

LEADING AMERICAN AVIATOR, WITH 17 GERMAN AIRPLANES TO HIS CREDIT, KILLED IN BATTLE WITH BOCHE TRIPLANE.

Major Raoul Lufbery Pitches to Death in Duel With German Triplane.

U. S. SEIZES AIR CONTROL

Intrepid Yankee Aviators Wrest Dominance of Sky in Toul Sector From Hun by Stiff Fighting.

PARIS, May 20.—Major Raoul Lufbery, the first American ace to be killed as the result of an aerial fight, was buried with full military honors by French and American detachments.

(By The Associated Press.) WITH THE AMERICAN ARMY IN FRANCE, May 19.—Major Raoul Lufbery, of the American Flying Corps, has been killed in an aerial battle. Lufbery's home was in Wallingford, Conn.

The German machine which brought Lufbery down was armed with two machine guns with an operator for each piece, and apparently escaped. Lufbery's only wound, aside from those received when he crashed to earth, was a bullet hole through the thumb. Apparently the same bullet punctured one of the gasoline tanks of his machine.

The German machine was under heavy anti-aircraft fire several times both before and after the air fight, and one explosion of a shell upset the enemy plane, but it managed to straighten out again.

Teuton Employers Ruse. It was about 10 o'clock this morning when a German triplane suddenly descended from the clouds, apparently because of engine trouble, until it was only some 1500 meters over the city of Toul. The American flyers were on the alert and some of them headed for the fighting line to await the enemy on his return.

Lufbery and the pilot of another machine made after the German, who quickly ran away from the direction of the line, the two American machines following him. Eight miles away from the enemy's line Lufbery was seen to attack from under the tail, but then he drew off as if his machine gun had been jammed. Two minutes later he attacked again from the same position and almost immediately his machine burst into flames.

A French aviator this afternoon shot down an enemy plane 400 yards away. Two men from the plane were captured by the Americans. The Germans came from somewhere in the rear. It is reported that the pilot of the machine which brought down Major Lufbery.

Plane Falls in Flames. Major Lufbery jumped from his machine when 800 yards above the ground. He had 17 victories to his credit.

The Americans on the ground and hundreds of French men and women going to the church along the country roads were horror-stricken as they saw the airplane like a ball of fire plunging downward. The machine, which was in a man leap from the machine. Lufbery's body fell in a little flowering garden, while his airplane, still burning, dropped to the ground 400 yards away. By the time the first Americans had reached the spot, the body of the famous flyer had been taken by the French to the city of Toul, where it was covered with the French tri-color and great piles of roses and wild flowers.

WITH THE AMERICAN ARMY IN FRANCE, Saturday, May 18.—(By The Associated Press.) Control of the air no longer belongs to the Germans along the Toul sector. Aerial activity there seems to be increasing daily, but the Germans are not permitted to growl about freely.

Fighting American airmen have locked wings with the enemy brought down is overwhelmingly in their favor. In fact, they have had such good fortune that they are wondering whether it can keep up without change. They are not passing by a single chance to get at the enemy.

Enemy Flies in Flocks. The German airmen have started to fly in flocks, at great height.

WASHINGTON, May 20.—General Pershing's communique today brought his best story so far of the valor and sacrifice of American blood on the battlefields of France. It also gave eloquent testimony to the spirit of democracy which knows no race or color. It told of the gallant death of Major Raoul Lufbery, premier American Ace of the Flying Corps, gentleman globe trotter and one of the first flyers of the celebrated Lafayette escadrille. It told also of the heroic fight of two American negro soldiers, both wounded, who withstood a raiding party of 20 German and saved comrades from surprise and capture.

Notwithstanding these two incidents General Pershing referred to yesterday as a "quiet day."

WITH THE AMERICAN ARMY IN FRANCE, Saturday, May 18.—(By The Associated Press.)—The German biplane brought down yesterday by Captain David Peterson, of Honesdale, Pa., his third since May 15, was conquered after a fight five kilometers within the German lines. Peterson and another pilot came upon two enemy machines, one 2000 meters high, the other 2800. The Americans each picked out an enemy airplane and attacked it.

German Seen to Crash. Captain Peterson, diving on the tail of the one 2000 meters high, fired 30 shots at close range. The enemy went into a spinning nose dive and crashed to earth. One other enemy machine escaped.

37 DIE IN BIGGEST LONDON AIR RAID

Injured in Metropolitan Area Total 155 and in Provincial Districts, Six.

5 GOTHAS BROUGHT DOWN Battle Between Gunners Defending City and Enemy Airships 12,000 Feet Above Continuous for Two Hours.

LONDON, May 20.—Thirty-seven persons were killed and 155 injured in the London area during last night's air raid. Six persons were injured in the provinces. The casualties are divided as follows:

London and the metropolitan police district—Killed: Men, 17; women, 14; children, 6; total, 37. Injured: Men, 85; women, 18; children, 52; total, 155. Provinces—Injured: Men, 1; women, 3; children, 1; total, 5. Considerable damage to property has been reported.

The aerial attack of the Germans yesterday on London and its suburbs probably was the most ambitious ever undertaken. Never before was there such a continued volley of firing from the British anti-aircraft batteries.

Raid New to Thousands. Thousands of persons had their first experience in raid. They were visitors from many points of England, Scotland and Wales, who took advantage of the wartime holiday which ran from Saturday until Tuesday, to visit the metropolis.

On the other hand, thousands of Londoners had gone to the country and seashore resorts. They cut short their visits and hurried back to London to learn the fate of their homes and relatives.

Except for a few brief pauses, the gunners blazed away with a terrific concentration of shells. The raiding Gothas flew at a great height, the majority of them keeping well up to 12,000 feet in a very clear sky.

Four Raiders Fall. It was the first air raid on London since March 19, when four raiders fell before the defenses of London.

Besides the four air raiders already mentioned as having been destroyed during the air raid on London last night, a fifth was brought down and fell flaming in the sea.

Two other Gothas also are reported to have fallen at sea, but definite confirmation of this is lacking, according to a supplementary report issued by the War Office tonight.

The moon was shining brightly when the raiders crossed the southeastern part of London. The moon was reported to have fallen at sea, but definite confirmation of this is lacking, according to a supplementary report issued by the War Office tonight.

The usual warnings were given promptly and the people had time to reach shelters before the guns in the neighborhood of London were heard. The firing was almost continuous for more than two hours and was unusually severe. Several bombs were dropped by the raiders.

The number of enemy aircraft is not known, but they seem to have been more numerous than usual.

ARMY WILL HANDLE MAIL Postmaster Insists on Change to Meet Secrecy's Demands.

WASHINGTON, May 20.—Delivery of mail to and its collection from the American expeditionary forces has been taken over by the War Department. Postmaster General Burleson in making this announcement tonight said the postoffice had insisted on the Army conducting its own mail service in France because of the refusal of the French authorities to accept the conduct of operations there, to disclose to the postal authorities the location and movement of troops.

Orpheum Actor Is Called. William Dooley, of the comedy team of Dooley & Nelson, appearing at the Orpheum this week, last night received a telegram from Chicago directing him to appear in that city May 22, in replacement of the actor who was called to the military draft.

BISHOP NAMED CHAPLAIN Charles H. Brent, With Other Clergymen, to Go to France.

NEW YORK, May 20.—Bishop Charles H. Brent, of the Episcopal diocese of Western New York, has accepted an appointment as chaplain of the American expeditionary forces, according to a cablegram received here today. With the Rev. J. L. Doherty, a Catholic priest, and Paul Moody, son of the late evangelist, Dwight L. Moody, as associates, he will co-ordinate the work of the American chaplains in France, the message says.

Alaska Has Sphagnum Moss. JUNEAU, Alaska, April 19.—This section of Alaska will likely contribute a large share of the sphagnum moss needed by the American Red Cross for surgical dressings. There are bogs near here which are said to produce it abundantly, and local Red Cross workers are making preparations to collect large quantities of it.

Church-Building Pastor Resigns. BUTTE, Mont., May 20.—Rev. L. A. Wilson, who gained wide fame last year by organizing a congregation drawing the plans for a church and then going out and building it almost singlehanded, has resigned to go to France as one of the general secretaries of the field Y. M. C. A.

SINN FEIN IN HUN PAY

British Government Informed Teuton Gold Was Used.

PUBLICATION IS TALKED OF Delegate of Accused Irish Organization Attempts Demonstration at Dublin Involving United States Labor Mission.

LONDON, May 20.—The Times says it understands the government will publish the evidence against the Sinn Feiners. It urges that this be done immediately, so that "thousands of Irish dupes should know that they are unwilling instruments of a movement supported by German gold."

The Daily Mail says the Germans hoped the Irish revolt would synchronize with the gigantic offensive they are now preparing. The Daily Mail says the Irish executive followed the precedent set by Abraham Lincoln, who arrested hundreds of dangerous persons.

Dublin is outwardly quiet, and the Sinn Feiners have nominated Professor John McNeill and Arthur Griffith to places made vacant by the arrest of Professor de Valera and Arthur Griffith.

Movement to Proceed. Substitutes, it is understood, are to carry on the movement "during the enforced and what must be made temporary exile of our leaders." The six Sinn Fein members of Parliament are in custody.

DUBLIN, May 20.—A Sinn Fein delegate who called on the American labor delegation now in England, endeavored to create a scene in the hotel lobby by declaring loudly that Americans were not treating the Sinn Fein fairly.

The members of the American mission replied that they would be glad to listen to all sides and that they pursued to view the Irish question without prejudice, but that they could not take sides in internal British questions.

DUBLIN, Sunday, May 19.—A Sinn Fein demonstration today at Coyote Hill, East Cavan, was attended by 5000 persons. Among the speakers were two priests.

Spasmodic Outbreak Likely. The Sinn Feiners throughout Ireland, who had been waiting for two days for a cue as to what action to take, tonight received a proclamation from a party committee appointing new men to take the places of those arrested.

The effect of this proclamation probably will be to intensify the Sinn Fein against any spasmodic outbreak. The policy seems to be to sit tight and await the orders of the newly appointed heads of the organization.

BELFAST, May 20.—Maud Gonne McBride, widow of John MacBride, who was executed in May, 1916, for the part taken by him in the Dublin uprising on Easter that year, has been arrested.

A dispatch to the Times from Holyhead says that 46 of the Sinn Fein prisoners arrived there on a warship Saturday night. They were marched to a camp. The Countess Markievicz was sent to London. Other prisoners were expected at Holyhead.

With the exception of Professor de Valera and Countess Markievicz, who appeared to be dejected, the prisoners did not seem to be disturbed.

Correct fashion lines may be achieved by stout and medium figures, without selecting sizes smaller than the figure demands, if Rengo Belt Corsets are worn. Here are scientifically designed corsets, apparently no different than any ordinary corsets, yet tailored in such a manner as to reduce positively, comfortably and in accord with fashion's latest lines. All Rengo Belt models have the strength to hold and mould the figure absolutely to their designed lines—they will not break or bulge under the most severe strain that the very stoutest figure may put upon them. For that reason the size your figure demands will satisfy you absolutely and you will not suffer the discomfort of attempting to force the figure, as is usual when medium and stout women wear ordinary corsets.
