ADVISORY BOARDS RELIEVED OF RUSH

Suspension of Court Work Provides Sufficient Men to Take Care of Inquirers.

DELINQUENTS ARE SCARCE

Only Few Who Failed to Give Their New Addresses Listed and Boards Will Request Sheriff to Endeavor to Apprehend Them.

POINTERS FOR REGISTRANTS WORRIED ABOUT NOT GET-TING QUESTIONNAIRE.

Requests from anxious registrants wishing to know when their questionnaires should be malled to them are pouring in to the local boards, yet a large percentage of the inquirers omit information which must be given before the date on which their questionnaire goes into the mails can be readily determined. If you wish your board to tell you when your questionnaire was mailed or will be mailed, be sure to give: First, the number of your divi-sion in Multnomah County; sec-ond, your order number in this division.

Please note that you do not know your order number, as distinguished from your serial number, unless you have obtained it from your division registration board. If you do not know what division you are in, get that information first, by telephoning your name and the precinct number from your registration coard to the war registration head-quarters, Main 215. Perhaps your division registration board is located at this same number. If not, the party answering can tell you what number to call in order to get in touch with your division board and learn your order num-Please note that you do not board and learn your order num-ber. The general registration or exemption headquarters is locat-ed in room 145, Courthouse.

Congestion in most of the Legal Advisory Board headquarters, where nearly 1000 registrants appear daily for assistance with questionnaire troubles, eased yesterday. Callers seeking advices seldom had to wait. This was due both to the fact that Circuit and District Judges have cut their sessions to minimum requirements and that more advisers and associate advisers were on duty than at any previous time.

Division No. 3 Advisory Board, which maintains quarters in room 501 at the Courthouse, continues to be most burface and the courthouse, continues to be most burface.

Parmer, Howard E.

Division 3.

Order Nos. 833 to 830. (Legal advisory to all the card headquarters, 408 Lewis building, 206 chamber of Commerce building, 206 chamber of Commerce building, 601 Title & Trust building.)

Salen, Marcotte, Joseph G. E. Congestion in most of the Legal Advisory Board headquarters, where nearly 1000 registrants appear daily

maintains quarters in room 501 at the Courthouse, continues to be most burdened with work, and during part of the time yesterday was confronted with something of a waiting list. This board, because of its convenient location, a spoiled to for aid by most of tion. is applied to for aid by most of the scores of transient registrants, whose questionnaires come from out-side points. The fact that advisors of a few of the divisions have no evening office hours is also throwing an added burden on those that are on duty each evening.

definitely as a delinquent. In nearly every instance, though, they have a few questionnaires that are being held until the men who returned them appear to make needed corrections or additions. Most of the boards also have questionnaires which have been returned because the addressee has left the city without leaving an address. Some of these men will possibly suffer arrest as delinquents, if they can be located.

Several of the exemption boards ready today to the series of the city without leaving an address.

Several of the exemption boards ready today to the series of the exemption boards.

ready today to turn over to the Sheriff the names of registrants who disap-peared without leaving an address. Registrants guilty of this carelessness promptly will be placed in class I on being apprehended, and may also receive jail sentences.

Filled questionnaires came in yesterday in veritable cvalanches. This was attributed to the fact that an unusual number of those who have received at their question lists took advantage of the holiday interim to complete answers and return the documents. As a result is some of the division boards received 50 per cent more questionnaires than com-

prise their daily mailing list.

The work of classifying registrants is going forward more smoothly now, though the classifiers find themselves badly overburdened in trying to keep abreast of the job. They are doing much of the examination of completed questionnaires at their homes. Several

disprovovich, Sydney Fields, James M. Jahn, Gustave Retempt, James Geo. Grieflibert O. Critchilbert not reached them. Attention to the fact that the registrant's serial number is not given on his papers and cannot be figured out by any exercise of gray matter. It must be learned from the registrant's proper division the registrant's serial thrompson.

Thompson

Greatest Aid Raid Attempted on Southern Front Comes to Grief.

FIGHTING IS SPECTACULAR

Italian and British Machines Engage Teuton Fleet of 25 Flyers and Nearly Half of Assailants Are Brought Down.

(By the Associated Press.)
ITALIAN ARMY HEADQUARTERS
IN NORTHERN ITALY, Dec. 27.—One
of the greatest air raids the enemy has attempted on this front came to grief yesterday when nearly half a fleet of 25 airplanes was destroyed, with an ex-tensive list of killed or wounded. The big fleet swept over the camp vest of Treviso at 6 o'clock yesterday morning, flying low and discharging machine guns. Considerable damage was done. Notwithstanding the sur-prise, the Italian and British machines were soon in the air and engaged the enemy at close quarters. The fighting was most spectacular, eight of the enemy cars being brought down, six of them falling within the Italian lines. The other machines beat a hasty re-

The raiders, however, returned at 11 o'clock and several more were disposed of, two falling in this attack inside the Italian lines. An observer, who has just returned, says that the scene of the conflict is covered with wreckage of the enemy craft.

One of the machines brought down was a dreadnaught carrying three persons; the others carried two. All of these men were killed, wounded or captured.

Eugene Factory Sells \$27,500 Worth of Valve Grinders.

EUGENE, Or., Dec. 27.—(Special.)

The Veltum & Clow Manufacturing Company, of Eugene, has closed a contract with William Warnock, a banker of Sloux City, Ia., and Charles Worth, of Eugene, for \$27,500 worth of valve grinders, to be delivered at stated intervals. vals during the year 1918, according to an announcement made today. The contract is made with the provision that any machines wanted by the United States Government or by the allied governments shall be given pref-

The valve grinders, which are of special value in making automobile and aeroplane repairs, are being manufactured exclusively in Eugene. It is estimated that each grinder will do the work of four men. The invention has been adopted by the United States Army and shipments of grinders have been

Heliograph Work of C. T. Pierson.

C. T. Pierson, of 628 Halsey street, is the inventor of a new model trench periscope and heliograph instrument, which he intends to offer gratis to the Government. Mr. Pierson showed his invention to a number of Army officers yesterday, and they all spoke highly of the instrument.

The "vest-pocket periscope," as the inventor calls it, folds into a flat package, resembling a book 3x5 inches in dimensions and weighs only about a dimensions and weighs only about a quarter of a pound.

In action the instrument is designed to be fixed to the end of a bayonet and thrust above the trenches. A simple device enables the soldier also to use the periscope as a hellograph in send-

Husband, in Alaska, Unable to Be Present at Obsequies.

Mrs. Eugenia Kirn Rieger, wife of C. R. Rieger, who died December 20 in Los Angeles, whither she had gone for her health, was buried yesterday at Riverview Cemetery. The services were in charge of the East Side Funeral Directors.

Mrs. Rieger was 45 years old and was the daughter of Mr. and Mrs. Frederick Kirn, pioneers of Gervais, Or. With her husband she went to Fairbanks, Alaska, in 1898 and remained there until she recently fell III. Two months ago she went to Los Angeles. Mr. Rieger and their 15-year-old child were unable to come from Alaska for the obsequies.

TRAFFIC LAW ENFORCED

Many Violators of Ordinance Rounded Up by Motorcycle Squad.

The members of the day relief of the motorcycle squad had a busy time yesterday in rounding up violators of the traffic ordance. Seventy-six autoists, truck drivers as well as pleasure drivers, were held up for infringement of the law.

Motorcycle Officer O'Halloran led the quartet on the day relief. In his free-lancing about town he stopped 32 drivers for various offenses. Officer Schad followed with 22, all of whom were arrested at Broadway and Morrison street. Officer Litzenberg got 16 and Officer Russel six.

OREGON TO BUILD SHIPS

(Continued From First Page.) are men on the Pacific Coast prepared to undertake burdens in shipbuilding that do not coincide with statements attributed to Admiral Bowles, of the Shipping Board, that the wooden ship construction programme is a failure. Oregon's estimates on wooden ships do not take in the maximum expan-sion of all yards or assistance that may be lent by certain ones projected, with substantial and dependable back-ing, which hinge only on the willing-

ness of the board to grant contracts.
The estimates do include, however, 20 vessels for the French government to be built here, and exclude all private contracts.

One wooden vessel for the Government has been launched in the state under Government contract, the North the water from now on of the Federal Bend, on Coos Bay, and all to take type will count on the piedge made.

WAGE CONFERENCE STARTED

Strike of 30,000 Iron Workers Is Threatened if Rise Is Denied.

SAN FRANCISCO, Dec. 27,—Conferences were undertaken today by Mortimer Fleishhacker, Federal mediator for disputes affecting war work on the Positic Court in the borner. the Pacific Coust, in the hope of speedly clearing away differences in the demands of approximately 15,000 ironworkers of San Francisco and the bay district for a 10 per cent wage

crease. Representatives of the workers went

Representatives of the workers went into consultation with Mr. Fleish-hacker and Captain A. F. Pillsbury, Coast representative of the Emergency Fleet Corporation. A conference with the employers will follow.

Only 4625 men walked out yesterday, according to R. W. Burton, president of the Iron Trades Council, but the entire 30,000 members of the affiliated unions will stop work if their demands are refused, he added.

The demand for a 10 per cent in crease followed the granting to shipbuilders of a similar 10 ; cent in addition to a 31 per cent rise for all employes of structural iron plants formulated by the United States Shipbuilding Wage Adjustment Board.

INVENTOR WINS FORTUNE

COURT AWARDS THREE YEARS OF ROYALTIES.

Michael Wald, of Eugene, Succeeds in Suit Against Manufacturing Concern in Ohio.

EUGENE, Or., Dec. 27 .- (Special)-Michael J. Wald, of Eugene, may collect a fortune in royalties from the Miami Cycle & Manufacturing Company of Ohio, as a result of a decision handed down by the United States District Court for the Southern District of Ohio. A copy of the decision was re-ceived today by Attorney L. E. Bean. The court grants injunction restrain-ing the company from equipping blcy-cles with a coaster-brake, which is held to be an intringement on a brake invented by Wald, and makes provision for an accounting to the court of profits which have accrued as a result of the equipment of bicycles with the coaster-brake in question during the years 1915, 1916 and 1917.

The Miami Cycle & Manufacturing

years 1915, 1916 and 1917.

The Miami Cycle & Manufacturing Company is one of the large manufacturers of bicycles in the United States, having an output of from 100,000 to 175,000 bicycles annually. Wald is a mechanic employed by the Eugene Gun Company. He never marketed his invention and after obtaining his patent, used it only in equipping bicycles which used it only in equipping bloycles which

company contended that the coaster-brake involved old principles and was not patentable. The court held the patent valid, as the inventor, by a combination of old elements, obtained a new and useful result.

PLANS TO WATCH ALIENS

Effective System Adopted to Keep Check on Enemies.

Keep Your Children From Playing with Disease

Children romp all over the house. They play games on the floor. Is the floor free of disease germs? Is every part of the house rid of the danger?

Germs do enter the cleanest homes just as dust does. Ordinary scrubbing does not kill these germs. Where a few germs have lodged ordinary moisture and heat breed them into millions lying in wait for the playing children.

Rids the home of this menace. Make all scrubbing-water a solution of Lysol. This disinfectant kills all germs the instant it touches them. Use it in scrubbing sunless corners and in cleansing the toilet, defective plumbing, the sink and in the garbage can. Lysol is economical. A 50c bottle makes five gallons of germ-destroying solution, 25c bottle makes two gallons. Lysol is invaluable for personal hygiene. In 25c, 50c, and \$1.00 bottles. Full directions with each.

Lysol Toilet Soap Contains Lysol, and therefore fection. It is refreshingly sooth-ing and healing and helpful for improving the skin. Ask your dealer. If he hasn't got it, ask him to order it for you.

Lysol Shaving Cream Contains Lysol, and kills germs on razor and shaving - brush (where germs abound), guards the tiny cuts from infection, and gives the antiseptic shave. your dealer hasn't got it, ask him to order a supply for you.
