

How Can We Live Better on My Salary?

That is the question that every thinking man of family is asking himself today.

If every family will study the methods of this store, the answer to the food part of that question is ready.

With the help of thousands of regular customers, we are working on what is practically a co-operative plan. We buy immense quantities of food, the best the markets afford, and we sell them for cash. In order to hold our trade so that we can keep our place as master buyers we must keep our faith with you.

Simple, isn't it, when you figure it out? That is why this store never offers inferior goods as "bargains"; that is why it never permits any substitutes; that is the real reason why you can buy only the best foods here—and buy those for less. THAT IS WHY YOU CAN LIVE BETTER AND SPEND LESS by co-operating with us and the thousands of your neighbors.

ALIENS ARE ADVISED

Attorney-General Issues Information to Germans.

REGISTRATION MADE CLEAR

Photographs of Registrants Required and Thumb-Prints Also as Means of Identification—Care Urged in Filling Out Blanks.

Attorney-General Gregory has issued general instructions for the information of German aliens who must register either with the Chief of Police or the Postmaster between February 4 and 9, both inclusive. These instructions are designed to inform those covered in the registration that has been ordered and are expected to simplify that registration when it is made.

The instructions, which should be read by every unaturalized German resident of this country over 14 years of age, follow:

"Persons required to register should understand that in so doing they are giving proof of their peaceful disposition and of their intention to conform to the laws of the United States.

"Every registrant should read carefully the form of registration affidavit handed to him and ask the registration officer for explanation on all points not clear to him before attempting to fill out the blanks. Registration officers are instructed to give registrants all possible aid in the way of explanation and advice.

Photographs Are Required.

"Each registrant is required to furnish four unmounted photographs of himself, not larger than 2x3 inches in size, on thin paper, with light background. All four photographs should be signed by the registrant across the face of the photographs, so as not to obscure the features, if the applicant is able to write.

"Three blank forms of registration affidavit must be completely filled out by the registrant or his representative (with the exception of the blanks indicated to be filled out by the registration officer and the description of the registrant and the placing of finger prints on the blank) and must be produced by the registrant personally to the registration officer and be signed and sworn to by the registrant in the presence of and before the registration officer, who will fill in the description of the registrant and supervise the fixing of the finger prints and the attaching of the photographs. If the registrant cannot write he must make his mark in the signature space and affix his left thumb print in the space provided opposite the signature space.

Military System Followed.

"The finger printing is a method of identification and follows the practice observed in the military and naval service of the United States.

"The registrant is hereby informed

that he must again present himself before the registration officer who took his oath after ten days, but before 15 days from the last day fixed for registration in his registration district to obtain a registration card, upon which he must sign his name, or make his mark, and place his left thumb print in the presence of the registration officer.

This is Oleomargarine Year

Armour's GLENDALE Oleomargarine

The Food Problem Will Be With Us Every Day for Many Months to Come

Glendale is one solution of the problem. Food specialists say fats should be added to vegetables to make them a properly balanced diet. In Glendale Oleomargarine you get the same nutrient fats as in butter—the same food value, the same heat-energy—at a saving of several cents a pound. Try it as a spread for bread, hot rolls, waffles, and pancakes. Serve it on a big baked potato.
