Attorneys Believe Petition to Commission on Fare Decision Would Be Mistake.

ACTION OF COURT AWAITED

Should City Lose Case in Supreme Court, Application for Rehearing Will Probably Be Made to Public Service Body.

Plans of Mayor Baker to have the City Council once more petition the State Public Service Commission to reopen and reconsider the 5-cent streetcar fare decision, on the ground that conditions for the company may have improved, were aidstracked yesterday at the request of the attorneys representing the city in the present suit now before the State Supreme Court on appeal. They say such action on the part of the Council would be a strategic mistake and might jeopardize the city's interest.

atrategic mistake and might jeopardize the city's interest.

Accordingly Mayor Baker yesterday sent a letter to Edward Cousin, valua-tion expert employed by the city, in-structing him to familiarize himself with all features of the atrector fare situation, in order that the city might be properly prepared with information in asking for reconsideration of the increased fare proposition when the

in asking for reconsideration of the increased fare proposition when the court objections are removed.

Advice not to proceed with a request for reopening of the case was made by City Attorney LaRoche, which letter was concurred in by Martin L. Pipes and Wilson T. Hume, special attorneys retained in the case.

"Replying to your request for our views on the question of a rehearing."

Replying to your request for our views on the question of a rehearing of the Portland Railway, Light & Power Company 6-ceht fare case, says the letter. "beg to report that the appeal from the decision of the six judges is now in the Supreme Court of Oregon and the hearing of this case, we anticipate, will be had about the 18th of April and a speedy decision rendered.

Lawyers Advise to Wait. "Until this case is decided, which in-volves the question of the jurisdiction of the Public Service Commission, it is of the Public Service Commission, it is the unanimous opinion of all the law-yers representing the cuty in this case, that it would be a strategic mistake on the part of the city to take further action before the Public Service Com-mission to set aside its present order, as it would embarrass and lessen the chances of the city in the appeal now in the Supreme Court.

In the event the city should lose its case in the Supreme Court, we can then apply to the Public Service Commis-sion for a rehearing and if we have facts that will justify it, we may con-

about for a rehearing and if we have facts that will justify it, we may confidently expect a modification of the present order of the Public Service Commission. In the meantime, I would suggest that Mr. Cousins, traffic expert employed by the city, he set to work on the evidence and exhibits used by the Portland Railway, Light & Power Company in the 4-cent fare case before the Public Service Commission, so that he will be familiar with the record and in position to aid and assist the legal department of the city should a motion for a rehearing before the Public Service Commission be heard."

Mayor Writes Cousin.

On receipt of this letter Mayor Ba-er sent the following communication Mr. Cousin:

"Confirming my conversation with you. I am new requesting that you immediately familiarize yourself with the entire evidence introduced by the Port-land Railway, Light & Fower Company in its application for a 6-cent fare before the Public Service Commission of fore the Public Service Commission of Ocegon, and any and all other facts that may be accessible to you, so that you may be prepared to assist the legal department in an application for a re-hearing before the Public Service Com-mission in this case in the event the city should not prevail in the pending appeal in the Suprems Court of the state of Oregon testing the jurisdiction of the Public Service Commission to change franchises granted by this
