

HOOPER'S SUCCESS AMAZES BRITISH

Thousands of Tons of Meats in Excess of Estimates Secured in U. S.

GRATEFUL TRIBUTE PAID

Sir William Goode Comments on Great Results Accomplished With American People in Harbors of Conservation.

LONDON, Feb. 13.—Sir William Goode, who since the entry of the United States into the war has occupied the important post of liaison officer between the British food ministry and the United States food administration, discussed the present food situation in an address today to the London Rotary Club.

"Few people," said Sir William, "have yet grasped the fundamental fact that Great Britain still relies on the United States and Canada for 85 per cent of her essential foodstuffs."

"Unless we can get this food, or nearly all of it, we shall fall. As to how we get it, the popular idea seems to be that the United States is an up-to-date combination of miracle leaves and fishes and the widow's cruse."

"What I want you to realize is the amazing way in which the energies and sentiments of the American people have been harnessed to a great National movement of organized self-sacrifice, so that the allies can have food enough to carry on."

"The cynic will tell you," he said, "that it is ridiculous to imagine that the American people living in the midst of plenty will make such sacrifices for the sake of their allies thousands of miles away."

"The cynic will relegate President Wilson and Herbert C. Hoover to the category of well-meaning idealists. But these voluntary measures can be tested by results."

"Early last month we received from Mr. Hoover a cablegram saying he found that, as a result of the American conservation campaign he had 15,000,000 pounds of bacon and 25,000,000 pounds of frozen meat more than the British representatives in the United States had estimated as likely to be available."

"His offer was so unexpected that we had to hustle to get the finance and shipping for this winter and fall."

"Later on it turned out that the amount of frozen meat available was thousands of tons above the Hoover estimate."

"Except for the holdup of shipping in American ports due to congestion on the railways and bargeage our bacon and meat shortage would long since have been eased by these shipments, which represent only a small percentage of the total sacrifices of the American people."

"It is lucky for us that a man like Mr. Hoover is at the helm of the allied food supply and that he has a people willing to deny themselves so we may live to fight."

TEXANS PLEAD NOT GUILTY

Mayor of Fayetteville and Ten Citizens Accused of Seditious Conduct.

HOUSTON, Tex., Feb. 13.—W. C. Lashley and 10 citizens of Fayetteville, near here, pleaded not guilty here today before the United States Commissioner to charges violating the espionage laws. They were held under bonds totaling \$50,000. Their arrests followed the display over the entry of the Germania Club in Fayetteville of the German flag.

SACRAMENTO, Cal., Feb. 13.—Governor William D. Stephens signed today an application from the Washington State authorities for the extradition of William Amey, an alleged Industrial Worker of the World, under arrest in Los Angeles on a charge of putting Los Angeles on a strike by logging engines at the plant of a logging company at Gray's Harbor, Wash.

SAN FRANCISCO, Feb. 13.—Proceedings in the trial of 31 persons charged with conspiring to foment revolution against the National Army were resumed today, after a two weeks' recess necessitated by an epidemic of mumps and measles in the county jail.

CHICAGO, Feb. 13.—A test case to determine the status generally of aliens drafted into the National Army was argued today in the San Francisco Municipal Court. The government sought a writ of habeas corpus for Payoff Tinkoff, a camp now in the National Army, an alien who protested that his constitutional rights were endangered through his selection. Judge Landis refused the writ.

SAN FRANCISCO, Feb. 13.—Government agents investigating an alleged poisoning of more than 200 lambs in stockyards here, today questioned Basil Saffaris, who said he is in San Francisco on a petition for a writ of habeas corpus for Payoff Tinkoff, a camp now in the National Army, an alien who protested that his constitutional rights were endangered through his selection. Judge Landis refused the writ.

WASHINGTON, Feb. 13.—The House today yielded to the appeal of the State Department to drop the so-called "rotten condition" bill while treaty negotiations for the same purpose are in progress. Representative Flood, of Virginia, chairman of the foreign affairs committee, told the House there would be no second draft before next May or June 25.

NEW YORK, Feb. 13.—Paul C. H. Hennig, naturalized German, made emphatic protestations of loyalty to the United States while testifying in his own behalf in the Brooklyn Federal court jury trial of a munitions factory, which he formerly was a foreman. The gyroscopes were intended for use by the United States Navy.

On cross-examination Hennig declared both factory and Government inspectors at the munitions plant where he formerly was foreman were lax in the performance of their duties and that his relations with them became friendly because he repeatedly called their attention to imperfections in "gyro" parts which they had approved.

THREE RIVER FALLS, Minn., Feb. 13.—(Special)—A. C. Townley, president of the Non-Partisan League, for the arrest of whom he is on trial for charging conspiracy to discourage enlistments, declared here this morning that activities against the league were the result of a plot in which public officials were involved.

"Illegal Outrage" Alleged. He cited the alleged removal from Lakeland of James Manahan, attorney for the league, and said that the causing of Manahan to leave a client in the middle of a trial without counsel was an instance of "illegal outrages systematically conducted against the league."

Charging that league meetings had been broken up and agents arrested illegally, he declared: "Many of these law violations have been committed not actually encouraged by public officials."

Townley included the America First Association among agencies which, he said, were being used to make a political issue out of the campaign against the league.

He called the published charge under which the veterans' program was announced today by Fuel Administrator Garfield with the reservation that it may be put back into force before the ten weeks' period expires, if a return of bad weather brings another breakdown in railroad transportation.

At the same time Dr. Garfield gave state and federal authorities full authority to continue the closing order in territory under their jurisdiction if circumstances demand it.

The heatless Mondays were decreed by the fuel administration January 17 and four have been observed in all states East of the Mississippi except those south of Virginia. The order in the South was lifted last week.

The fuel situation everywhere, except in New England, has improved greatly within the last two weeks, Dr. Garfield said today. Reports from New England indicated that most of them think the situation demands further closing.

Director General McAdoo tonight gave out a statement endorsing the rescinding of the Monday closing order, but calling attention to the danger of further transportation difficulties from winter weather, and the consequent necessity of conserving coal and maintaining railroad embargoes on non-essential commodities.

Maryland Adopts Dry Amendment.

ANNAPOLIS, Md., Feb. 13.—The Senate today adopted the resolution ratifying the Federal prohibition amendment. The House previously had adopted it and it does not have to be signed by the Governor.

ORCHESTRA IN WRECK

TWO TRAINS CRASH TOGETHER HEAD-ON AT ELKO.

Musicians of Minneapolis Symphony Organization Safe; Nine Others Injured.

SAN FRANCISCO, Feb. 13.—A special east-bound train carrying the Minneapolis Symphony Orchestra, which has been touring the Pacific Coast, was struck head-on by a special west-bound train carrying Dutch colonists, at Elko, Nev., today, it was announced at the Southern Pacific Company offices here.

None of the members of the Symphony Orchestra was injured. Nine other persons were injured slightly.

ELKO, Nev., Feb. 13.—Nine persons were injured in the wreck near here today when a special train carrying Dutch colonists crashed head-on with an east-bound passenger train on the Southern Pacific Railroad.

Five of the Hollanders and four dining-car employees were hurt.

The colonists were en route to Java from Holland by way of New York and San Francisco.

REINALD WERRENRATH, the great baritone, who will sing at the Heilig Theater February 13th, makes records only for the Victor.

You will enjoy hearing him, but get at least one of his records and hear his wonderful renditions again and again at your pleasure.
