HOW TO KEEP WELL BY DR.W.A.EVANS.

Questions pertaining to hygiene, sanitation and prevention of diseases, if matters
of general interest, will be answered in this
column. Where space will not permit or the
subject is not suitable, letters will be personally answered, subject to proper limitations and where stamped addressed envalope is inclosed. Dr. Evans will not make
diagnosis or prescribe for individual disceases. Requests for such service cannot
be answered.
(Copyright, 1916, by Dr. W. A. Evans,
Published by arrangement with the Chicago
Tribune.)

A N unusually vigorous man, well be-

what makes the situation worse is that the disease is getting worse. The modern treatment of pneumonia is no better in its results than the blood letting treatment of the days of George Washington. The highest priced skill of the most renowned city doctor gives no better results than the "yarbs" of the "yarb" doctors of Elbert Hubbard's McLean County days.

A late discovery may be paving the McLean County days.

A inte discovery may be paving the way for better things. Pneumonia is known to be contagious. The cause is not the mouth coccus found in nearly every mouth, but is a special pneumo-

coccus which one person catches from another. disease in many cities.

MORRIS BROTHERS, INC.

## **Municipal Bonds** Yielding 5 to 6 Per Cent

Bonds of municipalities have long been recognized as among the safest of investments; in fact, next to Government bonds in safety. You can buy such bonds today at prices which will yield from 5 to 6 per cent, either long or short maturities-much better than the average yield for municipal bonds during the last ten years.

By act of Congress and under the rulings of the Treasury Department the interest from municipal bonds issued in the United States is exempt from the Pederal Income Tax. Certificates of ownership are not required and individuals need not report the income to the Government.

We have a comprehensive list of municipal bonds which have been subjected to our customary careful investigation. These issues are secured by the taxing power of prosperous communities and we recommend them for conservative investment. We shall be glad to send circulars describing the issues in detail, if you are interested.

PHONE MAIN 3409

ieft side of the neck of my grandson is swollen and lumpy. It is about the size of a Brazil nut. The family physician ordered a flaxseed positice applied every night and morning. He says it will require six weeks to draw it to a head. The boy attends school, hence the positice is impracticable. Can you suggest a better remedy and give briefly your opinion relative to the cause and effect?"

The gland is producy tubercular. It is inadvisable to poultice a cubercular gland. Give the boy plenty of boiled milk and other good food to can Keep him in the open air as much as pristipe. Try to prevent the gland from breaking down by exposing it to sunlight (heliotherapy) or by treatment with a lamp. The boy should have tuberculin. If the gland has already softened it will be necessary to operate on it. The usual source of infection is drinking of milk from suberculous cows. The tonais should be kept in order.

Treatment Is Simple. W. E. O. writes: "Please tell me what causes tapeworm and also if there is any certain cure."

there is any certain cure."

REPLY.

The essential of a successful tapeworm treatment is proper preliminary preparation. This consists of complete emptying of the bowels and abstaining from solid food for three days before treatment. The usuff down of morn medectine for tapeworm is 1 drachm of liquid extract of male fern, to be repeated in two hours.

Help for the Baby. C. W. H. writes: "Our baby, 7 weeks old, has eczema. What is the cause— also the remedy?"

REPLY.

Probably the milk is too rich. If the haby is at the breast, have the mother eat less and girink more water. Try to get the baby to drink a little water before nursing. REV. W. E. RAMBO CALLED

Klamath Falls Pastor Sought by Ba-

ker Christian Church. BAKER, Or., Feb. 4.—(Special.)— The congregation of the Christian Church today extended a unanimous call to Rev. W. E. Rambo, of Klamath Falls, Or. Mr. and Mrs. Rambo will arrive here early in March to succeed Rev. C. H. Hilton, who goes to Rose-burg.

Rev. Mr. Rambo and his wife were for several years successful mission-aries in Indis, and since returning to this country have worked in the North-west with equal success.

cial.)-All claims of exemption granted cial.)—All claims of exemption granted to men married since May 18, 1917, will be appealed by Judge W. H. Tucker, Government appeal agent here. Mr. Tucker is acting upon instructions from the Government. Many men married since that date have been granted exemptions on the ground that they contemplated matrimony before that date.

Dust-Sown Wheat Does Well. MILTON, Or., Reb. 4.—(Special.)— Never in the history of this valley has Winter wheat given promise of better returns at a corresponding time of the season than it does now. Last Fail, owing to the late season, much grant was seeded in the dust and it correct in the dust and it seemed doubtful if all grain thus seeded would germinate. However, when rains did come they came copiously and the un-usually warm Winter was further con-ducive to growing grain. During the past two days a light covering of snow has failen and this is also welcomed by farmers.
