

LABOR ADVISORY COUNCIL CHOSEN

Six Men, One Woman Appointed to Help Solve Problems Growing Out of War.

LIND APPOINTED CHAIRMAN

Federal Employment Service Announces That Within Six Months It Will Furnish Approximately a Million Workers.

WASHINGTON, Jan. 15.—Six men and one woman were named by Secretary Wilson tonight to form the advisory council that will assist in the administration of a war labor programme entrusted to the Department of Labor by the President.

John Lind, ex-Governor of Minnesota, is chairman of the council and representative of the public and the other members are:

Representatives of employers—Wadsworth C. C. Catchings, president of the St. Louis-Seattle Steel & Iron Company, Birmingham, Ala., and of the Platt Iron Works, Dayton, O. (chairman of the war committee of the Chamber of Commerce of the United States), and A. A. Langdon, general manager of the American Radiator Company (vice-president of the aircraft production board and president of the Buffalo Chamber of Commerce).

Representatives of employees—John B. Lennon, of Illinois, treasurer of the American Federation of Labor, and John J. Casey, of Pennsylvania, former member of Congress.

Economist—Dr. L. C. Marshall, of the University of Chicago.

Representative of women—Agnes Nestor, of Chicago, president of the Woman's Trade Union League, member of the defense council, and a committee and former president of the Glove Workers' Union.

Popular Demand Recognized.

In a statement announcing the appointments, Secretary Wilson said:

"The popular demand for a National labor administrator was in effect granted today when Secretary of Labor Wilson assumed the administration of a comprehensive war labor programme and appointed a National labor board of six men and one woman to be known as the advisory council, to assist him.

"The labor administrator and his advisory council will at once take in hand the questions of standardization of labor policies, the providing, distributing and maintaining of a stable and adequate supply of workers; labor dilution and training; priority demands; the adjustment of disputes and the safeguarding of employment, living and housing conditions. The advisory council will study all phases of the problem, make recommendations and plans for additional machinery and supervise their execution.

Employment Service Expanded.

"The United States employment service, now a separate bureau, is already being expanded to carry out the work of economic distribution of workers."

Employers and workers alike were called on today by the employment service for aid in recruiting industrial workers.

"Within the next six months," the service announced, we must furnish approximately 1,000,000 workers for agriculture, nearly 400,000 for shipbuilding, 100,000 to man the ships, 250,000 for transportation and 250,000 for the manufacture of munitions. Other industries will call for a similar number."

PRO-HUN GERMS AVOIDED

Vancouver Elks Refuse to Welcome German Sympathizers.

VANCOUVER, Wash., Jan. 15.—(Special.)—"Do not expect a brotherly welcome if you are carrying pro-Hun germs around. Does this mean you?"

This is the significant statement on the blackboard in the Elks' clubrooms of this city.

The Elks are always loyal to their country, but occasionally there is one who talks too much, and it is to stop this that the warning has been posted.

English Officer Is Wounded.

SALEM, Or., Jan. 15.—(Special.)—Word has just come here that Brigadier-General T. Wigan, D. S. O., of the British army, was seriously wounded at the siege of Jerusalem. He is a partner in the top firm of Wigan & Richardson, of London, one of the largest in the world. The company has offices here and before the war General Wigan was a frequent visitor to Salem. He twice before has been wounded in the war, once at Gallipoli Peninsula and once during a campaign in Mesopotamia. General Wigan is owner of an immense hop ranch near Independence, said to be one of the largest in the country.

Easy to Make This Pine Cough Remedy

Thousands of families swear by its prompt results. Inexpensive, and serves about 200.

You know that pine is used in nearly all prescriptions and remedies for coughs. The reason is that pine contains several peculiar elements that have a remarkable effect in soothing and healing the membranes of the throat and chest. Pine is famous for this purpose.

Pine cough syrup are combinations of pine and other ingredients, such as sugar, and are sold in bottles and jars. You can easily make it yourself in five minutes.

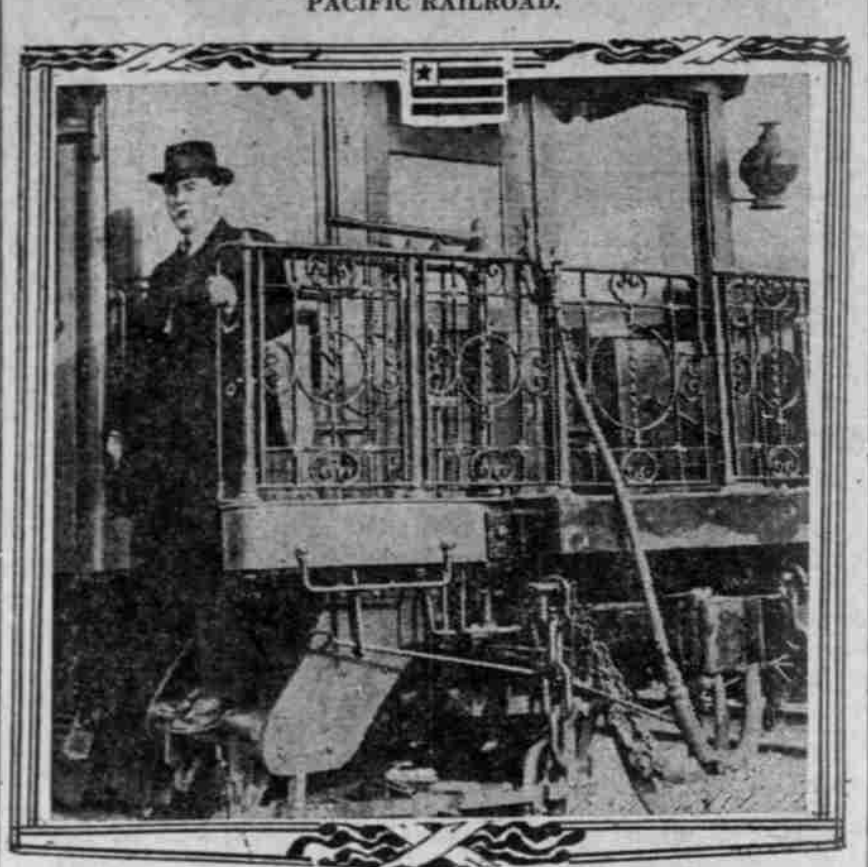

To make the best pine cough remedy, you can buy ready-made for \$2.50. It is pure, good and very pleasant—children take it eagerly.

You can feel this take hold of a cough or cold in a way that means business. The cough may be dry, hoarse and tight, or may be persistently loose from the formation of phlegm. The cause is the same—inflamed membranes—and this Pine and Syrup combination will stop it—usually in 24 hours or less. Splendid, too, for bronchial asthma, hoarseness, or any ordinary throat ailment.

Pine is a highly concentrated compound of genuine Norway pine extract, and is famous the world over for its prompt results.

Beware of substitutes. Ask your druggist for "250 ounces of Pine" with directions, and don't accept anything else. Guaranteed to give absolute satisfaction or money promptly refunded. The Pine Co., Ft. Wayne, Ind.

ENGINEER WHO DIRECTED CONSTRUCTION OF WILLAMETTE PACIFIC RAILROAD.

H. P. HOEY.

ROAD IS COMPLETED

Willamette-Pacific Offices in Eugene Closed.

TOTAL COST IS \$11,000,000

H. P. Hoey, Engineer in Charge, to Go to San Francisco as Assistant to Chief Engineer of Southern Pacific System.

EUGENE, Or., Jan. 15.—(Special.)—The closing of the Willamette Pacific Railroad offices in this city today marked the actual completion of the greatest railroad project in Oregon in recent years.

H. P. Hoey, engineer who directed the building of the 12.5 mile road, at a cost of approximately \$11,000,000, will go to San Francisco as assistant to Chief Engineer William Hood, of the Southern Pacific system. Maintenance and minor construction projects are the only matters which are likely to occupy the attention of the railroad builders until after the close of the war.

While the Willamette Pacific was opened to traffic a year ago last summer, the odds and ends requiring the attention of the engineering force necessitated the maintenance of the construction organization. Much of the recent work has been almost within the city of Eugene, including extensive yard improvements. The Willamette Pacific Railroad Company was incorporated in 1905. The first actual construction began in November, 1911, a little more than six years ago.

Features of the construction of the road were the large amount of tunneling, trestles and steel bridge required. The great draw bridge over Coos Bay, almost a mile in length, is one of the longest bridges in the Northwest and cost \$1,000,000. Other draw bridges which will admit the passage of ocean-going vessels were built at Cushman, on the Siuslaw, and at Redport, on the Umpqua. A total of five and one-half miles of permanent trestle and 29 steel bridges, aggregating one and six-tenths miles in length, were erected. The aggregate weight of the steel in the bridges being \$100 tons.

There are nine tunnels on the line, aggregating two and six-tenths miles in length. The approximate tonnage in track alone is 18,000 tons and 50,000 barrels of cement were used in the construction of bridges, piers, abutments and culverts. Over 20,000,000 feet of Oregon fir lumber was used in the construction of the bridges, buildings, trestles and in the ties used and the yardage of earth, rock and material moved, exclusive of tunnel yardage, was 7,000,000 cubic yards.

The road is built with easy grades and high curvatures, conforming to the construction of trunk line railroads. The business over the new road has been far beyond expectations. It has developed into a big factor in Oregon's participation in the Nation's war plans, tapping valuable spruce region and also opening greater opportunity for shipbuilding on Coos Bay.

ALBANY EDITOR ASPIRES

W. H. HORNIBROOK CANDIDATE FOR NATIONAL COMMITTEEMAN.

Democrats of State Urge Former Minister to Slam and ex-President of Idaho to Run for Place.

ALBANY, Or., Jan. 15.—In a joint letter signed by the state committee and executive officers of the Democratic central committee of Linn and Benton counties, the name of Will H. Hornibrook, publisher of the Albany Daily Democrat and ex-United States minister to Spain, is presented as a candidate for the office of Democratic National Committeeman for Oregon. The letters were mailed today to members of the State Central Committee and to the executive officers of the various county committees.

Democrats of the Willamette Valley, as well as other sections of the state, have asked Mr. Hornibrook to become a candidate for this position, and he permitted the announcement today.

Mr. Hornibrook is a member of the Democratic State Central Committee from Linn County, as secretary of the state organization, and as president of the Willamette Valley Press Association, prior to his appointment to the diplomatic service.

Prior to coming to Oregon, he published a Democratic newspaper at Twin Falls, Idaho, and served in the Idaho State Senate.

PORTLAND IS GIVING FREELY FOR "HITS"

Knights of Columbus Wind Up First Day's Drive for \$50,000 War Camp Fund.

CAUSE OF SOLDIERS WINS

"Every Dollar for War Work" Is Slogan, and Not Penny to Be Used for Any Other Purpose; Lack of Sufficient Workers Felt.

Speakers in nine theaters in the city last night wound up the first day's drive of the Knights of Columbus, which has for its object the gathering of \$50,000 for their war-camp fund, and the response made was in line with that experienced in all sections of Portland, generous, patriotic citizens giving freely toward a cause that insures for the men in the Army comforts and entertainment, no matter where they go.

When the tabulating machines finished counting the returns last evening, the figures showed \$12,000.68 toward the \$50,000 war work fund to be raised. J. N. Day, the general, and Guy W. Talbot and John E. Cronan, the colonels, are pleased with the showing. The leaders at headquarters are now convinced that the war fund will "go over the top."

The Knights are following the flag, the same as the Y. M. C. A., and where there is a camp there will be a hut to keep it company.

The workers of charity they could not have been accorded more encouragement that that received yesterday.

Only one man was reported by the teams as having refused to recognize the cause of the soldiers.

Fred Burgard was in charge of the theater drive last night, and as he has qualified as a volunteer in that because of previous drives, his team of orators found ready listeners.

Small Subscriptions Many.

The first day's return was characterized by comparatively small subscriptions. The workers went among those of the populace who fully appreciate the importance of backing up the recreation programmes at all camps. Those who have brothers, husbands, sons and sweethearts either in the United States, preparing to go overseas, and those who know well their relatives and friends are now now for the silver dollars found their way into the hands of the team workers and those directing the drive are sanguine following days this week will tell the same story.

Illustrative of the spirit with which the Knights and their helpers are receiving the showing made by women, who are doing their share under the leadership of J. P. O'Brien, they reported last night a total of \$1217. At the Postoffice, in banks, department stores, entrances of buildings and other points, where the passing throngs were in the way, the women, on hand to put forth the worthy objects of the drive. Tireless and enthusiastically they are doing their full share and the workers are regarded by them as full compensation for the initial day.

Paper Money Predominates.

"Greenbacks came in by the bale," was one of the remarks made on the second floor of the Morgan Building. In fact, those handling the money opine that the "hard pieces," as they term gold, have about disappeared. For paper money and silver predominate.

In their canvass of the city team captains and workers report that it is apparent that the masses are the heart and soul in the objects of the campaigns for bettering the conditions of the fighting forces, for among managers of Chinese and Japanese restaurants and bus and house, and hand stores of other nationalities, the proffer of aid was "he same."

John C. English, who is playing a leading part in the campaign, talked in the Rotary Club at noon yesterday, with the result a subscription of \$25 was voted from the Club's fund and the money was turned over to the hands of a woman worker at the door until \$75 was received.

Street Talks Raise Funds.

At Sixth and Alder streets, where speakers have included John H. Stevenson, Joseph L. Hammerley, Roger B. Sinnott, J. B. Easter, George W. Caldwell and Arthur L. Moulton, response to the call for assistance has been wonderful. Mr. Moulton made a stirring talk there yesterday noon and made it plain that religion plays no part in the general welfare work being carried on; that the Knights of Columbus and Y. M. C. A. are in one campaign and work in harmony in every respect. Mr. Easter, on mounting the platform, proposed that the men match a dollar greenback to the dollar raised in ten minutes he received \$10, while a considerable amount of smaller denominations were deposited.

John H. Burgard, who is among the most zealous workers in the big organization, said yesterday that he had given two sons to the cause of humanity and democracy, so any worldly assistance he could offer could not be gauged by monetary value, for the welfare and safe return of his boys was above everything else. Mr. Burgard said he could not fathom why all should not be hastened to give toward the safety of the men in the forces going abroad.

Industrial Plants Visited.

Ray McNichols, business agent of the shipyard workers, has returned to the city from Coos Bay, accompanied by Joe McKenna, in the drive among industrial plants. Both men are widely known, and with employers and employees they are fully expectant of cordial assistance.

Probably no feature of the drive is more pleasing so far than the receipt from Camp Lewis of about 75 indorsements, officers and men alike going.

MAYOR GILL TO RUN

Declaration of Candidacy for Another Term Filed.

CAMPAIGN IS OUTLINED

Seattle Executive Gets Ready to Fire Broadside at Political Enemies.

Inside Facts to Be Exposed During Campaign.

SEATTLE, Wash., Jan. 15.—(Special.)—Mayor Hiram C. Gill today set aside all doubt as to his intentions to run for another term by filing his declaration of candidacy. The operation cost him \$75.

The Mayor said that he planned a precinct campaign, where he would take the people into his confidence concerning some things of recent happening in Seattle. It is known that he has been storing ammunition for several months that will be sent in broadside at his enemies, and there will be an airing of inside facts not hitherto exposed to light.

While planning his campaign, Mayor Gill also is making arrangements to take up permanent residence on a chicken farm in the Rainier Valley. His city residence, built by him three years ago, has been the subject of litigation during the past six months.

CORN SUPPLY IN DANGER

Immediate Appointment of Experienced Executive Urged.

WASHINGTON, Jan. 15.—Priority orders have been issued against corn to such an extent that a "large part of the Nation's bumper crop of 1917 is threatened with serious deterioration, if not destruction, Direct-General of Railroads McAdoo was told today by Representative McCormick, of Illinois, who, backed by a letter from Food Administrator Hoover, urged immediate appointment of a railroad executive experienced in handling corn shipments.

Mr. McAdoo took the matter under advisement.

M. O. Wevey Buried.

The funeral services of Mons O. Wevey were held yesterday at 1 o'clock in the chapel of J. P. Finley Son, Rev. M. A. Christensen officiating. Interment was made in Mount Scott Park Cemetery. Mr. Wevey is survived by his widow, Mrs. Marie Wevey, and daughter, Mrs. F. W. Hollister, of Portland.

My Sore throat feels better, Mother.

Dr. King's NEW Discovery for Coughs & Colds

has been easing sore throats in all parts of the country for 50 years. It is the national cough and cold remedy. Containing balsam it soothes, heals and reduces inflammation and congestion. Breaks up the fever, too, and cools the raw spots. The kiddies like it. Give Dr. King's New Discovery to croupy children.

Get it at your druggist

Keep Bowel Movement Regular

Dr. King's New Life Pills keep you in a healthy condition. Rid the body of poisons and waste. Improve your complexion by keeping the Bowels regular. Get a bottle from your druggist to-day. Effective but mild.

NO QUININE IN THIS COLD CURE

"Pape's Cold Compound" Ends Colds and Grippe in a Few Hours.

Take "Pape's Cold Compound" every two hours until you have taken three doses, then all gripe misery goes and your cold will be broken.
