

### EVIL SPRIT SAD TO HARASS JACK DUNN

Mother Blames Boy's Amnesia to Hypnotism, Sister Says. Horse's Kick Is Cause.

#### OPERATION IS SUGGESTED

Youth Who Wishes to Join Marines, but is Uncertain of Real Name or Birthplace, May Be Suffering From Brain Pressure.

Tracey Ellsworth "Jack" Dunn, is said to be either the victim of some enemy who holds strange, hypnotic powers over him, or else is suffering from a pressure on the brain which has caused an almost total loss of memory so far as his early childhood is concerned.

His mother believes that he is the victim of some dire hypnotic influence while his sister, Mrs. Hilma Diamond, 166 East Thirty-seventh street, believes that a piece of skull is pressing against his brain.

At any rate, his sister yesterday telephoned to Sheriff Hurlburt and asked if arrangements might not be made to give her brother a thorough examination to determine whether or not a skull operation might restore a memory which has become badly twisted.

Young Dunn, who is 22 years old, started Sheriff Hurlburt Wednesday when he appeared at the Courthouse and made the strange request that the Sheriff assist him in locating his real name and the date and place of his birth.

The boy's mother, who is a resident of Seattle and who is a spiritualist, met her son yesterday at the home of her daughter, Mrs. Diamond. The mother asserted her strong belief in the theory that the boy has been hypnotized and made to suffer his strange loss of memory by some enemy of the family.

She said yesterday that the boy had been kicked on the head by a horse in California some years ago and she thinks this injury has caused his present trouble. For this reason she is anxious that a careful skull examination be made in order that her brother might be cured and fulfill his desire to serve his country through enlistment in the Marine Corps.

It was said yesterday by Mrs. Dunn that the young man recognizes her at times as his mother and other times expresses doubt as to her real identity.

The same is true of his sister and brother, she said. Inasmuch as her daughter already has requested Sheriff Hurlburt to assist in restoring the boy to his proper mental condition, the mother returned yesterday to her home at Seattle.

Notices was first given to young Dunn's condition when he attempted to join the Marine Corps last week, but was refused enlistment because of his inability to give the date and place of his birth and the names of his father and mother.

The boy first gave his name as "Jack" Dunn, but his sister says his name is Tracey Ellsworth Dunn. When young Dunn told his story to Sheriff Hurlburt Wednesday he expressed the belief that Dunn was a name which was given to him by some family who had adopted him in early childhood, although it has since been learned that this is his true name.

Dunn said yesterday that he was her own son and not an adopted one. Sheriff Hurlburt will endeavor to have young Dunn undergo an examination and an operation if it is found necessary and proper arrangements can be made.

City Commissioner Keilhaber yesterday received direct information from several fishermen on the river in relation to the Columbia that members of the so-called trust, formed to keep fish prices up, have refused to live up to their promises as to purchases from the fishermen and that tons have been dumped back into the water.

Mr. Keilhaber was visited yesterday by several amlet fishermen, who told him that the situation had become such that they cannot longer dispose of their catches to the so-called trust and are now seeking a market elsewhere. "I told the fishermen," said Mr. Keilhaber, "that if they will send me their catches, I will do my best at disposing of them through the Municipal Market. I will place in cold storage all that cannot be sold while fresh."

Mr. Keilhaber reported the situation to W. B. Ayer, Federal Food Administrator for Oregon. "It seems to me," said Mr. Keilhaber, "that with a war going on and the need of food as pressing as it is, speculations should be suppressed and some way found to stop the practice charged."

SEWER SYSTEM PROPOSED  
Commissioner Barber Says Use of River Becoming Impracticable.  
An inter-wasting sewer system to carry Portland sewage to a central point below the city to be manufactured into fertilizer is a plan Commissioner of Public Works Barber has in mind. He said yesterday that while he will not attempt to have this work done immediately, he will have plans worked out and ready for execution at the close of the war.
