PEACE CRY DELAYS HERTLING'S SPEECH

German Militarists Seek to Conciliate Opponents Before Going Ahead.

Vienna Paper Says Von Buelow Is Intriguing to Get German Chancellorship, and Denounces Him as Traitor to Austria.

LONDON, Jan. 18 .- According to a telegram received in London, German Chancellor Count von Hertling has again postponed the speech which he

again postponed the speech which he was to have made today in reply to the definition of war aims by President Wilson and Premier Lloyd-George.

The report that the Imperial Chancellor for a third time had postponed reply caused no great surprise here, for while it was fairly certain that the German militarists had won over Emperor William to their side and annexation of occupied territories was the policy to be pursued, the advocates of policy to be pursued, the advocates of a peace by negotiation, which include most of the Austro-Hungarian leaders, must be conciliated.

Annexationists Are Opposed.

The militarists have the support of the junkers and the war profiteers, but on the other side are the Socialists and a large proportion of the working classes and of the moderate middle class, of which the Berliner Tagebatt is the spokesman, and the financial interests represented by Dr. Bernard Daraburg and the Frankfurter Zeitung, which have been emphatic in their dewhich have been emphatic in their de

nunciation of the annexationists.

The attitude of the Austrians may be gathered from an article published in the Fremdenblatt of Vienna, organ of Count Czernin, the Austro-Hungarian Foreign Minister, which sharply deals with rumors that Prince von Buelow is engaged in intrigues against Count von Hertling in order that he may be-come German Chancellor. The article denounces Von Buelow as a traitor against Austria-Hungary, saying that he offered Italy Austro-Hungarian territory, and also gives expression to the diseatisfaction of the Austrian govern-ment with the agitation of the German annexationists for the incorporation of the great Polish districts in the Ger-man Empire, which, it asserts, would be a blow at Austrian interests.

Governor Proposes to Use Recently Organized Militia for Guard Purposes.

Request That Men Be Sent From Camp Lewis to Look After Shipyards Turned Down by Secretary of War Baker.

SALEM, Or., Jan. 18 .- (Special.)-After the Federal Government, through Secretary of War Baker, had rejected a suggestion of Governor Withycombe that men be sent from the cantonments at Camp Lewis to guard the mill, warehouse and shipbuilding properties at Portland, the executive announced to-day that he would seek the men available in the recently organized Oregon militia to serve at such pay as the state is able to give them. The Governor states that in the event funds for this purpose are inadequate, rather than to call a special session of the Legislature he will appeal to the Emergency Board. gency Board.

"I have been corresponding with Sec-retary Baker for some time relative to the transfer of men from Camp Lewis to the mills, warehouses and shippards of Portland," said the Governor today in explaining his action. "My proposal was that the men could be sent to Portland in relays for shifts of short duration, and suggested that the change from camp life to the guard duty in Portland would be interesting duty in Portland would be interesting and beneficial to them.

BANKERS SAY LOCAL CONDITIONS WILL NOT BE DISTURBED.

Large Mercantile Firms Predict Little Inconvenience Aside From Possible Delay of Deliveries.

Aside from inconvenience that will be felt later, by merchants who await delayed orders, or various industries which have placed orders for equipment now in process of manufacture, the Federal Fuel Administration's or-der for five days' fuel holiday in the East will not create much of a ripple

in Portland business circles.

Various Portland bankers expresses doubt that local conditions would be appreciably disturbed by the effect of the order, through the communication of commercial channels, and agreed that its field of operation and period of duration are such that Portland scarcely will notice it.

As for the telegraph companies, both the Western Union and the Postal feel confident that it will accelerate their ply houses, in inquiry concerning or-ders already placed and probable dates of shipment, and in explanation of the delay necessitated by the Fuel Admin-

Istration's decree.

The larger mercantile firms of Port land say that their business will not b hampered for the present, through the effect of the order, but that within short time a slackening up in deliveries will be felt, due to the inability of Eastern houses to meet the orders or time. This, however, will not be of a

erious nature, it is said.

Many business men said yesterday that it is too early to speculate on the probable effect of the order, but that the next few days will produce an effect, if one is to be noticeable.
