War was abhorrent to him and he looked with eagerness toward a day when it should cease for all time. He saw from the distance of America the turneoil that claimed Europe, saw his English brothers and kin join the colors, some of them to fall in France. German Crisis Recalled. Elsewhere it was thought to have een prompted by the critical situation which Holland finds herself with

Germany.

The embargo on tin and tin ore will prove especially embarrassing. Sup-plies needed for munitions and food preservation were expected to come from the Dutch East Indies, as the British are taking the entire output of the Straits Settlements.

Products Greatly Needed. Cinchona bark, quinine and quinine salts are needed for medicinal purposes salts are needed for medicinal purposes by the Army. Kapok is a vegetable product, used in making hammock mat-

product, used in making named instruments for the Navy.

The United States is almost completely dependent for tin on the outside world. It is probable that Bolivia now will be looked to for a supply.

Caiming similar ideals and moved by the same principles of right and justice, the Government and people of the United States are determined that the fullest possible measure of assistance shall be rendered to Greece and that her integrity be preserved and her rights secured in any final negotiations for peace that shall take place.
