COATES PARTY HEAD

Nationals Elect Coloradoan as Their Chairman.

PENROSE DECLARED BOSS

Convention Sensation Created When Hopkins Declares Pennsylvania Senator Dominates and Controls Republicans.

CHICAGO, March 8.—David C. Coates, formerly Lieutenant-Governor of Colorado, an active figure in the Socialist party and one of the founders of the Non-Partisan League, was made chairman of the National party at the final session of its first convention here today.

His election, as well as that of all other officers, was without dissension and the ticket as finally adopted carried a representation of all of the several parties amalgamated with the new organization.

During the day a constitution was adopted and means of bringing about an influx of new members was taken up.

J. A. H. Hopkins, formerly New Jersey state chairman of the Progressive party, was elected chairman of the executive committee, and first vice-chairman of the party. Other officers elected were: Miss Marie C. Brehm, Long Beach, Cal., second vice-chairman; Charles E. Pitts, Chicago, secretary; and William F. Cochran, Baltimore, treasurer.

Landrith Gets Office. Two additional vice-chairmen will be elected by the executive committee. Ira Landrith, of Tennessee, was named chairman of the advisory committee.

An equal representation of men and women was made by the convention in pursuance of its policy to make equal suffrage one of the main planks of its platform. More than 50 women delegates have been attending the convention.

There was a mild sensation toward the close of the session when Vice-Chairman Hopkins, in his speech of acceptance, told the convention that Senator Boies Penrose "dominates and controls the destinies of the Republican party."

Victory in 1929 Predicted. Chairman Coates said that the function of the "two big political parties" is soon to end and that the new ideals and hopes of the American public had been exemplified by the National party. He prophesied National-wide victory for the new body in 1929.

Headquarters of the National party will be opened in New York and Chicago and at several other cities as rapidly as permanent organization is effected.

Although he has not been in attendance at the convention, Upton Sinclair was made a member of the advisory committee.

HOOD RIVER ORGANIZES

Preparations Made to Carry On Liberty Loan Campaign.

HOOD RIVER, Or., March 8.—(Special).—The intensive organization machinery of Hood River County for the third liberty loan was set in motion today following a luncheon at the Hotel Oregon when Truman Butler, county representative on the state central committee, local committeemen and district captains met in a conference with Blaine Hallock, assistant state executive manager.

The local drive probably will not be waged simultaneously over the entire county because of its coinciding with spraying periods of orchardists; but it was pointed out that spraying dates, according to altitudes, differ in different fruit sections, and bond solicitations will be concentrated on respective districts while growers are not engaged in the exacting tasks.

of the Government to conserve fats that are necessary for the underfed women and children of our Allies and for our "men in arms."

In the place of these much-needed animal fats, the Government recommends the use of vegetable fats, which are pure, nutritious and economical.

PEARL SHORTENING is such a product as the Government suggests, for it is composed largely of vegetable fat. What is more, it is a local product, which means that by its use we also conserve because it relieves railroad congestion and releases cars for other and very necessary purposes.

PEARL SHORTENING meets all your cooking needs both satisfactorily and economically. It is Government inspected—a guarantee of its purity. It is not a hog fat.

SERVIVORS OF JACOB JONES READY TO GO AGAIN.

Eight of Crew of Steamship Torpedoed and Ten Other War-Hardened Men Reach Seattle.

SEATTLE, Wash., March 8.—(Special).—Veterans of a war but a few months old, experienced watchers of a mine-strewn sea, survivors of the first of the Nation's fighting ships to be the victim of a German submarine, they have returned to embark on fresh attempts in behalf of the country's struggle against the oppressor.

Eight of them were among the 43 of the crew of the United States steamship Jacob Jones, which was torpedoed December 6, 1917, escaping death at sea and imprisonment by the crew of the German submarine, and ten others who were on destroyers of the fleet which patrolled the infested sea, stopped at the Soldiers' and Sailors' Club today. In the afternoon they proceeded to the Puget Sound naval station at Bremerton, where they will form a nucleus of experienced men in a crew of recruits which will man another destroyer soon to go into commission.

"There's nothing to tell," they said. Yet these men had been on board ships which had fought and sunk the invincible war tool of the Hun, and eight of them were from the first of the Na-
