Mayor Baker Completes Quiz Into Moral Conditions of Local Hostelries.

COUNCIL TO HEAR EVIDENCE

Forty Places Will Be Granted Conditional Permits-More Than 450 Hotels Investigated by May-

or and Police Officers.

Sixty-six hotels, rooming-houses and lodging-houses in Portland have fallen under the ban in Mayor Baker's invesmits or licenses necessary for them to

min or licenses necessary for them to continue in business under the pro-visions of the recently passed hotel and rooming-house licensing ordinance. The Mayor completed his investiga-tions yesterday and divided the hotels, rooming houses and lodging houses into three groups. The first contains Into three groups. The first contains the names of places that are considered of good moral character. The second class contains 40 names of places which will be granted conditional permits or licenses, these places having black marks, but not being of a character justifying their being ousted from business without another trial. The third class contains 66 names of proprietors and places which the police

say are nothing more or less than dis-orderly houses or bootlegging estab-lishments. In each of these cases there have been convictions in the Municipal Court. Each one of the places was carefully and thoroughly investigated by the police, Mayor Baker says, and the applicants were given the benefit of all doubts existing.

Council to Hear Evidence.

Under the license ordinance which was passed at the instigation of the Federal Government, the Mayor and Chief of Police are empowered to receive applications for licenses to conduct hotels, reoming-houses or lodging-houses, and these officials must investigate and recommend to the council either for or against the granting of ie license. Mayor Baker says that before he pre-

ats his final recommendations he shes the council as a whole to sit executive session and hear what the ments his final ice have to say about each of the 66 places which have falled to pass mus-ter. He has arranged for an informal meeting of the council for next Tueswhen the entire subject will be The hearing may last for several

The Mayor said last night that this course had been adopted in order that no injustice be done to any proprietor or place. He will not make public the names of the places or the proprietors who are among the 66 and will conduct the hearing before the council in such manner that no publicity will be given to the places questioned until after the whole preposition is settled.

mation, to an extent, 'It is the purpose to have tell just what they know in every casto the council in order that that body may be able to act intelligently.

"I will say that the subject of in-vestigating the 450 hotels and other places which have applied for licenses places which have applied for licenses under the new ordiance has been a tremendous one, and I have impressed on the police and others the necessity of doing no injustice. The list of applicants has been gone over time after time and the 68 which are held up are of a character that I could not consciously recommend favorably after hearing the police and seeing the recursion.

WASHINGTON, March 1 .- The money cost to the United States still is run ning near a billion dollars a month. Despite official forecasts of steadil) increasing expenditures from month to nonth, the Government's outlay in February, according to a treasury statement issued today, was slightly

less than in either January or December, and would have been approximately the same if the month had been as long as other months. Expenditures amounted to \$1,002,878. 688, of which two-thirds, or \$665,400,000, was in loans to allied governments.

The net balance in the general fund was swelled today to \$1,073,000,000, above the billion dollar mark for the first time since the middle of December, from the inflow of \$102,000,000 from the sale of certificates of indebt-edness of the current \$500,000,000 block

which will close next Tuesday. Lean Distributed in Bunks.

Customs and miscellaneous revenue have swelled the total ordinary receipts

The war savings movement has brought in \$76,000,000 in that hree nonths it has been under way. Total disbursements in the eight onths have been \$10,647,709,000, a lit-

le more than receipts. Of this huge sum \$3,811,556,000 has gone for internal expenses most of which was caused by the war, \$3,466. 329,000 in actual payments to the allies, \$14,000,000 for purchase of farm loan bonds and most of the balance for redebtedness issued in anticipation of liberty loan certificates.

The bulk of the funds now needed for Federal loans to farmers, about \$11,000,000 a month, is being supplied

This is due, mainly, it is said, to the desire of Treasury officials to avoid as much activity as possible in the investment market before the third liberty loan. It is for the same reason that sale of non-essential private securities is being discouraged, particularly due. is being discouraged, particularly dur-ing this month, immediately preceeding the loan campaign.
