DENTAL CORPS OPEN

Students Particularly Urged to Join Reserve.

DRAFTED MEN ELIGIBLE

Instruction from Surgeon-General Detailing Method for Enlisting for Special Work Received by Dental College President.

Instructions from the office of the Surgeon-General, United States Army, covering the enlistment of dentists and dental students in the Medical Enlisted Reserve Corps. Mr. Miller, president of the North Pacific College, The instructions point out the method to be followed by dental students and graduates subject to the draft regulations so as to put themselves in the proper classification and to give the Government information which will be valuable to it at the proper time. The instructions in part are:

Dentists who are registrants under the selective service regulations are eligible for enlistment in the Medical Enlisted Reserve Corps. The object of this provision is to enable the military authorities to place them in the military service of the Nation where their experience and training can best be utilized. Since their dental education has been completed, it will not be the policy of the Surgeon-General to leave them on inactive duty and they may expect to be called to active duty as soon after enlistment as their services can be utilized in the Medical Enlisted Reserve Corps. Where practicable they will be assigned to duty in the dental service. As enlisted men they will still be eligible to apply for commissions in the dental service, and will be placed on active duty under their commissions when their services as officers are required. There is not the same urgency for dentists to enlist promptly in the Medical Enlisted Reserve Corps as in the case of dental students, since temporary exemption from the draft is not needed for the completion of their training. They should, however, enlist before they are liable to be called by their local board for military service if they

wish to insure their assignment to the Medical Enlisted Reserve Corps. A dentist who wishes to enlist in the Medical Enlisted Reserve Corps may present himself for enlistment to any recruiting officer of the Army.

He should submit to the recruiting officer a written application for enlistment in the Medical Enlisted Reserve Corps, addressed to the Surgeon-General. This applicant should give his full name, address, the name of the dental school of which he is a graduate, and the year of graduation; the address and number of his local board, and his "order number." This application must be accompanied by an affidavit from the dean of the school from which he graduated, or from the authorized dean of the dental school, before a notary public. This affidavit shall certify that he is a graduate of the school, and shall give the year of his graduation and the degree received. After being placed in the Enlisted Reserve Corps of the Medical Department, the registrant should obtain a certificate stating the address and number of his local board, and the registrant shall be placed in Class V on the ground that he is in the military service of the United States. There is no other ground upon which such persons may be placed in a deferred classification.

ANOTHER WOMAN IN CASE

MRS. CHARLES D. WAIRD SUES FOR SEPARATE MAINTENANCE.

Several Other Mismatched Couples Ask Courts to Restore Harmony Through Divorce.

That her husband is infatuated with a Mrs. K. B. Lundquist and is endeavoring to have her procure a divorce in order that he may wed the "other woman" is alleged by Mrs. Charles D. Waird, wife of a Portland dentist, who yesterday started suit for separate maintenance of \$100 a month. She will not ask for a divorce decree and thus give her husband his chance to marry Mrs. Lundquist, as she alleges he desires to do. The plaintiff asserts her husband earns from \$45 to \$55 a week, and is well able to provide the separate maintenance which she seeks.
