and cover with pie crust. Put a rim of pie crust around the rim of the baking dish (if there is a good rim) before putting on the top crust. Have the rim wet to hold the rim crust and wet this crust again the rim crust and wet this crust again to make it stick to the top crust. If there is not a very good rim to the baking dish, wet the edge and double the cover crust under, pressing and scalloping the edge. The cover crust should have some neat incisions in it to allow the escape of steam.

The top may be decorated, if liked, by a wreath of small "diamonds" of paste marked with a knife to resemble leaves. In some districts this leaf decoration is the distinguishing mark of a "real chicken pie."

Brush the crust with a little beaten egg mixed with milk or water to give a nice brown glaze and bake until the crust is well raised and brown.

The extra gravy may be kept hot and poured in through one of the ventilation holes when the pie is baked, using a tin or a stiff paper funnel. This gives abundance of gravy without the danger of boiling over.
