

OREGON KEEPS EYE ON MANY ALIENS

Ad Club Told That With Only About 2500 in State, Problem Is Lessened.

ESPIONAGE ACT DEFINED

Barnett H. Goldstein, Assistant U. S. District Attorney, Says That All Persons Deemed Dangerous Are Taken Into Custody.

Efforts of the Government in suppressing disloyalty and sedition were discussed by Barnett H. Goldstein, Assistant United States Attorney, at the weekly luncheon of the Portland Ad Club at the Hotel Benson yesterday.

"In dealing with this situation," said Mr. Goldstein, "the Government has to contend with alien enemies, while gladly reaping the benefits of American protection, still harbor in their hearts a sense of loyalty and devotion to their mother country, sufficient to render them dangerous to the National welfare, and unless suppressed, can be a source of constant menace to the safety of our Nation at this time."

"Oregon is further fortunate in that the number of alien enemies who are considered dangerous to the peace and safety at this time is comparatively small. As to the number we have arrested, paroled and interned, I am not privileged to say, but I can say that I believe that we have in custody all those who were likely to be at all dangerous. As regards the alien enemies, no one can be so sure as that the means available is ample to relieve any apprehension in your minds as to the facilities at hand being sufficient to cope with the situation."

Defining the scope of the espionage act, Mr. Goldstein said it provided a fine of not more than \$10,000 and imprisonment for not more than 10 years for any person who makes or conveys false reports or false statements with the intent to interfere with the operation or success of the military or naval forces of the United States, or attempts to cause insubordination, disloyalty, mutiny or refusal of duty in the military or naval forces of the United States, or attempts to obstruct or enlist the service of the United States to the injury of the service.

"Some persons still are laboring under the delusion that they can say anything they please and at any time, but they forget that while they can speak freely, they must be prepared to suffer the consequences," said Mr. Goldstein, speaking of the limits of free speech. "There must be no misunderstanding of the right of free speech. Free speech is guaranteed by our Constitution, but not by legislation. No law, no Congress and no legislation ever said that a man could say anything he wanted to and not be responsible for what he said."

"So objectionable criticism of the government for entering into this war, or criticisms of the draft act, the liberty loan and the Red Cross drives, all of which are absolutely essential to the success of our arms, come within the limitations of this law."

"Much that is ordinarily times may be clearly permitted, or even considered in this hour of National emergency, effort and peril may be clearly unreasonable, and therefore properly subject to review and repression. The constitutional guaranty of free speech carries with it no right to subvert the purposes and destinies of a nation."

"The United States is at war. It is organizing great military forces. It demands that these forces and each member thereof shall be loyal to the Government, and the Government cannot tolerate for a moment any attempt by anyone at any time and at any place to cause disloyalty, insubordination or refusal of duty."

Mr. Goldstein closed his remarks with the following: "It will be dealt with a firm hand of stern repression, but, if it will lift it only here and there without countenance except from a lawless and malignant few."

Sol Cohen Case Goes to Jury After Lawyers Wrangle Bitterly.

Extreme bitterness between opposing counsel featured the closing hours in the trial of Sol Cohen, charged with a statutory offense, before Circuit Judge Gates yesterday. The case was given to the jury at 2:30 P. M., but a verdict had not been reached late last evening.

Chief Deputy District Attorney Collier and Harrison Allen, of counsel for Cohen, exchanged heated personalities, in which Mr. Collier was charged with having a "yellow streak."

"You are yellow clear through," was Mr. Collier's retort. Frank Lonergan, in his closing argument for the defense, declared that Judge Gates had refused to direct a verdict of acquittal because he wanted to escape criticism from the District Attorney's office.

Salts in Hot Water Clears Pimply Skin

Says we must make kidneys clean the blood, and pimples disappear.

Pimples, sores and boils usually result from toxins, poisons and impurities which are generated in the bowels and then absorbed into the blood through the very ducts which should absorb only nourishment to sustain the body.

It is the function of the kidneys to filter impurities from the blood and cast them out in the form of urine, but in many instances the bowels create more toxins and impurities than the kidneys can eliminate, then the blood uses the skin pores as the next best means of getting rid of these impurities which often break out all over the skin in the form of pimples.

The surest way to clear the skin of these eruptions, says a noted authority, is to get from any pharmacy about four ounces of Jad Salts and take a tablespoonful in a glass of hot water each morning before breakfast for one week. This will prevent the formation of toxins in the bowels. It also stimulates the kidneys to normal activity, thus coaxing them to filter the blood of impurities and clearing the skin of pimples.

Jad Salts is inexpensive, harmless and is made from the acid of grapes and lemon juice, combined with lithia. Here you have a pleasant, effervescent drink which usually makes pimples disappear. It is the best and most excellent for the kidneys as well.—Adv.

BEGIN HOT WATER DRINKING IF YOU DON'T FEEL RIGHT

Says glass of hot water with phosphates before breakfast washes out poisons.

If you wake up with a bad taste, bad breath and tongue is coated; if your head is dull or aching; if what you eat seems to ferment in your stomach; if you are nervous, listless, constipated, nervous, sallow and can't get feeling just right, begin inside bathing. Drink before breakfast a glass of real hot water with a teaspoonful of limestone phosphate in it. This will flush the poisons and toxins from stomach, liver, kidneys and bowels and cleanse, sweeten and purify the entire alimentary tract. Do your inside bathing immediately upon arising in the morning to wash out of the system all the previous day's poisonous waste, gases and acids before putting more food into the stomach.

To feel like young folks feel; like you felt before your blood, nerves and muscles became loaded with body impurities, get from your pharmacist a quarter pound of limestone phosphate, which is inexpensive and almost tasteless except for a sourish twinge, which is not unpleasant.

Men and women who are usually constipated, bilious, headachy or have any stomach disorder, should begin inside bathing before breakfast.—Adv.
